BETTER FIRE PROTECTION

Aldermen Adopt Several New Ordinances To Reduce Fire Risk

After several hours of discussion the board of aldermen Monday night adopted four new ordinances, three of which were in the line of fire prevention and one governing the collection of ashes and rubbish.

An informal hearing was granted on one of these ordinances, that affecting roof covering and Mr. William Bacon, a non-resident said it was not fair treatment for Newton to prohibit the wooden shingle, which he claimed was the cheapest and best roofing material for the poor man. He said that one hundred million shingles were used each year in the Metropolitan district and everyone should have the privilege of using them outside of the fire limits. He claimed that the asbestos shingle was sold under a patent and that the price would rise if the wood shingle was banned. Other kinds of shingles he claimed had not been used long enough for a proper test and that the asbestos shingle cost double that of wood and slate, half as much again as wood.

President Blakemore was in the chair and Aldermen Cox was the only member absent.

Hearings which were unattended were held on the location of street railway poles on Elliot street, on the widening of Rowe street and keeping gasolene by J. S. Wilson, Washington street, the Newton Hospital and A. K. Casson at Chestnut hill.

The Water Commissioner asked for \$3315 for increasing size of certain water mains and eliminating certain dead ends. The Street Commissioner reported the completion of work on Marshall street, a report was received on the perambulation of the Newton-Waltham line, the board of health reported abatement of wet land nuisance on Needham street, the Overseer of the Poor asked for \$300, notices were received from the Republican, Democratic and Progressive committees of participation in the city primary on November 17, the Gas Co. asked permission to open certain streets for gas mains, a petition was filed for sewer in Lexington street, of the Telephone Co. for attachments on Groveland street and Clark street, H. S. Decker for 3 auto cabs, P. J. Gleason for 1 auto cab, F. J. Busch for pool tables on Walnut street, and the Edison Co. for leave to withdraw on pole on Summer street.

On recommendation of committees the Edison Co. was given a relocation on Beacon street, Waban, attachment on Ridge avenue, the Telephone Co. was granted attachments on Jackson street, Washington street, and Church-street, \$350 was authorized for a water main in Trapelo road, \$1000 for granolithic curbing on Adams street, sidewalk assessment levied on Newtonville avenue, small transfers authorized in the Accounting and Water departments, and grants made in the Playground and Charity Departments. Hearings were ordered for November 13 on taking land for sewer in Ransom road, for laying out of Blackstone terrace under general law and of Beech street under the betterment law and for taking land for sewer off Waverley avenue.

The appointment of Mr. George R. Pulsifer to be a member of the Board of Appeals for three years was confirmed unanimously.

Alderman Murphy opposed the ordinance regulating the collection of ashes by saying that the provision to keep ashes in metal receptacles was unnecessary and a great hardship on many people who used wooden barrels for that purpose. Alderman Pratt thought that such wooden barrels were most dangerous from a fire prevention standpoint. Alderman Rice said this

ordinance regulated our cellars and he thought we were passing altogether too many restrictions. Alderman Murphy also questioned the requirement to place barrels on the sidewalk line and said the present custom of having the city teams go to the rear of business blocks should be continued and he asked that the matter be recommitted. Alderman Bartlett opposed recommitment saying that the committee could get no more light on the subject. He did not think this ordinance absolutely necessary as the Mayor and Street Commissioner could make rules along similar lines but as these officials wanted the authority of the board behind them it might be wise to pass it. Recommittment was refused by a vote of 9 to 11 and after one or two perfecting amendments had been adopted and considerable discussion as to the word "garbage" in the ordinance, it was finally adopted.

The ordinance requiring incombustible roof material after January first was also debated, Alderman Bemis saying that while he sympathized with the intent of the ordinance, as was drawn it worked quite a hardship on persons living in sparsely settled districts. He thought the purpose might be better obtained by enlarging the fire districts or relieving buildings 200 feet away from its provisions. Alderman Rice said that 10,000 people were affected and that a public hearing ought to be held. Alderman Bartlett said that the committee had given a hearing and 39 out of 40 people present had favored the ordinance. Brookline, Boston, Salem, Chelsea all have such ordinances and the Bangor fire was caused by sparks flying 1000 feet.

Alderman Bemis said that a limit of 200 feet would probably not prevent a fire but would prevent a conflagration. The matter was then tabled to get the opinion of the Chief of Fire Department and his endorsement was subsequently received. Public Buildings Commissioner Forbush was called upon and told of tests recently given in Cambridge of incombustible and fire retarding roofing and said that slate cost about \$1.00 more per square yard than shingles and asbestos about the same as shingles. A penalty amendment of \$100 fine was added at request of Alderman Bartlett, recommitment was refused and the ordinance then adopted.

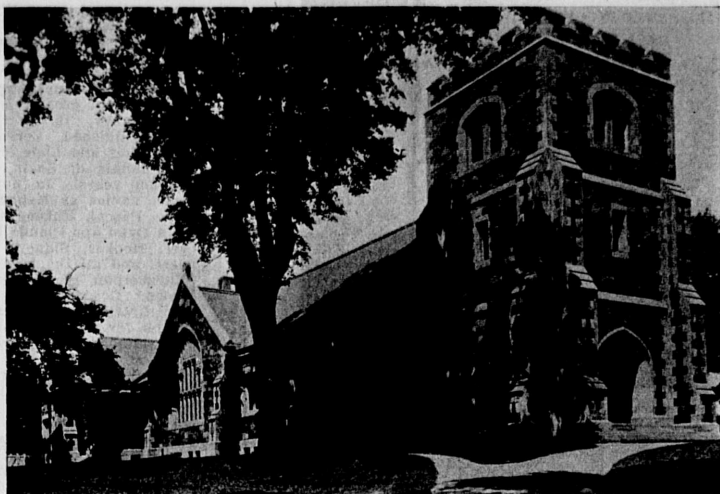

An ordinance regulating combustible waste on apartment or tenement property was adopted without debate. The ordinance requiring wooden buildings to keep 7 1-2 feet from lot lines and 15 feet from other buildings, was amended in one or two small ways on suggestion of Alderman Bemis, after which Alderman Jarvis stated that there was a strong sentiment in favor of the change among real estate men and while it might seem a hardship on small lot owners, the 15 feet restriction would still give room for a 35 foot building on a fifty foot lot.

Alderman Bartlett said the board had just one duty in this matter, the fire risk. It had no right to pass ordinances because it looked better to have houses farther away from each other. This ordinance he claimed was confiscation and we take 10 feet of land away without compensation. This ordinance would require fire proof buildings erected on lots of 30 or 40 feet in width and he had yet to find another city with such a drastic ordinance. Boston requires but five feet and the restriction in other cities applies only to two apartment houses. A fire that will jump a distance of ten feet between buildings will jump fifteen feet just as easily and ten feet gives adequate room for

FIRST CHURCH HAS NOTABLE CELEBRATION

Observes Its 250th Anniversary With Interesting, Impressive and Dignified Exercises Covering Two Days

THE FIRST CHURCH IN NEWTON

The First Church in Newton celebrated its two hundred and fiftieth anniversary this week with dignified and impressive service in its handsome and commodious church edifice in Newton Centre.

The celebration began last Friday night with communion and reception to new members, in which the pastor was assisted by Rev. Dr. William Ewing and Rev. Parris T. Farwell. A memorial address was given by Rev. Dr. William H. Cobb and there were soprano solos by Mrs. S. W. Wilder of Newton Centre.

The public celebration began Sunday morning, when the large church was entirely filled with members and interested friends. Rev. Albert G. Bryant and Rev. Wolcott Calkins assisted the pastor, Rev. Edward M. Noyes, D. D., who gave an historical sermon which is printed in full in this issue. The musical program was in charge of Mr. D. Ralph Maclean, the organist, the church choir being assisted by Miss Lillian V. Lyatey, Miss Alice V. La Marchant, sopranos, Mrs. Ethel H. Nunn, Mrs. Cara Sapin, altos, Messrs. Lester M. Bartlett, Charles R. McAllister, tenors, and W. E. Davidson and Henry Kelly, basses. In addition the congregational singing was augmented by a chorus of men who occupied the first five pews in the body of the church.

Bible School Service
At the Bible school service, Sunday afternoon, the Superintendent, Mr. Charles E. Kelsey said that Newton was a peaceful and orderly town and its life was sweet and clean, because of the influence of the church and schools on the community, and the First church is entitled to a large share in this result. The Bible school endeavors to teach three things,—to form the habit of going to church—to observe Sunday aright—and to study the ideals of Christ. The topic of the day was the observance of Sunday and the pastor, Rev. Dr. Noyes was introduced to speak on "Sunday in the Past".

Dr. Noyes said that Christians, who were arrested in the first century, because they were Christians, were asked the question "Do you keep the Lord's day?", and made to fight with wild beasts if they answered in the

affirmative. Later there were so many Saints days in the calendar, that the Reformation swept them all away. The Puritans came here largely on account of the observance of Sunday in the old country, where races and sports were allowed and the day generally desecrated. The Puritan Sabbath began at 3 o'clock on Saturday afternoon, and no work was allowed after that hour. It was not a joyous day, but a day of holiness. We should not forget what Sunday meant to our fathers, a sacred and quiet time to worship God and we should cherish and keep it in our day.

Mr. Allan C. Emery, president of the Newton Y. M. C. A. spoke on the Sunday of the Present, saying in part:—"There has been quite a departure from the old blue laws; we have gone far to the other extreme. In many of our American cities, crowds attend Sunday baseball games, theatres and other places of amusement. In our own city, we have Sunday golf, tennis and moving pictures, and other pastimes common on week days. We see, however, a trend back to a more strict observance of the Lord's Day. Labor organizations are working for one rest day in seven and on the continent, where shops are open seven days, an effort is being made to close one day in the week.

"How did Jesus keep the Sabbath? He visited the sick and healed them, opened blind eyes and saved sinners. He attended the House of God and spent time in prayer and in the study of God's word. Can we do any better than to follow in His footsteps? I doubt if we shall make any great headway in keeping this Holy Day unless we first learn to love Him, who died on the cross that we might live, and who rose from the dead on the Sabbath Day and ever liveth to make intercession for us."

Rev. Dr. James L. Barton spoke on Sunday around the World, saying that there were two observances, one as a national day and one as a religious day. The national day is observed all round the world, no schools and all government work ceasing in Japan, China and India, as the government makes it a day of rest. The missionaries have also carried Sunday around the world as a religious day. In Mexico Dr. Barton said he tried to preach in a church near a bull fight, and in many places a man has to lose a day's pay, if he keeps Sunday. The Mohammedans keep Friday as a day of rest, and the Jews observe Saturday. The Hindus do not have an especial day, but have numerous sacred festivals, which cover about 100 days in the year. Dr. Barton gave it as his opinion that where people keep sacred the Sabbath Day, they live and grow and he believed we can judge of one's loyalty to Christ by the way he keeps Sunday.

Rev. Jason N. Pierce of Dorchester spoke on the Sunday of the Future, saying in part that while various classes of persons kept sacred one day in the week it would help us all if we could all agree on which day to observe as sacred. Attempts are being made to have an open Sunday for commercial purposes, and advocates of such legislation have been shown to be managers of pleasure resorts and of transportation companies interested in such places. SIX CENT FARES ALLOWED

Public Service Commission Grants Part of Petition of the Local Street Railway Company

By authority of the Massachusetts Public Service Commission granted last Saturday, the Middlesex and Boston Street Railway Company began on Wednesday to charge a unit of six cents for fares on its lines in Newton and Waltham where the rate has hitherto been but five cents.

The request of the Company to charge one cent additional for transfers is denied by the Commission and free transfers are to be given at all existing transfer points, subject to revision by the Commission. The Company must also sell nine-ride tickets at fifty cents.

The report and findings of the Commission are quite lengthy and the position of the Commission is elaborately set forth.

In brief the Commission holds that it must consider the Company as a whole and holds that the rural lines are feeders and perform an important moral and social function. The policy of requiring short ride patrons to contribute to the larger cost of longer rides has been the policy of the Commonwealth for many years.

The Commission discusses at length the basis on which dividends should be made and says that under Massachusetts law the honest and reasonably prudent investment, represented under normal conditions by the capitalization, must be taken as the basis of reckoning fair and reasonable rates. The Commission finds that \$125,000 represented in the debt of the Company on account of its purchase of the old South Middlesex road is illegal and must be cancelled.

It severely criticizes the holding company, the Boston Suburban Electric Co. saying that the control of a street railway company by a holding company, which loans large sums to the street railway company at a substantial profit to the holding company, which controls a company selling power to the street railway company and also owns a park company to which large annual payments are made by the street railway company, is obnoxious to sound principles of corporation management and confusing to a proper system of regulation by this Commission. There is also some criticism of the power contract with the Edison Co. and also of the

rates it paid for money borrowed from the holding company.

Its relations with the Norumbega Park Co. are illegal and an attempt to avoid the limitations set upon the ownership of pleasure parks by the statute. They also say that the annual charges for maintenance have been inadequate to take care of depreciation and obsolescence properly chargeable as a part of operating cost. The Commission, however, says it is driven irresistibly to the conclusion that at no time have the rates been adequate to meet the fair cost of service and that with an average dividend of 4.35% the patrons of the company have had much the better of the bargain as compared with the investors in its stock.

The Commission also goes into the contention made by Waltham and Newton that not more than five cents can be charged on account of original grants of location and states that the statute of 1913 gives the Commission the absolute right to revise and cancel any of such agreements.

On the matter of its abandoned power plants the Commission says that the Company cannot be permitted to buy its power at a pretty high price and to keep, permanently, unused power plants of its own. Within a reasonable time it will be its plain duty either to equip and use its own plants and to sell its unused property, as a public utility company cannot be permitted to carry permanently at the rate payer's expense substantial amounts of dead property.

The Commission goes deeply into the financial standing of the Company, readjusting them on the basis that certain items should be subtracted and other added, and comes to the conclusion that the company must receive an increase of \$67,500 in its yearly revenue in order to permit of the payment of a normal dividend on its stock. That it is costing the Company substantially more than five cents per capita to carry passengers on its lines, the average revenue last year being 5.44. The Company's request would yield a revenue of \$110,000 annually but the Commission believes that two-thirds of this amount is in the public interest and required in justice to the company.

POLICE NOTES

On account of many complaints during the past few months of the stealing of automobiles in Newton Centre, the police have had several plain clothes men in that village and on Saturday night caught three young men taking the car of Mr. William G. Snow from his garage on Devon road. In court Monday morning, Stafford Brown was fined \$50 and the cases against Cushman Nathan and William Wellman were placed on probation.

EDITORIAL

Our friend, the editor of the Wal-
tham Free Press Tribune presents the
editorial in the last issue of the
GRAPHIC in regard to the proposed
football match between the high
schools of these two cities, and uses
nearly a column of space in recalling
the events which took place at the
last meeting of these two schools.
While the editor of the GRAPHIC ex-
pressed rather emphatic opinions last
year as to these unfortunate events,
and has still the same opinions, the
editorial in question was directed en-
tirely at present conditions. It will
do no good to try and place the blame
for the trouble of last year, but it will
do some good to try and prevent simi-
lar trouble the present year. The
GRAPHIC believes it is far better to be
sure than sorry and if the match is
not played, the educational and moral
tones of both schools, cannot be
seriously affected.

The action of the Public Service
Commission in allowing an increase
from five to six cents in the single
fare on the local street railway in
Newton and Waltham appeared to be
the only solution of the difficulty this
Company was in financially. Some
concession to the travelling public
has been granted by the provision to
sell nine tickets for a half dollar and
this with the refusal to approve the
cent charge for transfers is to be
commended. Attention is invited to
a summary of the report of the Com-
mission in the news columns and to
the criticisms of the Commission to-
wards the holding company and its
relations to the street railway com-
pany.

While the Commission has not gone
into the matter of extending the scope
of the transfer privilege, it distinctly
reserves the right to do so and the
residents of the Crafts Street line in
this city should immediately take
some action to remove the present
discrimination against them in this
respect.

The members of the old First
Church in Newton have observed the
two hundred and fiftieth anniversary
of the founding of that church with
dignified, impressive and most fitting
services. The entire city joins in ex-
pressing its admiration for the past
of the church and its appreciation of
the present and its wishes for its
future growth in spiritual and mater-
ial prosperity.

HISTORICAL SERMON

Delivered By Rev. Dr. Noyes At First Church
250th AnniversaryREV. EDWARD M. NOYES
Pastor First Church.

I Kings XXI:3, "The Lord forbid it
me, that I should give the inheritance
of my fathers unto thee."

This is a just and natural sentiment.
Naboth's indignant refusal to sell to
King Ahab the home of his fathers is
approved by all serious and earnest
men. It recognizes the debt of every
generation to the past, and the obliga-
tion to hand on to its successors the
undiminished heritage. There is an
old grape-vine in Hampton Court from
whose branches Oliver Cromwell and
John Milton plucked the purple clus-
ters. It still lives and every autumn is
richly laden with abundant fruit. But
the vine does not belong to England's
king. It is his only to enjoy the
grapes, prune the branches, and fer-
tilize the roots. The vine belongs to
generations yet unborn. The political
and social institutions, the domestic
customs, moral and ethical ideals,
and the religious faith, by which our
lives are moulded are our inheritance
from the fathers. Degenerate sons
indeed are we, if we fail gratefully
to recognize our indebtedness to their
fidelity, and our obligation to pre-
serve, maintain, and develop this
precious heritage, and hand it on to
our children.

As Naboth may have climbed the
tower of his vineyard, tempted by the
king's offer, and knowing that refusal
would be at the hazard of his life, and
yet as he looked over the fields made
sacred by the toil and sacrifice of his
fathers, resolved to die rather than
give them up to royal greed; so this
morning, from the eminence of 250
years of history, we survey our inheri-
tance in this ancient Church. Shall
we not realize anew how it has been
consecrated by the devotion of eight
successive generations and with loyal
hearts declare, "The Lord forbid it
me, that I should give the inheritance
of my fathers unto thee?"

The exact date when the Church
was organized was July 20, 1664, old
style. The summer vacation was un-
known to that generation, but the
modern annual exodus led us to post-
pone the observance until this more
convenient season. The 200th Anniv-
ersary fell in war-time, in 1864, when
there was no heart for historical cele-
brations, and some doubt whether or
not we were to have any more national
history to celebrate. But in October,
1889, the 225th Anniversary was fit-
tingly observed. So thoroughly and
adequately was the history of the
Church presented in the discourses of
Dr. Furber and Mr. Holmes, and the
addresses of the other speakers, and
so complete and admirable is the vol-
ume which records this celebration,
that there is no need for me to tra-
verse again this familiar ground. It
would be ungracious to weary you
with the repetition of the details of
our annals. But, while I shall not at-
tempt to trace minutely the history of
the Church, year by year, or even to
describe the successive stages of its
growth, I do desire to remind you of
certain permanent characteristics. For
a Church is like an individual,
whose body is constantly changing,
whose spirit abides the same. The
membership of a Church is ever be-
ing renewed, but its character persists
from year to year, in spite of outward
changes. Certain traits which were
prominent in early days have marked
its whole career, and are still readily
discernible. In mechanics we are
taught that a body set in motion tends
to follow the initial direction in a
straight line unless diverted by some
new and more powerful force. Those
sturdy pioneers who settled these fer-
tile valleys gave to this Church an
impulse which it has tended to fol-
low. John Piske has called the years
1782 to 1789 the "Critical Period of
American History." The political
ideals then adopted have dominated
the national development. The early
years are apt to be decisive in the life
of a man or an institution, determin-
ing in large measure the direction of
later activities. Our interest in this
hour, therefore, is in the study of
corporate biography, tracing in the
life of this Church the development of
some of its marked characteristics.

Every biography begins with a
sketch of the hero's ancestry. Hered-
ity is appealed to for an explanation
of his major impulses. Nor can we
hope to understand an institution
without some knowledge of the life

from which it sprang. Our immediate
family history begins in Cambridge.
Newton was originally a part of Cam-
bridge, known as Cambridge Village,
and from 1639, when the first settler,
Dea. John Jackson, set up his home
here, until 1680, when the first meet-
ing house was built, the people went to
Cambridge to church, and not until
1661 were they released from paying
rates for the support of worship there.
We may well be proud of our family
relationship to the First Church in
Cambridge with its noble history. It
was no small privilege to sit under
the preaching of the "faithful and
famous" Shepard and his successor,
the "matchless Mitchell." It is to be
remembered that those who organized
this Church were, for the most part,
young people. Of the forty male mem-
bers, but most of the heads of families
were under forty-five. Thirteen young men,
twenty-one years of age or more,
joined with their fathers on the day
of organization; and one youth, at
least, who afterward became a deacon,
was only nineteen. The minister, or-
dained that same day, was only twenty-
eight years old. This was from the
beginning a Church for young people,
and especially for young men, and
such it has always remained. All
these young people had grown up in
the Cambridge church, and the learn-
ing and piety of the famous men who
ministered there must have made its
impression upon them.

But while our immediate family his-
tory begins in Cambridge, and we can
trace the origin of certain recognized
traits in the lives of the fathers,
we must go much farther afield to find
the sources of the spirit which ani-
mated them, nor shall we be able ac-
curately to locate them amid the
transforming mists of time. That is
true, in large measure, of course, of
every life. Professor Drummond, in
his "Ascent of Man," describes the
building up of the human body through
the long ages, and tells us that the
lower orders of nature have each con-
tributed, to the completion of the mar-
vellous structure in which we dwell.
In like manner, John George Romanes,
in his "Mental Evolution of Man,"
traces the slow development of mind,
and emphasizes the gifts which past
ages have made to the evolution of the
intellect and the storing of its treas-
ures. How infinitely more precious
the gifts of those unknown ancestors
who contributed to the slow develop-
ment of our moral and spiritual facul-
ties, the parents of the soul. We be-
lieve that God made man in His own
image, and that these supreme gifts
are His endowment. But, if we are
to accept the modern scientific state-
ments of the method by which God
bestowed His bounty upon us, it fills
the soul with a new sense of obliga-
tion to the unknown past. In the
background of every life moves this
vast invisible company, like the pro-
cession of worshippers in Judah's an-
cient temple on her Feast days, each
bearing his gift to lay upon the altar,
this slow causal chain of history, each
adding his contribution to the great
bond. Your moral sensitiveness, your
judicial temper, your unselfish sym-
pathy, the honesty on which you pride
yourself, are due in some measure to
the struggles of those unknown pre-
decessors who fought against the beast
within and conquered for your sake.

An age like ours, restless, prodigal,
vehement in its self-confidence, may
well give sober recognition to its debt
to a more austere and temperate past
for the gifts it holds so lightly.

While this is true, in some measure,
of every life and every age, it is es-
pecially true of the first settlers in
this land that they brought hither
much of greatest value, whose origin
they could not have traced. They
came out of lands which had been
profoundly moved by vast moral and
political forces. They bore in their
very blood the distilled essence of a
thousand struggles for faith and free-
dom. Through their martyrs and
prophets reached out to these virgin
fields to realize their glowing
visions. The early settlers of New-
ton were of sturdy English stock, as
their names bear witness. Clements, Druce,
Fuller, Hammond, Hyde, Jackson,
Kenrick, Park, Prentice, Trowbridge,
Ward, Williams, Wiswall,—how many
of these names are interwoven with
all our civil and religious history!

They were plain, practical folk, al-
most entirely from the middle class;
hardworking, God-fearing, Bible-
reading people, eager for a larger op-
portunity. But they brought with
them, perhaps unconsciously, what
Dr. Storrs has called, in one of his
great orations, "the power and prom-
ise from the greatest age of European
advancement." It was in 1664, the
very date of the founding of this
Church, that New Amsterdam was cap-
tured by the English and became New
York, and the English domination of
the colonies was made complete. The
metropolis is celebrating this very
week the 300th anniversary of the be-
ginnings of its commercial life, when
Adrian Block built on Manhattan Is-
land its first small vessel, and fitly
named it "The Restless." Glance for
a moment at the century that preceded
the founding of this Church, and the
capture of New Amsterdam, from the
coronation of Queen Elizabeth in 1558.
It saw the flowering of art in southern
Europe. It saw Tasso crowned and
Calileo imprisoned. Tintoretto, Paul
Veronese, Titian, Guido Reni, Salvator
Rosa and Michael Angelo are among
the stars of greater magnitude in its
artistic sky. It saw the dome of St.
Peter's finished. Cervantes, Calderon,
Velasquez and Lope de Vega adorned
the annals of Spain during these
golden years. In northern Europe,
such names as Kepler, Moliere, Ras-
cine, Pascal, Rubens and Rembrandt,
Van Dyke and Claude Lorraine, Spen-
ser, Hooker, Sidney, Milton, Shaks-
pere, and all the lesser lights of the
Elizabethan glory belong to its re-
nown. Descartes and Leibnitz, New-
ton, Grotius, and Spinoza opened new
paths for human thought. What a
marvellous era! Before the awakened
eyes of humanity new worlds in art,
in philosophy, in literature, in com-
merce, in trade and in political ex-
pansion were opening. It was an age
to quicken the imagination and stimu-
late men to great daring and great
achievement. Especially did this mu-
nificent, heroic century, witness the
decay of authority and the swift ad-
vance of popular power. It was in
1649, only fifteen years before this
Church was organized, that Charles I
was beheaded, and for the first time
in history, the English commons dared
to claim supremacy above royalty it-
self. The "divine right of Kings" was
henceforth, for Englishmen, only a
memory. Hidden forces suddenly
found expression. The settlement of
America had expanded the world to
the minds of Englishmen. The popu-
lar imagination was excited by tales
of sea-faring adventure and rich dis-
coveries. Nothing seemed impossible
or incredible. Above all it was the
age of the Reformation, when religion
had become again the supreme in-
terest of men. The immediate privi-
lege and the constant obligation of
every man to come to God, without
the intervention of priest or cere-
mony; the assurance of forgiveness
through the Cross, and the consequent
absolute equality of all souls before
God; the mighty promises of fellow-
ship with the highest, and the dignity
of that humanity to which so unspen-
sable a right had been granted; these
momentous truths came upon the
minds of men like a revelation from
heaven, and stirred human society to
the depths. No longer was the Bible
in the hands of scholars alone, but in
the homes and hearts of the people,
and true to the prophetic description
of Jeremiah, the Word of God became
a hammer, shattering the strength
of ancient tyrannies, and sending
leaving mighty impulses upon the
world.

Such was the century out of whose
abundant life the early settlers of this
land came. This was their birth-per-
iod. Its eager impulses came with
them. They brought its vigor, its en-
ergy, its open-mindedness to new
truth, its confident daring in the un-
dertaking of new enterprises. They
came largely because they represented
this spirit; because they felt that there
was little hope that it was longer to
be the ruling temper of the England
they loved; because they preferred the
hardships of the wilderness to life in
a land where the reaction to civil and
religious tyranny held sway. Charles
the Second was on the throne in 1664,
and some of the founders of this
Church came directly from England,
in search of a spiritual climate more
congenial to their souls than England
promised under the Restoration.

II. Coming out from such an era,
and trained by such experiences, what
manner of men were those who here
covenanted to walk together in brother-
hood fellowship, and what are the char-
acteristics of the Church they estab-
lished?

On account of the length of the ser-
mon and the pressure of other im-
portant news, the remainder of the
sermon will be printed next week.

ELECTED SENATOR

Mr. George H. Ellis of Newton Has Large
Majority

Representative George H. Ellis of
this city was elected Senator from the
First Middlesex District by a majority
of 1298, a tremendous gain over the
vote of Senator Hilton last year, the
figures for this year being 7533 for
Ellis and 6235 for Hall, his Demo-
cratic opponent. The vote in the dis-
trict was as follows:—

	Ellis	Hall
Ashland	157	174
Framingham	1276	1204
Holliston	183	205
Hopkinton	144	274
Natick	763	1309
Newton	3562	1934
Sherborn	130	79
Watertown	1011	1013
Weston	307	43
	7533	6235

MR. ELLIS GRATEFUL

When asked by the GRAPHIC for
an expression of opinion on the elec-
tion, Mr. Ellis said: "I am very sorry
for the defeat of Mr. McCall, but it
will be simply a case of try once
more; another year he can surely be
elected."

"As to my own election, although I
got what may be called under the cir-
cumstances a handsome vote in the
First District, I owe the election to
my friends and neighbors in New-
ton for whose confidence in me, and
general satisfaction with the work I
have been able to do in the past five
years in the Legislature, as evidenced
by their votes, I want to express my
heartiest appreciation. I shall hope to
merit a continuation of this confidence
in the upper branch of the Legisla-
ture."

HARVEST SUPPER

A very successful Harvest Supper
and Social was held in the Newton
Highlands Congregational church
Wednesday evening. An efficient com-
mittee with Mrs. J. H. Turnbull as
chairmen were hostesses at tables
literally groaning under their burden
of good things. The unique decora-
tions planned and carried out by Mrs.
A. H. Armstrong were most attractive,
consisting of comical little people
made out of fruit and vegetables.
Autumn leaves gracefully arranged
added the finishing touch. With-
drawing to the parlors decorated prettily
with yellow "mums" and autumn
leaves, kindly greetings were ex-
changed for a half hour; then fol-
lowed a most enjoyable program, in-
cluding singing of several solos by
Miss Ouida Cefrey and Mr. Roland
Barnes, accompanied by Mrs. David
Cox who was in charge of the eve-
ning's program. Hon. Seward W.
Jones gave an interesting and in-
structive account of his trip to the
Panama Canal and the closest atten-
tion was given to Mr. Paul H. Smart
as he related his experiences abroad
this summer.

A sufficient bond, signed by a surety
company authorized to do business in
the commonwealth of Massachusetts,
for the faithful performance of the
contract in the penal sum of one thou-
sand dollars will be required.

Specifications and forms of contract
can be obtained at the office of said
commissioner.

Said commissioner reserves the
right to reject either, any or all bids.

GEORGE E. STUART,
Street Commissioner.

SENATOR WEEKS SPEAKS

Guest At Meeting Of Men's Club At West Newton

The monthly meeting of the West Newton Men's Club was held at the Second church, West Newton, on Wednesday evening. After the usual dinner, the following speakers were introduced by the President, Mr. Joseph N. Lovell:

Mayor Edwin O. Childs urged the Club to do a large portion of its outside work among the young men of Newton.

Senator-Elect George H. Ellis seconded the remarks of Mayor Childs regarding the work the Club might do for the young men of Newton.

Representative Henry E. Bothell spoke of the election of Mr. Ellis as a member of the Senate and called attention to his remarkable work while a member of the House. He also called attention to the vote on the questions of referendum upon the State Election ballot, especially the question of instructing the Representatives of this District to vote for the initiative and referendum. While the vote of the City had been in favor of this question, he did not believe that it was the will of the voters and that they did not fully understand the situation and he would not vote for the initiative and referendum now.

Representative-Elect Thomas Weston, Jr., stated that his standing as a Republican had been doubted by many. He said that he believed the dividing line between a Republican and a Progressive came upon the question of initiative and referendum and that he was decidedly opposed to this question. He said that like Representative Bothell he did not propose to vote in favor of the initiative and referendum.

Senator John W. Weeks was then introduced by the President and spoke somewhat as follows:

"Having heard from the politicians doubtless you will be glad to turn to a neighborly discussion of public questions.

"These politicians have said a great many things and I like to spend an hour in discussing and doing it without any partisan flavor. I want to refer to one thing and that is the prevailing notion which people have had that we can run a country like ours on the plan of a pure democracy. The old fashioned New England Town meeting was ideal for its purpose, but when the large number of people we have collected within our borders, who from the very nature of things cannot know their neighbors very well, attempt to run a government on that basis, it is of course, the height of folly.

"I noticed a statement a day or so ago about the California ballot at the last election. It was eight feet square, and in addition to the names to be voted for there were forty-eight constitutional amendments and questions, including even questions upon the advisability of issuing certain bonds. Under the law of California they issue a book previous to the election regarding these questions. This is issued at a considerable expense and goes to every registered voter. The book this year was one of 112 pages of fine print. My point is this, that in the first place, 99 out of 100 men have no time to consider these things, 99 have not had the experience necessary to pass upon these questions even if they had time to read the book. You are sure to get bad legislation as a result of that kind of practice.

"The way to run a government is by electing competent men to represent you. Legislation is almost as much of a profession as the profession of law or of the ministry. Every Jack cannot be a good legislator. I went in town this morning with four men, and none of them had read these referendum questions before going to the polls. The referendum is not an intelligent way to handle legislation.

"But to talk about some of the things attempted in Washington the last 18 months. For 16 years previous the Republicans had been in control. Every political party issues a platform on which it votes to get into office. Platforms are not the last word of all members of any party.

"Mr. Bothell and Mr. Weston are taking the right position in refusing to vote for what they do not believe in. I have never and I am not going to as long as I represent you in Washington.

"I want to call attention now to the extravagance in the expenditure of government money. I don't believe there is a man in this room who has ever gone over to City Hall and protested against the expenditure of a single cent of the city's money, and there are very few of you who have not gone to the City Hall some time or other and asked for appropriations for some purpose in which you were interested. That is not only true of the municipality but of the State and the National Government. It pertains more perhaps to the National Government than any, because men have come to believe that it is easy for the United States to raise money. One of these days there is to be a grand round-up and we are going to find we have piled up indebtedness far beyond our means and we are going to have trouble in making payments.

"Every political party that comes into control in the United States has a part of its platform a plank which promises economy. Economy in the expenditure of the Government's money is almost impossible. I have often criticised our Democratic friends on the floor of the Senate because they have increased our debt about ninety millions in the last three years. I can get more credit for getting some poor widow a pension than I can for saving the government an expenditure of ten million dollars. We have changed our form of raising money during the last administration. Herebefore we have raised about \$325,000,000 each year from customs dues. Republicans believe in raising this revenue by levying duty on foreign goods of which goods of similar character are manufactured within the United States, and thereby protecting industry. Democrats believe in raising the same amount, but principally

on goods which are not the products in this country.

In the legislation which took place a little over a year ago we established a National Income and a National Corporation tax. Out of over twenty-five million registered voters, about 500,000 are taxed under this income proposition.

"In connection with this discussion I heard a distinguished Senator say in answer to the question as to how much he would levy against certain incomes, that if a man had an income of \$100,000 he would take about one-half of it, and that he ought then to have enough left. That is not taxation, it is confiscation. If this was done we would get into extremely dangerous ground. A tax is for supporting the government, and every voter should be levied upon according to his income. We have passed a war tax bill. It is not only sectional but it is personal in its character. It will only affect a small section of the country.

Senator Weeks spoke of the passage of the Aldrich-Brecher currency bill, establishing a Monetary Commission, and Twelve Reserve Banks. He said that he had been criticised among his banking friends for voting in favor of this bill, but that in his judgment it was very much better than previous banking bills and that it would do more good than harm. He believed that one fault of the bill however, was the establishment of the twelve reserve banks, and that one central bank would have been the proper method of handling the situation. This he said was the practice in all of the larger foreign countries.

He also spoke of the passage of the Panama Canal Toll Bill. He said that he had carefully examined the different Treaties with Great Britain and that he was unable to find a single point where the United States was morally bound to tax its own coastwise shipping for the privilege of passing through this canal. He said that Senator Lodge, an authority on the question of international treaties, had agreed with him on this point, but that Senator Lodge had voted for the bill because he thought it was a good policy to protect our international relations.

—Mr. Marcus Morton, Jr., of Yale University spent the week end at his home on Highland avenue.

—Miss Helen Douglas held a pupils' recital Wednesday afternoon at her studio on Bowers street.

A meeting of the Young Woman's Club of St. John's Church was held Tuesday evening at the residence of Miss Frances Richardson on Page road.

—Mr. and Mrs. John Daboll of Walker street have announced the engagement of their daughter, Miss Elizabeth Daboll and Mr. Wendell S. Brown of Providence, R. I.

—Mr. Harry C. Wear of Trowbridge avenue was a member of the reception committee in charge of the smoker given last Friday at the Copley-Plaza to the football team of the University of Michigan.

An auto cab owned and driven by Mr. T. A. Brady collided with a grocery truck at the corner of Washington and Crafts streets last Friday afternoon and Mr. Brady's machine had the worst of the encounter.

The Sunday School Parents' and Teachers' Reception was held Tuesday evening in the parlors of the church, assisted by the new pastor, Rev. William F. Wunsch gave an interesting address on "Task and Privilege in the Sunday School."

The third season of regular monthly vespers at the Universalist church, Washington park, will be inaugurated next Sunday afternoon at 4.30, when an especially attractive musical program will be rendered by the regular quartet of the church, assisted by Mme. Wilhelmina Wright Calvert, who will be heard in several solos, as well as in concerted numbers with the choir. There will be a short address by the new pastor, Rev. Rufus Dix. The public is very cordially invited.

—Mr. Joseph E. Bird who died Sunday at Montclair, N. J., at the age of fifty-three years, was a native of Woburn and was at one time engaged in the silk business in Boston. He later removed to Newtonville, where he married Miss Gertrude Smead and resided for many years on Court street. In 1894 he located in New York. Mr. Bird is survived by a son and one daughter, and was a member of Mt. Ida Council, R. A. Funeral services were held Thursday afternoon at 3.30 in the chapel at the Newton Cemetery.

The Japanese Bazaar, which will be held next week on Tuesday and Wednesday under the auspices of the Ladies Aid Association of Central church, promises unusual attractions, for the ladies in charge are making no effort to provide, not only for the holiday shoppers, but for the little folks as well. Mrs. Alfred E. Vose is chairman of the committee in charge. Many a suggestion and useful presents will be found on the fancy table, which will be in charge of Mrs. Earle E. Hopkins. The linen table will be in charge of Mrs. H. N. Chadwick; Domestic table, Mrs. Walter T. Kelley; Children's table, Miss Florence Crain; Candy table, Mrs. Edwin P. Cawce; Mystery table, Mrs. Raymond Tucker; Fruit table, Mrs. A. D. Auryansen; Flower table, Miss Louise Sherman. The Queens of Avilion will preside over the lemonade table and the ice cream parlor and tea room will be in charge of the members of the Central Guild. A Cafeteria Supper will be served under the direction of Mrs. Fred E. Mann. Mr. Chauncey Waldron will have charge of a shooting gallery for the boys and a novel grab has been prepared for the children by Mrs. Chauncey Waldron. The bazaar will be opened from one in the afternoon until ten in the evening, and supper will be served both evenings. The advertising slogan is "Do Your Christmas Shopping Early."

NEW CHRISTMAS BOOK

Rev. J. Edgar Park of the Second Congregational church at West Newton has just published another of those delightful Christmas books which have been read with so much pleasure in the past few years. The new book is entitled "The Rejuvenation of Father Christmas" and is a charming fairy tale with "Peace through Goodwill" as its dominant note.

The book is published at fifty cents by The Pilgrim Press of Boston.

SUNDAY AFTERNOON CONCERTS

The series of Sunday afternoon concerts in Symphony Hall began with much success last Sunday with the annual appearance of the Philharmonic Orchestra of New York. Next Sunday afternoon at half past three will come the first of the artists' concerts which will employ two singers of highest rank, Madame Olive Fremstad, dramatic soprano of the Metropolitan Opera Company, New York, and Mr. Pasquale Amato, the distinguished Italian baritone of the same institution. Both of these singers have gained the highest prizes possible in their chosen profession and they have made a program of songs, arias, and duets which will be more than usually attractive.

PLYMOUTH THEATRE—The most important of the theatrical announcements made to date, concerns the first Boston appearance of the celebrated English actor-manager, Mr. Cyril Maude and his all English company from his London Playhouse, at the Plymouth Theatre, Boston, starting Monday evening, November 9th. Mr. Maude will present here the same play, "Grumpy," which created such a furore in New York. "Grumpy" is described as a new kind of detective play, offering Mr. Maude a character role and his all English company to advantage. The play was written by Horace Hodge and T. Wigney Percyville, two actor-playwrights whose best known previous work was "Sunday."

COLONIAL THEATRE—Julian Eltinge, artist extraordinary to the American theatre-going public, coming to town next Monday this time in an entirely new piece, "The Crinoline Girl," in which he achieved so much success last spring. "The Crinoline Girl" affords Mr. Eltinge the opportunity of appearing in his famous duel characterization of a pleasant young man and of a superlatively charming young woman. It is a play with music, a "farce melodramatic comedy with songs" to use the exact billing provided by the author, Mr. Otto Hauerbach, who wrote "The Fascinating Widow," the musical comedy which served Mr. Eltinge for three seasons. It is said to "abound with thrilling situations, laughable complications, tender sentiment and dainty music." Surely he would be an ultra fastidious theatregoer who would ask for more!

WEST NEWTON MUSIC CLUB

The West Newton Music Club opened its season with a concert at the residence of Miss Elizabeth Alley, Chestnut street, West Newton, Monday evening, November second. The program consisted of a violin concerto by Master William Wagner accompanied by Miss Wilhelmina Wagner; songs by Miss Bessie Talbot Salmon accompanied by Miss McDowell; piano solos by Miss Alice McDowell; and a trio of violin, Master Wagner; cello, Mrs. Lillian Haynes Walker; and piano, Miss Wagner.

WILBUR THEATRE—William Hodge has entered upon the third month of the big success of "The Road to Happiness" at the Wilbur Theatre, Boston. It is no wonder that this unique impersonator of distinctively American types should have scored so pronounced a hit again in this new role of young Jim Whitman, for no one else on the stage today can equal him in this line of characterization. Speaking of "The Road to Happiness" and this latest role of Whitman, Mr. Hodge himself declares that the foremost reason why he decided to produce the drama, when he first read it, was the essential Americanism of this struggling village youth. "I take Jim Whitman to be the universal type of the ambitious young American of today," remarks Mr. Hodge, "and I feel that he represents the best ideals of American character. In him is that peculiar blend of wit and wisdom which is our national feature."

MAJESTIC THEATRE—Manager Harry Von Tilzer will offer "To-Day," the startling drama of contemporary life in New York, by George Broadhurst and Abraham Schomer at the Majestic Theatre, Boston, for the fifth and last week, beginning next Monday, Nov. 9. "To-Day," which enjoys the enviable distinction of being the drama longest on the boards in New York during the theatrical year 1913-14, is described as one of the most profound and striking of human dramas in that it discusses one of the prevalent problems of married life. Edmund Breese, a sterling actor, who is always sure of a warm welcome all through New England, heads the very strong cast which includes: Ethel Valentine, Marie Cottrell, Margaret Robinson, Grace Thorne Coulter and Bernard A. Reinold.

CASTLE SQUARE THEATRE—Next week will see Henry Bernstein's powerful drama, "The Thief." The part of the young wife who steals from her best friend to buy the pretty dresses which her husband admires, is one of those in which there is room for considerable variety of interpretation, and it will be interesting to see how Miss Mary Young, whose advance in emotional work has been so marked of late years, deals with the tremendous scene in which the wife is forced to confess her guilt. Others in the cast will be Mr. William Carleton, Mr. Dudley Hawley, Mr. Alfred Lunt, Mr. Morrill Morrison and Miss Betty Barnicoat.

FIRST CHURCH CELEBRATES

(Continued from Page 1.)

perience proves that a day of rest is necessary and the community that observes such a day is better off. Each generation has made its contribution to this 25th anniversary and we should do our utmost to do our part by placing Sunday in a high place, standing for it, talking for it and working for it.

The musical feature of this service was the singing of an anthem by a chorus of young girls with solos by Mrs. S. W. Wilder.

Young People's Service

The Young People's service Sunday evening was the occasion of greeting two former members of the church, Mrs. Mary Kingsbury Simkhovitch, of Greenwich House, New York and Prof. Arthur G. Webster of Clark University, Worcester.

Mrs. Simkhovitch spoke on "The Church and Social Service" beginning her address with some interesting reminiscences of her younger days in the church.

She described the church as that great group which recognizes the principles of life as taught and exemplified by Jesus as being applicable and possible of fulfillment. Social work she described as the conscious effort to make human life happier, juster and more intelligent, with more "team play" in it. A national program of social work is gradually emerging in a rough way, a program which would first remove the incubus of the obviously unfit by the segregation of the feeble minded and other abnormal groups. A positive program in public hygiene to fit the individual in relation to life from infancy to manhood; the development of public recreation; social insurance against every type of economic misfortune; a clearer understanding of all problems of industry, including an insistence on free speech and public assembly and a revised system of taxation which will bear hardest on those who can best afford it. There is no antagonism between ideas of democracy and efficiency. If democracy isn't efficient, it will fail. If efficiency isn't democratic, it will throttle us.

There are two ways the church may connect itself with social work, and taken broadly, they are the "institutional" and the "inspirational" church. One danger of the "institutional" church comes from the different points of view of many types of people, of many religious groups. An ulterior motive will be attributed to any work of this kind, and creates a natural suspicion, and carries with it, the seeds of failure.

The other type of church is better equipped to fulfill its purpose, by vitalizing the desires of its members so that they will want to express their faith in the coming of the Kingdom of God by doing something to make it come. In other words, it ought not to be how to build up the church but how to make the church useful to the world.

A school is far better adapted to be a community centre than a church, for at school more groups can unite. But what is our community. The world is the final neighborhood and the question every Christian is asking himself at this solemn crisis, is how can the Church serve the world.

If we are appalled at the great breakdown in our civilization, yet we are also reason for encouragement. Many of the great hostilities we witness are wormeaten within, even when galvanized to the present white heat of enmity and the individual combatants have misgivings. In older wars it was not common for each to blame the other for beginning the war, and we have made some progress through an ever increasing understanding of one person by another, of one nation by another. We know that as individuals we gain in personality only as we are able to live in the life of others. A man grows who lives in the life of his family and his friends. His personality gains enormously if he learns how to live in the life of those he has thought of as enemies, and the unity is thereby weakened. It is by the extension of this principle, fundamentally Christian, that we can expect the church's greatest service to the world.

The basis of understanding is respect. The unwillingness to try to see the point of view of alien races or groups, is distinctly anti-Christian, and it is the most fundamental failure in relation to social work, to try to bring about a state of understanding.

It would not be feasible to attempt to revive excommunication, but if it were, this would be the one thing which ought to exclude the possibility of a person using the name of Christian, if he should fail to try to live in the life of others, if he sets up for himself a little house from which he excludes all visitors—where he has a nicely assorted set of little thought proof opinions which he doesn't intend the existence of any outside facts shall ever threaten. In the long run the only place to keep house is in the world, and all our other houses have got to be placed in that setting. Provincialism is no particular sin, geographically considered, but spiritually it is unforgivable in our more complicated world.

Professor Webster spoke in part as follows:—

"At the close of the Civil war, Newton Centre was a small village, one of a number of small villages in an area that composed the town of Newton, with long unoccupied spaces between. On the Common was the old wooden school house, containing both grammar and high schools, later moved across the way and still later transported to its present position on the other side of the lake. It was replaced by a larger wooden structure, whose burning at night was one of the events of my early childhood. Across the street where the Methodist church now stands, stood the town house, in which the town meetings were held, showing that we were nearer the political centre of the town than we are now. There were but two churches, this one and the Baptist, both wooden buildings without pretensions, altho the sharp spire of this church was a pleasing addition to the landscape. The nearest Catholic church was in Watertown, whither our pious domestics repaired, walking both ways. The only shops were the

old wooden Cousens block on Station street where a market, grocery and plumber's shop offered their wares without competition, in the friendly company of the postoffice, presided over by one of our one legged veterans of the war. The war was a very real thing, even to those of us too young to remember it, for old soldiers with one leg or arm were common sights and the exercises of the Post at the cemetery on Memorial Day produced a most vivid impression.

The single track railroad crossing all streets at grade, which constituted our only connection with the great world ran perhaps half a dozen leisurely trains a day to Boston, the circuit road being unthought of. Of course there were no trolley roads, nor even horse cars. I presume there was no hotel in town, probably not a restaurant. There were no clubs of any sort. There were no police, but the sexton of this church in the intervals of his undertaking business acted as constable, and coped with such crime as there was. Most of the houses in the village were clustered around the common, the hill and Beacon and Centre streets. From our house at the top of Beacon street we had an interrupted view of the whole of the lake, then known as Baptist Pond which was then surrounded by woods, except on the side of the railroad, there being but one house on the whole shore, and Lake avenue extending only to this house. Newton was certainly a rural community. Life was very simple and healthful and we were free from the excitements of the present day with the telephone, automobile and the moving picture.

I well remember the austere interior of the old church and the impressions made on me by the sermons of Dr. Furber, then in his prime. The religion of those days was a rather austere one. We heard much of predestination, of total depravity, of the theory of the atonement and of the more sombre side of religion. Science was mistrusted and unsound, and we were warned against the writings of Darwin, Huxley and Tyndal. Dr. Furber was a very serious man and did not laugh often, but exerted a great influence by the absolute purity of his character and the sincerity of his convictions. No less potent was the influence of his gifted consort whose Sunday school class for women was a notable feature of our schools today.

I am afraid that our outlook on the world was somewhat restricted. Our political views may be judged from an incident which I remember on an election day. I saw Dr. Furber coming up the stairs to vote. He was approached by Mr. Samuel Jackson, one of our members, who offered him a Democratic ballot. Dr. Furber himself up with dignity. Dr. Furber exclaimed in strong tones, "Mr. Jackson, I love my country far too well to ever use that ballot." As a matter of fact most of us thought very nearly alike. Unitarians were as scarce as Democrats. Morals were austere, intoxicants almost unknown, amusements few.

There were no sports in the present day sense. Baseball and card playing were severely frowned upon and I had to go to Brookline to learn to dance. This is a decided contrast to our present day when people between fifty and sixty take pains to learn the lango and maxixe, which are no sooner learned than they are superseded by something new. Music was hard to hear even in Boston but we did frequently have lectures on some attainment. Remember that business is not all, nor the principal thing. Our country is in her place as a great power, not by a huge navy nor by great crops, but by her moral and intellectual superiority. But whether it be science, art, literature or social service is of small moment, so that you do it with your might, that is, do it unto the Lord.

Rev. Dr. Francis E. Clark told some interesting facts regarding meetings of the young people in the old time, which lasted two hours and included lengthy sermons and told how the present growth of the young peoples' organization was due to the great vision of a larger service in the wider world. He urged everyone to be sympathetically neutral in the present crisis in Christianity and when war shall cease, the young people should work to bring all nations together in love and peace.

At the close of this interesting service Mrs. Simkhovitch and Prof. Webster held an informal reception and were greeted by many of their old friends and neighbors.

Fellowship Service

On Monday afternoon, a Fellowship service was held under the direction of Rev. Dr. James L. Barton at which, as Dr. Barton said, the church kept still and listened to the tributes brought to it by loving friends.

Mayor Childs brought the greetings of the city, and said that the church bears vital relation to the city, for a city with churches is a safe city to live in, as the church is the organized conscience of the community. The mayor bore testimony to the far reaching influence for good, direct and indirect, which had emanated from this church due to the godly men and noble women who had labored here and laid a broad and deep foundation, on which we are now reaping the fruits of their labors. He characterized the First Church as a spiritual force, an active church, a working church, a force pump and not a sponge, and a church which had ministered to the spiritual needs of one generation after another. The promise of the future, he said, comes with no uncertain sound and it only remains for this generation to do its part not only to make the church prosperous, but to make it great.

Rev. Raymond Calkins, D. D., pastor of the First Church in Cambridge, brought the congratulations of the mother church. Dr. Calkins stated that when the Newton church wished to separate from the mother church in 1660 there were but 135 taxable persons in the entire parish, and the first oppositions to relieve the Newton parishioners from a half the ministerial taxes, and later from all such taxes, provided the Newton church would pay twenty pounds forever to the Cambridge parish were rejected and complete separation effected in 1664. He urged the Newton church to revive the old allegiance and the old bond of fellowship in the many things the two churches have in common. He commented on the coincidence that

after all merely boys' play. Again I say nothing against the healthy sport and amusement, swimming, skating, walks and tramps in the woods. One of the chief results of education should be to give a proper sense of values. Putting more value on what is play than what is work is a case in point. The automobile has had a marked influence on society. Improvements in transportation are among the chief advances in civilization but what shall we say when the darting aimlessly about the country at fifty miles an hour is made the chief interest of a large class in the community. What shall we say of a class that expends \$10,000 on a single vehicle and thrusts it in the faces of the less pampered classes. A machine cannot be accused of being immoral but the automobile lends itself easily to all sorts of immorality from the murderous assaults of the Paris Apache to the wasting of the young in their most precious years. What of a machine which converts a peaceful and kindhearted citizen into a ruthless disregard of the rights of others.

There is much complaint of the inefficiency of our schools and colleges. Business men say our graduates can neither write, reckon nor speak correctly. Clergymen complain that people do not come to church. The reason is the same. Young people do not consider their duties to be the main thing. Neither do their parents and the lust of the automobile and of the golf links choke the word and it becomes unfruitful. The great social problem of the times has been due to the concentration of population in cities and the immediate complication of life. The telephone has abolished privacy. Every one is on the rush and no one has time to think. Altho we have fifty magazines where we had one fifty years ago, with the Sunday red and yellow terrors, the good reading is not as common as it used to be. Even the theatre, is not of a high quality and is now being supplanted by the moving picture theatre, which appeals to those who have not ears to hear and can only see. I have said enough of the ways to waste time, which is to me the one cardinal sin. Is there not such a thing as good taste, and can it not be inculcated? This is the task for the school and the church as well for the church should stand for the life and achievement that should enable its members to do ways influence education and to uplift its ideals. The church must teach character, not merely by precept, but by example. The church must take a leading part in the social amelioration which is such an encouraging symptom in our life today, and in that it must be supported by the school. The idealism of our schools today is, that they do not teach character as the first end of all education.

We have a rather high grade of general education in this country, but we are singularly lacking in intellectual giants. We have produced some painters, sculptors and musicians of distinction but we have been far from doing our part in literature, scientific discovery or the diffusion of good taste.

The need of the hour is some one to convince us, old and young, that work is greater than play and that it must be done. Bestir yourselves. Remember that life gets nothing without great labor. Get enthusiasms, resolve to create something that did not exist before. Fix your eyes on some attainment. Remember that business is not all, nor the principal thing. Our country is in her place as a great power, not by a huge navy nor by great crops, but by her moral and intellectual superiority. But whether it be science, art, literature or social service is of small moment, so that you do it with your might, that is, do it unto the Lord.

Rev. Dr. Francis E. At the close of this interesting service Mrs. Simkhovitch and Prof. Webster held an informal reception and were greeted by many of their old friends and neighbors.

Mortgagee's Sale

By virtue of a power of sale contained in a certain mortgage deed given by Emma A. Jacobs to the Weymouth Savings Bank, dated January 5, 1911 and recorded with Middlesex South District Deeds, book 3575, page 273, for breach in the conditions of said mortgage and for the purpose of foreclosing the same, will be sold at public auction on Monday, the sixteenth day of November, A. D. 1914, at ten o'clock in the forenoon, on the premises, all and singular the premises described and conveyed by said mortgage deed, namely:—

A certain parcel of land with the buildings thereon, situated in the City of Newton, in that part called Auburndale, being lot numbered thirty (30) on a plan of houselots in Auburndale, belonging to W. W. Low and others, made by Wallace C. do it. An ash pan is hard to remove and it usually spills the ashes in carrying.

The deep Ash Hod of our latest ranges catches all of the ashes, is easy to remove and carry and does not spill the ashes. Coal Hod beside it. Both hods free with each range.

Then there is a wonderful "Single Damper" [patented]; gives perfect control of fire and oven. Better than two dampers. Have you seen it? Gas ovens if desired, end [single] or elevated [double].

The above is JUST PART of the result of a neglected bearing "knocks"—for in this particular case the crankcase, crankshaft, a pair of cylinders and two connecting rods were ruined. Don't try to save the cost of having US overhaul your car this year—it's a mighty poor policy for you are risking your life and will have a greater expense next year besides having a "loose" car on which you can't depend.

FIRST CHURCH CELEBRATES

(Continued from Page 4.)

The Cambridge church had had 11 pastors in its 275 years while the Newton church had had ten pastors in its 250 years, the average pastorate being the same.

Rev. Dr. George E. Horr of the Newton Theological Institution brought the greetings of the First Baptist church, saying that the two churches had been like an older and a younger sister during the many years they had existed in the village. He brought the sincere admiration and appreciation of the community for the practical solution this church afforded of the proper relations between church and state, by the way it had ministered to the young people by its vital interest in their welfare and a happy union of social forces in their behalf, and because the pastor and people had loved each other and realized the sanctity of their relations. Dr. Horr said that 1914 would be a memorable date in the world's history and that we stand on the threshold of a new age, but confident that the forces that have sustained this church will be needed more than ever in advancing the kingdom of God.

Rev. J. Edgar Park of the Second Church at West Newton brought the congratulations of the oldest daughter, and told some interesting incidents connected with the separation of the West Newton church 50 years ago. He stated that the West Newton church was the mother of 11 others and that none had fallen by the way. Harmony, he declared, reigned among your entire family and we all rejoice on your long service to this community.

Rev. Dr. Noyes read some interesting congratulatory letters from the First Baptist Church of Newton Centre by Mr. Grant Edmonds, clerk, from the Newton Centre Methodist Church by Rev. Dr. W. E. Huntington, Dr. W. P. Cooke and Mr. M. A. Chandler, its committee, from Rev. Dr. Conrad of the Park Street Church, Boston, Rev. F. B. Richards of St. Johnsbury, Vt., Rev. Dr. Edward C. Moore, president of the American Board, Rev. Dr. Bushnell of Arlington and Prof. W. A. Donovon of Newton Centre.

Rev. Dr. Charles H. Culter, pastor of the Union Church, who spoke for the youngest daughter, who said that many visit the birthplace of Shakespeare, that it is the glory of many a city that it was the home of a celebrated son, and it was the pride of many a college to number the distinguished ones of the earth among its numbers and in some such spirit the church should take pride in the work of its sons and daughters. What an august body would be gathered here if it would be possible to summon all of your sons and daughters of these ten generations.

Rev. Dr. George A. Gordon of the Old South Church of Boston, was represented by his associate, Rev. W. H. Butler, who added a denominational note to the celebration by calling attention to the celebration. He believed that the denomination form of government came closer to that ideal of democracy epitomized in the New England town meeting than any other, and that the church was on a broad foundation of which the corner stone was religious liberty. The church built in education and an educated ministry and was also distinguished for its missionary spirit. He declared that the church was worthy of the very best the people could give it.

Rev. Edward T. Sullivan spoke for the other churches in the villages and recalled an illustration he had used when the corner stone of the present church was laid, taking the old man mentioned in Revelations with his snow white hair, to represent maturity experience and wisdom and the flaming eye, for the fire and forces of early manhood, and which he thought was a fitting symbol of this church. To this he added another illustration comparing this church with the description of the paragon of the "Desert Village" as "allured to brighter worlds, and led the way." This was the feeling of the other churches towards the First Church and he recalled how the arms of this church were opened wide to his own church (Trinity) with hearty good will, when the last child of the old age of the village was born. This spirit of fellowship and brotherly love, he said, had given Newton Centre a wide reputation and ecclesiastical speaking our name is Utopia. We admire the splendid initiative of your men and the leadership of your women and the social, civic and spiritual feeling among you. Your Bible school is the despair of all, together with your benevolences and other good spirit. In closing, Dr. Sullivan paid a high tribute to the present pastor, Rev. Edward M. Noyes, whom he said had stood the test of neighborliness and the test of time and who so worthily maintained the high traditions and efficiency of this church.

At the close of the service, the organist gave a brief organ recital. A banquet was given at 5.30 that afternoon with covers for about 500 members and guests. Tables were laid in the dining room, the Sunday School room and by the courtesy of the Trinity church in its new parish house across Homer street. Following the banquet, several toasts were given in the Sunday school room. Mr. William H. Rice, chairman of the general committee and an interesting letter from the Pilgrim Church of Duluth, Minn., where Rev. Mr. Noyes had formerly officiated, and its reading was greeted with prolonged applause. Mr. Frank H. Stewart was the toastmaster and performed his duties with great efficiency. Rev. Dr. S. M. Crothers of Cambridge was the first speaker to the toast, "The Liberty of Prophesying." Mr. William F. Bacon spoke for "Old New England Churches and their children," Hon. J. M. W. Hall on "Church Folks" and Rev. Dr. W. E. Huntington on "Fidelity to Conscience."

In the evening a large congregation was present to hear the oration by Rev. Charles R. Brown, moderator of the National Council, on the subject, "The Church that stands Four Square." Exhibition of Relics

In connection with the celebration an interesting collection of articles more or less connected with the ancient life of the church were on exhibition in the north parlor. The articles included the Bibles given by Rev. Nehemiah Hobart, the pastor from 1774 to 1712, to his daughter Abigail on her marriage to Rev. John Flisk, of which marriage the late Judge R. R. Bishop was a great-grandson. There were also Bibles used by Dr. Furber and others from the Ward and Hyde families. A collection of communion cups dated from 1727 to 1768 also attracted considerable attention together with the violin with which Deacon Elijah F. Woodward used to lead the choir. The sword carried by Capt. John Woodward at Lexington and the pewter, flint steel, sand box and silver snuff box of Rev. Jonas Merriam (1758-1780) were also of interest to the present generation. Pictures of the Newton High school boys and girls of 1853 and a picture of Charles Ward and the last letter written by him to his mother from the battlefield of Gettysburg in 1863 were within the memory of many who looked at them.

The value of the debating club has been recognized this year by the school authorities, one point being awarded to each member. The club held its second meeting in the chemistry lecture room on Monday morning. President Kepner presided. Three debates are to be held during the year, the first to come in January, and probably away from home.

The first number of the Review has appeared, and contains many interesting articles.

One of the English teachers, Miss Carey, is coaching a three act comedy, "A Detective in Petticoats," which is to be given in the New Church Parlor, November 20, 8 P. M. The play is for the benefit of the Lynn Neighborhood House and the Junior League. The cast consists of the following High School students,—Miss Sylvia Church, Miss Edith Brown, Miss Kathryn McLaughlin, Miss Elinore Wales, Miss Emily Howard, Miss Margaret Sampson, and Miss Margaret Hinkley.

FIREMAN HURT

The Newton Fire Department made its third annual trip to Auburndale Saturday evening about 5.30 to extinguish a blaze at the old Crane house on Rowe street.

Three years in succession the old house has mysteriously caught fire on Halloween, and were it not for the prompt arrival of our Fire Department each time, the old building would be now in ruins. It is carrying Halloween "pranks" a bit too far when old buildings are set on fire, and as a result of the "prank," one of the firemen, Murdock J. McLeod of Newtonville, will be laid up for several weeks. Mr. McLeod fell off a ladder and was seriously injured about the neck, chest and lower limbs. It might be a timely suggestion that the old building should be torn down, before the arrival of another Halloween, or our police department have to take the matter in hand, and have the culprit appear before Judge Kennedy to answer to the charge of incendiarism.

firemen to work in case of fire. At the committee hearing only 2 persons out of 40 favored this matter.

Alderman Jarvis replied by calling attention that the five feet in Boston was a "minimum distance" and thought that plenty of publicity had been given the subject. A letter from G. F. Barthelme was read opposing the ordinance and it was then adopted by a vote of 14 to 5.

A previous vote by which the board had granted permission to manufacture fireworks by the Masten & Wells Co., Needham street, the National Fireworks Co. and J. B. Van Doren on Blake street was criticized by Alderman Clark who opposed granting the permits on Blake street. He said that this plant was one of the worst fire risks in the city, that the whole layout was dangerous and asked the board to reconsider its action. Alderman Rice said that this place had always been licensed and these people only make a light kind of fireworks. Alderman Blanchard said this place was in his neighborhood and was only used for making toy torpedoes and caps. Alderman Clark said that cap material was explosive and combustible in its nature. That this company had bought this plant after losing a former plant thru fire and explosion and we ought not to encourage this kind of business. The board refused to reconsider the matter by a vote of 5 to 12.

Petitions of J. J. Delaney as auctioneer and of M. T. Mehigan for a taxi cab were granted.

President Blakemore took the floor and presented a proposed ordinance increasing sewer assessments from 15 to 20 cents per front foot and from five and one half mills to seven and one half mills on area. Mr. Blakemore said that the first ordinance in 1890 placed the whole cost on the abutter at 60 cents a foot, in 1892 this was changed and the city assumed one quarter of the cost and in 1893 it was still further changed so that the city paid one half the cost. These ordinances were based on an estimated cost of \$1,750,000 and this cost at present had totalled \$2,117,000, due to the increased cost of labor, the lessening of hours of labor and cost of materials. Every sewer ordered now by the board entails a cost to the city of about 65 per cent instead of 50 per cent as the ordinance presupposes. He did not believe it fair to those who had paid 50 per cent of the cost of sewers in the past to pay, in the general taxation, for the 15 per cent which present day abutters were relieved from paying. The ordinance was referred to the committee and after ordering notice to be given by the Street Commissioner of the new ashes ordinance, the board at 11.10 adjourned.

WOMEN'S CLUBS

MISS GRACE M. BURT, Editor.

The group of buildings held by the Civics Association of Norwood, where the State Federation of Women's Clubs met on Wednesday, is one of which every citizen of the town may be justly proud. The plant includes gymnasium for boys and for girls, swimming pool, social halls, billiard and pool tables, a stage for dramatics, a drill hall. There is an athletic field with running track and baseball diamond. At one corner of the grounds the "Corner House" provides a home for eight workers, as well as an emergency hospital and kitchen laboratory, where the girls of the public school have lessons in cooking in the morning and the women of the town in the evening. A recent acquisition is an adjoining house, which has already been partially fitted up as a "model house." Here a class of girls was having a sewing lesson when the delegates were being shown about. The Association provides every thing a Young Men's Christian Association building furnishes, with the added advantage that both boys and girls and their parents may be enjoying its privileges together. The enterprise was created by a public spirited citizen, who is still fostering it, but in time it is hoped to make it self-supporting. It is controlled by a board of trustees and a board of managers. There are about 1000 members of the Association, whose fees also go towards the expenses.

Newton Federation

The Autumn meeting of the Newton Federation of Women's Clubs will be held on Wednesday, November 11, at 2:30, in Players' Small Hall, West Newton. Mrs. True Worthy White, chairman of the Literature department of the State Federation, will address the members upon "The Value of Contemporary Literature when Rightly Read." A social hour with tea will follow.

Local Announcements

"Union Club Day" will be observed at Newton Highlands on Monday, Nov. 9, when all the clubs of the village will join for a meeting. Rev. Abraham Ribbany will give an address on "Wise Men of the East and Wise Men of the West."

On Tuesday, Nov. 10, the Auburndale Woman's Club will meet at the Congregational chapel. Mr. F. H. Tucker will speak upon "Household Linens."

The first meeting of the Home Economics class of the Newtonville Woman's Guild will be held at the New Church parlors on Tuesday, Nov. 10, at 2:45. Miss Frances V. Lund of the Technical High School will be the speaker.

At the meeting of the Social Science Club on Wednesday morning there will be a paper on "Jonathan Edwards" by one of the members.

The West Newton Women's Educational Club will hold the first regular meeting of the season at Players' Small Hall on Friday afternoon, Nov. 13. The program is in charge of the Home Economics department and will be a demonstration lecture by Mrs. H. L. B. Darling, "Serving of an Imaginary Luncheon and Dinner."

The Travel Class of the West Newton Women's Educational Club has postponed its meeting from Nov. 11 to Nov. 18 in order not to conflict with the meeting of the Newton Federation.

Local Happenings

Mrs. L. H. Marshall, president of the Newton Highlands Monday Club, entertained the members at her home on Nov. 2nd. The study of South America was continued. Mrs. G. A. Salmon presenting a paper on "Argentina." Miss Lucinda B. Gilbert took for her subject "Buenos Ayres, the Paris of South America." Refreshments were served during the social hour.

At the meeting of the Newton Highlands C. L. S. C. held with Mrs. H. B. Rogers of Newton on Monday afternoon Miss Marion Dorr was in charge of the work. Miss Dorr gave an exhaustive paper on the history of Ireland beginning with the Anglo-Norman invasion at the end of the 12th century and continuing to the time of Elizabeth in the early part of the 17th century. She dwelt particularly upon the struggles of the Catholics and Protestants to gain supremacy and gave a detailed account of several of the famous battles.

The Newton Mothers' Club met at the home of Mrs. Norman Bingham on Prince street, West Newton, on Monday afternoon. Miss Margaret McGill of the Newton High School gave an instructive talk on "Knowledge and Character," including in it many things which every mother ought to know. A social hour with light refreshments closed a profitable afternoon.

On Tuesday morning the Newton Parliamentary Law Club met with Miss M. R. Wheeler at Vernon Court. The time was spent in parliamentary drill under the direction of Mrs. E. M. Sherman.

Mrs. George M. Angier entertained the Waban Woman's Club on Monday afternoon, November second. A short business meeting approving expenditure of funds for Red Cross work was followed by a most delightful talk on "The Work of John Massfield" by Miss Heloise E. Hersey who first described the early life of the poet and

the influence bearing on his work; then read parts from "The Daffodil Fields," "The Everlasting Mercy," and "The Widow in the Bye Street," following with excerpts from "The Tragedy of Pompey the Great," and "The Tragedy of Nan." The last was interesting to club members as the play was given by them last year.

Throughout the reading the tri-umphantly Christian note stood out clearly and the poet's keenness to his finger-tips with a passion for lessening the tragedy of human life was always apparent. In closing, Miss Hersey read Mr. Massfield's latest poem written in England, (in August, 1914) (after the call to arms). A delightful tea concluded an enjoyable afternoon. Mrs. Herbert R. Lane and Mrs. Charles C. Blaney poured.

The Auburndale Review Club met last Tuesday morning with Mrs. William Fuller of Maple street. The subject was "Cape Cod Day" and Mrs. Heron first spoke of Early American Music, which was illustrated by Mrs. Ruggles, together with some of her pupils and a few club members.

Mrs. Hildreth read a paper on "Current Events." Miss MacMillan spoke on "Cape Cod and Early Settlements" followed by Mrs. Pickard, who read extracts from and commented on "Bradford's Journal." Mrs. Wells described the opening of the Cape Cod Canal on July 29 of this year and also the Cape Cod Pageant. Mrs. Davidson spoke of "The Industries of the Cape" and was followed by Mrs. Turner, who appeared in a bearskin cap and scarf over her shoulders, and played some of the old time songs.

Mrs. Ruggles' song on "Woman's Rights" was an amusing close to the meeting.

The opening meeting of the Newtonville Woman's Guild each year has for its program the President's Address. On Tuesday afternoon Mrs. Irving O. Palmer, the president, embodied in it an account of the Biennial convention of the General Federation of Women's Clubs held at Chicago last June. Mrs. Palmer dwelt in heavy way upon the general aspects of the convention and touched upon many amusing incidents. Miss Alice Sampson rendered a group of soprano songs, "He Loves Me," Chadwick, "Her Rose," Combs, "The Fairy Lullaby," Needham, with Mrs. A. P. Carter at the piano.

Reports of the annual meeting of the Newton Federation were given and Mrs. Wallace C. Boyden told of the celebration of Mrs. Martin's eightieth birthday. It was stated that club members had contributed \$127 for the Salem sufferers. The Work for Belgian relief will be taken up immediately by the Industrial committee. Three "Little Journeys" were described by Mrs. Higgins telling of Alaska, Mrs. Malcolm of Norway, and Mrs. Salinger of Paris.

At the meeting of the Social Science Club on Wednesday morning the first part of the time was occupied with business and committee reports. Following these Miss Carpenter of the Massachusetts Library Commission told of work among immigrants in connection with libraries. She laid great emphasis upon the need for the gathering of books in foreign languages, which set forth American ideals and will be of assistance to the immigrants in more quickly becoming Americanized.

On Wednesday the Pierian Club met at the home of Mrs. L. P. Everett. Mrs. W. S. Everett was the leader for the afternoon and presented a paper upon the English period of Canadian history bringing it down to 1860. Another paper was read by Mrs. F. F. Rogers, Jr., treating of the plants, animals, fisheries, forests, mineral resources and the agriculture of the country. The club voted \$20 for the Red Cross. A social hour with refreshments closed an interesting afternoon.

The first Current Events lecture was given yesterday morning to members of the Newtonville Woman's Club in Bray Hall by Rev. Howard A. Richmond who opened his talk by saying that he endeavored to reach the underlying meaning of events rather than to merely relate the details. He spoke on three topics, "Mexico," "The Election" and "The War." The next meeting of the club will be on Thursday, Nov. 12, at 12, with Heloise Archibald, Clarke will speak on "Phases of Life and Art in Modern Drama."

The club is to give a bridge party in Bray Hall on Monday, Nov. 16 at 2:15 for the benefit of the immediate relief of the war sufferers.

An account of the meeting of the State Federation is crowded out of this issue and will be printed next week.

WEST NEWTON WOMAN'S EDUCATIONAL CLUB

On Friday afternoon, October 30, from three until five o'clock a reception was given at the residence of Mrs. George W. St. Amant, 24 Hawthorne avenue, Auburndale, inaugurating the activities of the West Newton Women's Educational Club for the ensuing year.

The drawing-room and library were artistically decorated with yellow chrysanthemums and potted plants. In the library Mrs. St. Amant received, assisted by her officers and Mrs. George W. Phipps.

Mrs. Arthur B. Munroe, chairman of the hospitality committee, with her corps of assistants presided in the dining-room where the color scheme was pink. Musical selections were rendered during the afternoon by Miss Herron and Miss Glover.

The first regular meeting of the club occurs on Friday, November 6 in Players' Small Hall, West Newton

FULLER—BRODHEAD

Miss Ruth Randall Brodhead, daughter of Mr. and Mrs. Garret Brodhead of Perth Amboy, New Jersey, and Mr. Joseph Cheever Fuller, son of Mr. and Mrs. J. Cheever Fuller of West Newton, were married October 15th, in St. Peter's church, Perth Amboy.

The pastor, Rev. W. Northy Jones officiated. The bride was attended by her sister, Laura L. Brodhead, and the groom by his brother, Alfred E. Fuller. The guests were seated by Messrs. George S. Fuller, Alfred Hague, Conrad K. Brodhead and Garret Brodhead, Jr. A feature of the bridal party was the little flower girl, Anna K. Brodhead, a niece of the bride, who wore a dress of white lace with yellow sash, and a Dutch cap of lace, and carried a colonial bouquet of yellow roses and blue corn flowers. During the ceremony Master Alexander Orberg of Plainfield, N. J., sang the beautiful hymn, "O Perfect Love." The bride was charmingly attired in a gown of white satin with tulle veil and orange blossoms. She carried a bouquet of white roses and lilies of the valley. The maid of honor wore yellow satin with overdress of yellow tulle and brocade, with small hat of gold lace and white aigrettes, and carried yellow chrysanthemums.

Immediately after the ceremony a reception was held at the home of the bride's parents, on Market street. A pleasant feature of the reception was the singing and merry making of the members of the Kappa Delta Society, a club of which Mrs. Fuller is the president. Added pleasures were the violin solos played by Miss Blanche Grieve, accompanied by Mrs. Frank E. Fuller.

The church was decorated with palms and white chrysanthemums, the same scheme being carried out at the home, with the addition of red roses and autumn leaves.

Mr. and Mrs. Fuller will reside at 217 Water street, Perth Amboy, New Jersey.

Housewives, neighborhood-clubs or ladies' church societies are cordially invited to meet at Hecker's Demonstration Rooms, 99 Summer street, Boston. Luncheon served free of obligation, made from our products. Arrange for date.

SOCIAL MEETING

Mrs. William S. Jackson of Hartford street, Newton Highlands, opened her house Thursday afternoon for a most successful social meeting of the Newton Woman's Christian Temperance Union, at which time Miss Caroline Caswell and Miss Nellie Hill, residents at the Frances Willard Settlement, 44 Chambers street, Boston, presented the work and needs of the settlement in a very interesting and convincing way. An appeal was made for especial co-operation at this time for the philanthropies at home already started, which must be sustained during these troublous times.

Mrs. King of Newton Centre and Mrs. W. E. Birdsall of Newton gave short reports. Solos were rendered very acceptably by Miss Mary Esther Crowe and Mrs. Frederick S. Fairchild.

Walsh of 276 Boylston street, Boston, are offering during their Reduction Sale this week remarkable values in Trimmed Hats. Many New York models are included in this sale and early purchasers are finding great bargains. The separate waists, so much the vogue this season, are found there in many different styles, all having a note of distinction. The display of dainty neckwear is in profusion and at very moderate prices.

An Important Motto.

Don't overlook the importance of the motto: A full day's work for a full day's pay.

NEWTON WINS

Newton High defeated the Somerville eleven last Saturday at Somerville, 14 to 6. Several forward passes, each for a substantial gain, led directly to Newton two scores.

Newton scored in the first period, Bryson catching a forward pass on Somerville's five-yard line and crossing the goal line. Previously the visitors made three successful passes, Newton scored again in the third period from the 20-yard line, Mellor breaking through left tackle.

Somerville scored in the fourth period. Fitz tried for a field goal and missed by a narrow margin. In the scramble after the ball was fumbled Somerville recovered it. Fitz threw a forward pass which Ellis recovered and ran for a touchdown.

IN THE PRIMARY ON NOVEMBER 17

Vote for REUBEN FORKNALL

REPUBLICAN CANDIDATE FOR RE-NOMINATION

ALDERMAN-AT-LARGE, FROM WARD ONE

He has been a resident of Ward 1 for more than 40 years. He has been FAITHFUL, ATTENTIVE, and CONSISTENT, for the welfare of the City as a whole.

He is a member of the Massachusetts Bar.

He is thoroughly familiar with the business life and interests of the City. He will bring to the Board of Aldermen a practical knowledge of existing conditions of the City's needs.

He will as heretofore, be impartial, and an economical worker for civic affairs.

Upon his record and qualifications for public office his many friends urge you to vote for him on Tuesday, November 17th, 1914.

CLAFLIN GUARD VETERAN CORPS ORGANIZED

At the State Armory Sunday afternoon a large number of former members of Co. C assembled to organize an association to be known as The Claflin Guards Veteran Corps. Many "old timers" were present, and enjoyed themselves "swapping" stories of the Militia in the old days. The meeting proved to be a reunion, as many of those present had not been together for many years. Mr. A. L. Moriarty, through whose untiring efforts the organization had been started, explained to the members that the object of the association was, to draw the members together socially, and to promote good fellowship among the past members of the Company.

Many letters were read from former members of the Company in different parts of the State, expressing their regrets in being unable to attend the first meeting. All expressed their intentions of joining, and pledged their support.

An election of officers was held, the following men being elected to serve for the coming year.—Commander, A. L. Moriarty; Senior Vice Commander, T. A. Dolan; Junior Vice Commander, T. W. Hyde; Adjutant, A. H. Randall; Quartermaster, T. T. Sullivan; Sergt. Major F. W. McCabe.

Any man having served in Co. K of the 1st Regt. of Inf. M. V. M., Co. C of the 5th Inf., M. V. M., or Co. C of the 5th U. S. V., having been honorably discharged, is eligible for membership. The Corps is desirous of the membership of every former member, of the above mentioned organizations.

This Corps is something that has been needed for many years. Now that it is a success, it is the duty of every member to put his shoulder to the wheel, and make it a greater success.

Any information will be cheerfully given on application to the Adjutant, A. H. Randall, 287 Washington street, Newton, Mass.

FARMER'S ALMANAC

The old Farmer's Almanac for 1915 is out in the same familiar fashion. This is its 123rd issue.

LIBRARY OPEN SUNDAYS

Beginning November first and continuing thru the month of March the Newton Free Library and Reading room will be open on Sunday afternoons from 2 to 6 o'clock.

NEGLECT OF DUTY

Alderman Murphy Prefers Charges Against Police Lieutenant Soule

Alderman John W. Murphy of Ward 1 has sent a letter to Mayor Edwin O. Chittis in which he prefers charges of neglect of duty against Lieut. William P. Soule of the Police Department. The Alderman also sent a copy of the charges to Chief Mitchell, who with the Mayor, will make arrangements for a hearing on the matter.

In his complaint Alderman Murphy charges that on Sept. 15 and again on Oct. 8 officers patrolling in the Nonantum Section telephoned to Headquarters at West Newton and asked that a doctor be summoned to the home of Italian residents in that section immediately and that both times Lieut. Soule was too busy to transmit the message to the physician.

Alderman Murphy further states that since the charges have been made against the ranking officer that attention, and that an Italian, unable to obtain a physician through police circles, was taken to the hospital. Lieut. Soule was up at 2 o'clock in the morning and asked that he be allowed to use his telephone to summon a physician. Mr. Murphy in his complaint stated that he believed it the duty of police officials to protect life and property, and that this rule had not been followed out.

FOR PRESIDENT

Senator John W. Weeks Mentioned For That Office By The New York World

New York, Nov. 9.—The World tomorrow will print the following: Washington, Nov. 9.—Senator John W. Weeks of Massachusetts is being seriously considered by Republican politicians here and elsewhere as a Republican Presidential possibility in 1916. Since last Tuesday's election most Republicans believe that a business man from the East must be named in order to carry the country. Mr. Weeks is one of the Boston's most substantial business men. He is very popular in the house, where he served for many years, and is now one of the strong men among Republican Senators. He graduated from the United States Naval Academy in 1881, and is familiarly known by his colleagues as "Capt." Weeks. During his entire Congressional career he has taken a leading part in favor of a strong Navy, which is to be a big issue in the next campaign.

Although some persons consider that Senator Weeks is unfortunately located, from a geographical standpoint, it was said today that sentiment for the Senator is growing in the Middle Western States, where it was not thought possible for him to develop any strength.

It was stated that Senator Weeks might be particularly acceptable to the Progressive element of the Republican party. In the East it is believed that business men everywhere

WARD-1-WANTS-REES

MR. CHAS. E. REES

Candidate For
ALDERMAN-AT-LARGE

If I am elected to the Board, I shall be free from obsessions and will endeavor to view matters from the standpoint of the average citizen.

CHAS. E. REES,
135 Jewett St., Newton, Mass.

Ward 1 has virtually three sections, the Hill, Nonantum and a district between the two. The Hill section has a representative on the Board. NONANTUM NOW HAS TWO, but the intervening or central section has had no representative FOR YEARS. Mr. Rees lives in this part of the Ward. He is well qualified to serve in this capacity. We of Ward 1 regard him as the logical candidate for Alderman-at-Large.

A NEW SWINDLE

Two recent cases of fraud in Newton have come to light, practiced upon the mothers of newly married daughters. In both cases, a well dressed stranger has called, introducing himself as a close friend of the daughter's husband, from the distant city where the daughter has gone to live, and while being graciously received, has given a plausible excuse and borrowed money from the bride's mother. The call has been made when no male relative was at home, and the perpetrator is so well versed in his part, that he has apparently adopted it as a business.

SUFFRAGE RALLY

A Suffrage Rally will be held at Denison Hall, Newtonville Square, Wednesday evening, November 18th, at eight o'clock. Hon. Edwin O. EDITORIAL

The city primary to be held next Tuesday will probably have little effect upon the city election next month, for, in all likelihood, the defeated candidates will run as independent candidates against their successful rivals.

There are three contests in the Republican party, one for alderman at large from ward 1 between Alderman Reuben Forknall and Mr. Charles E. Rees, and ward aldermen contests in ward 2 where Alderman Harry D. Cabot is being opposed by Mr. George F. James and in ward 7, where Alderman Jarvis is being opposed by Mr. Leverett Bentley. In a word the contest in wards 1 and 2 are made by men who want to break into the political game, while that in ward 7 is on the ground that the present alderman is not popular. Mr. Forknall and Mr. Rees are both good men, Mr. Forknall having been in political life for twenty-five years and Mr. Rees making his initial entry. It is a matter of regret that Mr. Rees could not have waited until Mr. Forknall had returned from service at the City Hall and then taken the office without a contest, as Mr. Rees is a type of man who would render the city efficient service. At the same time, Mr. Forknall fully deserves a re-election at present should bide his time in patience.

Mr. Cabot, also, should be returned from ward 2, as he has been an active and faithful alderman for the past three years and his opponent, Mr. George F. James is without experience.

In ward 7 the conditions are somewhat different. Strong opposition has developed during the past year against Alderman Jarvis, now serving his second year as ward alderman. The opposition finally succeeded in obtaining the consent of Mr. Leverett Bentley to become a candidate. Mr. Bentley has been a resident of the ward for many years and as a newspaper man in this district become well acquainted with the city and has a wide acquaintance. In addition he is well informed on public matters and has an exceedingly level head. Alderman Jarvis will find he has quite a contest ahead of him in obtaining a renomination next Tuesday.

There is but one contest in the Democratic ranks, Alderman Bartlett of Waban being opposed by Mr. Martin. There should be no question as to the nomination of Mr. Bartlett, and as he is certain to receive both the Republican and Progressive nominations, his election is absolutely sure. Mr. Bartlett has been one of the most valuable members of the board for the past year.

The death of Father Wholey will be sincerely mourned by his many friends in all denominations in this city.

Friday, the thirteenth.

CITY HALL NOTES

Street Commissioner Stuart opened bids on Tuesday for constructing concrete curbing on the west side of Adams street from the Catholic church property to Watertown street. There were four bidders for the work, Otto A. Theurer, \$1,154.35, Simpson Bros. Corporation, \$1,181.45, T. Stuart & Sons Co., \$1,240.25 and T. D. Sullivan Co., \$1,480.70. The contract has been awarded to Mr. Theurer, the lowest bidder.

The aldermen hold a meeting to-night instead of next Monday, the change being due to the requirement that the result of the state election shall be announced within ten days.

A recount of the vote cast for councillor was held Tuesday night by the Registrars of Voters. A gain of 1 vote was made by the Democratic candidate, Hon. John J. Hogan and a gain of 20 by Hon. H. C. Mulligan, Republican, the latter being due to a clerical error in the ward 7 returns. The recount gives Hogan 1944 and Mulligan 3216.

Registration is in progress for the city primary which is to be held next Tuesday. The last date for registration is at Bray Hall, Newton Centre tomorrow evening.

LODGES

The final official visit of his first year as deputy in the 5th Masonic District was paid by Rt. Worshipful William O. Hunt, Wednesday night at Dalhousie Lodge. As his marshal, Fast Master Blanchard, hails from that lodge, the greeting to him from Worshipful Master Fairchild was of unusual significance.

Past Masters John W. Fisher, George A. Gleason, Wallace C. Boyden, John A. Fenna, Henry L. Fairbrother, Harry N. Milliken and Edward C. Wyatt were the escort and as the deputy crossed the threshold he was warmly applauded.

A mock trial and vaudeville entertainment will be held this evening in the Newton Catholic Club Hall, West Newton, under the auspices of Newton Council 167, Knights of Columbus. The members of the organization are working hard for its success, which seems assured. Prominent members will appear in the mock trial, which is presented under the direction of James K. Condrin and many well known artists will appear in the vaudeville show. Chick Story and his trio will also be present to feature the latest songs.

PASTOR'S RECEPTION

The annual reception to the pastor, Rev. J. Edgar Park, and Mrs. Park, was held Friday evening at the Second Congregational Church, West Newton.

About one hundred and seventy-five guests assembled in the church parlors which were attractively adorned for the occasion with palms and potted plants.

Mr. and Mrs. Park were assisted in receiving by Mr. and Mrs. William Kellar and Mr. and Mrs. Robert H. Gross.

Refreshments were served and during the evening and excellent program of musical selections was rendered by a 4 piece orchestra.

The pleasant social affair was in charge of a committee of ladies under the chairmanship of Mrs. Herbert M. Cole.

CLAFIN GUARD NOTES

A Non-Commissioned Officers' school was held last Friday evening at which the Non-Commissioned Officers of "B" Company of Charlestown were present. Sergt. Champlin of the Regular Army was present and gave a "Non Coms" a short talk on the duties and responsibilities of Non-Commissioned Officers. A long bayonet drill was the feature of the evening.

Next Saturday evening the first weekly social of the season will be held. The unexcelled facilities for events of this kind will undoubtedly attract a large gathering. The shooting of the Company shows a great improvement over last year. Four more experts and five more sharpshooters over last year is an indication of the improvement.

ELIOT GUILD

Monday afternoon November 23, and Tuesday evening, November 24th, are the dates for the play "Our Mutual Friend," which the Eliot Guild will present at the Hunnewell Club. Rehearsals are being held under the direction of Miss Florence Bacon and Miss Mildred Clark, who takes a prominent and difficult part in the production, and the play is proving to be one of intense interest. The cast will include Miss Mildred Clark as "John Rex Smith," Miss Louise Pinkham as "Bella Wilfer," Miss Louise Bacon as "R. Wilfer," Miss Elizabeth S. Fuller as "Mrs. Wilfer," Miss Irene Kimball as "Lavinia Wilfer," Miss Marguerite Collins as "Mr. Boffin," Miss Mary Ganse as "Mrs. Boffin," Miss Muriel McCready as "George Sampson."

MEN'S CLUB

The Men's Club of Grace church held the first meeting of the season on Monday evening in the parish house. Dr. John C. Ferguson entertained the members with a highly interesting and instructive account of present conditions in Europe. Dr. Ferguson who has been for a number of years in confidential position with the Chinese Government, and engaged in the making of several treaties, was able to set forth the inner history of much of the modern movement in China. President Theodore E. Jewell was in charge and there were about fifty members present.

ANNUAL BANQUET

The sixth annual banquet of the members of the Newton Catholic Club will be held next Monday evening at the clubhouse, West Newton. Pres. James R. Condrin will make the opening address, and will introduce James A. Waters as the toastmaster. The speakers will be Congressman George F. O'Shaughnessy of Rhode Island, Frederick W. Mansfield, State Treasurer; Rev. John J. Ryan of Cambridge, Mayor Edwin O. Childs, Rev. John F. Keleher, spiritual director of the club, and James F. Lynn, representing the club members.

All members of the clergy of the city will be the guests.

TEA

Mrs. George P. Hatch entertained about one hundred and thirty guests at a charming reception and tea on Thursday afternoon at her residence on Putnam street, West Newton. The occasion was complimentary to her sister, Mrs. A. Shirley Ladd of Shaw street. The rooms were attractively decorated with chrysanthemums, and Mrs. Hatch received from 4 until 6.

The dining room was decorated in a scheme of pink, and the pourers were Mrs. Ernest F. Lovejoy, Mrs. Norman W. Bingham, Mrs. Joseph N. Lovell and Mrs. Robert G. Howard.

NEWTON CLUB NOTES

Rehearsals for the minstrel show by the all-star cast of Newton Club members have been progressing during the past week. Seats for the first performance are practically sold out, and only a few seats are left for Thursday evening, the 19th. It is expected that this entertainment will excel any that have ever been given in the club house, and those who have overheard rehearsals say that the chorus of voices is full of vim and snap. The promise that tickets would not be sold in excess of the seating capacity of the ball room has been strictly adhered to, and the audience is particularly requested to be on hand at the rise of the curtain, as one of the best skits of the evening will be enacted at the beginning of the evening. We expect to be able to give an extensive report upon this notable event.

MISS HALE DEAD

Miss Minerva F. Hale died Sunday at her home on Otis street, West Newton after a long illness and at the age of 77 years, the death of her sister Clara on the preceding Thursday undoubtedly hastening her own end. Miss Hale was one of four sisters who were born in Hubbardston, Mass., and who have lived in West Newton for very many years. For many years she was confidential assistant to the well known Waverley Magazine. She is survived by one sister, Miss Katherine S. Hale of West Newton. Funeral services were held at her late home on Monday in charge of Rev. Julian C. Jaynes of the West Newton Unitarian church and the burial was at Hubbardston, Mass. Rev. Mr. Jaynes also officiated at the funeral services for Miss Clara Hale which took place on Saturday afternoon.

PENNY BAZAAR

The Penny Bazaar held last week at Immanuel church by the Junior Society of Christian Endeavor was a very successful affair and the young people cleared over \$20, including tickets.

There was a large attendance, the admission fee being one cent, and arranged about the vestry were a candy table, tea table, lemonade table, college table, at which the goods were dispensed at one cent each. There was also a Baby Show, Jungle and Fortune-teller, one cent admission to each, and a cent grab for the children.

Miss Helene Moore, superintendent of the Junior Society, was chairman of a large committee of young ladies who had charge of the Bazaar. One half of the proceeds will be for the new headquarters building of the Christian Endeavor in Boston, and the other half for the local Junior Christian Endeavor Society.

ANNUAL TEA

The annual tea of the Charity Sewing Club, which was held Wednesday afternoon at the residence of Mrs. William M. Flanders on Lake terrace Newton Centre, was a very delightful social affair and was attended by about one hundred and fifty guests from the Newtons.

Mrs. Flanders received from 4 until 6 and was assisted by Mrs. Charles E. Kelsey. The decorations were red and green and in the dining-room, where refreshments were served, red carnations were used in pleasing arrangement on the table.

Among the ladies who poured and assisted in the dining-room, were Mrs. William H. Rand, Jr., Mrs. Charles Smith, Mrs. William H. Rice, Mrs. Frederic F. Cutter, Mrs. William B. Merrill, and other members of the Club.

NEWTON WOMAN'S EXCHANGE

At the recent annual meeting of the Newton Woman's Exchange these officers were elected—

President, Mrs. Wm. H. Lucas; vice-presidents, Mrs. John T. Lodge, Mrs. Edwin T. Fearing, Mrs. Edward P. Tuttle; treasurer, Miss Margaret Wilder; secretary, Miss M. B. Henry; auditor, Mrs. J. J. Meahan; directors Mrs. Henry Whitmore, Mrs. Alfred Vose, Mrs. F. S. Webster, Mrs. W. F. Plant, Mrs. F. A. Day, Mrs. H. P. Converse, Mrs. J. H. Eaton, Mrs. C. P. Darling, Miss Anna Whiting, Mrs. F. O. Stanley, Mrs. C. J. Bailey, Mrs. J. B. Simpson, Mrs. E. E. Hopkins and Miss Janie Hobart.

At the recent annual card party held at the Hunnewell Club on October 28, fifty-five tables were sold and thirty-two tables were in play.

Rev. Dennis J. Wholey, for many years the pastor of the Church of the Sacred Heart at Newton Centre and for the past six years, pastor of St. Joseph's church at Roxbury, died early this morning after a long period of ill health. Father Wholey was 61 years of age and had been a priest for 37 years.

He was undoubtedly one of the most beloved priests in the archdiocese. So well liked was Fr. Wholey in Newton that his departure in 1908 prompted a reception given him by a gathering composed exclusively of Protestant, professional and business men of this city, a rare tribute of esteem paid to few Catholic clergymen in the State.

Only twice in his long career as a priest was Fr. Wholey transferred, and each time he went away with the good-will of all who knew him. He was born in Lawrence, Feb. 8, 1853, and a few weeks later he came to Boston with his parents and settled for several years in the old Cove section of the South End, attending the Quincy grammar school on Tyler street. The family later returned to Lawrence.

He was educated at St. Charles' College, near Ellicott City, Md., and the Grand Seminary at Montreal, being ordained on Dec. 23, 1877. He was a curate at St. Joseph's Church, West End, for 13 years, Cardinal O'Connell being stationed there during the period for a few years. In December, 1890, Fr. Wholey took a new parish at Newton Centre celebrating the first mass there in a hall.

He labored here more than 17 years taking an active part in public affairs. He was a trustee of the Newton Hospital and was of the committee which inaugurated the first "village night" in Newton many years ago. His pastorate was a notable success and when he left here he turned over to his successor one of the handsomest churches in the archdiocese.

In the Spring of 1908 he was transferred to St. Joseph's Church, Roxbury, as permanent rector. Fr. Wholey was formerly county chaplain of the A. O. H.

On Sunday evening at 7.30 a Young People's vespers service will be conducted in Channing church chapel by Mr. Ralph W. Angier.

The churches of Newton will unite in a Thanksgiving service on Thanksgiving morning at 10.30 in the Methodist Episcopal church.

Miss Katharine P. Loring of Beverly Farms has been secured to address the meeting relative to the forming of a branch of the Red Cross Society to be held at Channing church parlor next Wednesday afternoon at two-thirty.

Mr. and Mrs. Frank Brooks Jenkins of Bennington Street have sent out cards announcing the marriage of their daughter, Miss Helen Elizabeth Jenkins, to Mr. Arthur Emory Low of Alabama, formerly of Brockton, on Thursday, November 12 at Atlantic, Georgia.

A Gymnasium class for ladies will be held at the Newton Y. M. C. A. on Monday and Thursday mornings at 10.30, commencing Monday, November 30. The course will include 24 lessons. For further particulars apply to Miss Bertha Moore, 199 Church street, Newton. Telephone Newton North 1360.

Miss Susan MacArthur, who has been visiting friends in Newton, returned recently to New York. Miss MacArthur announced her engagement at a large party given on Saturday at her home in Troy, and was assisted in entertaining by Mrs. Robert Sanford Jowett, who is her guest.

Arrangements are being made to give a Tea to Miss Charlotte E. Sewall, for many years a valued and faithful teacher in the Underwood school. The affair will be given in the Bigelow school hall on Monday evening, Dec. 7th. Mrs. John T. Lodge, Mrs. Edwin T. Fearing and Mrs. Charles H. Breck are in charge.

The Elton Young Peoples' Association gave an interesting entertainment and social on Wednesday evening in Elliot chapel. The musical program included soprano selections by Miss Mildred Clark, and Miss Mary Gansse; tenor selections by Mr. Lothair Van Buskirk and a piano solo by Miss Mildred Taylor.

The entertainment was under the direction of Miss Marguerite Collins. The evening closed with games and refreshments were served by the young ladies.

The regular monthly meeting of the Woman's Auxiliary to the Y. M. C. A. will be held November 18th in the Y. M. C. A. Hall. This meeting will be in the form of a Dime Harvest and Social. The members have been filling dime-holders which will be brought in at this meeting and it is the earnest wish of all that money enough will come in at this dime harvest, so that the Auxiliary will be able to carry on the year's work without the aid of the usual funds and sales. An original character sketch will be presented by several members of the Auxiliary and all members are requested to come and bring their dimes and dollars. Refreshments will be served during the social hour.

The meeting of the Channing Alliance on Tuesday afternoon was attended by a large number of members and guests. After the routine business and reports of committee chairmen, Mrs. H. K. Hobart gave an account of the meeting of the New England Associate Alliance held at Hartford in October, which she attended as delegate. Recent items of religious intelligence prepared by Mrs. C. W. Wendt were read by Mrs. H. C. Hardon. The principal speaker of the afternoon was Miss Lucy Lowell, a director of The Alliance of Unitarian Women, who under the topic, "Alliance Team Work," told entertainingly of opportunities for service open to Alliance women, touching upon some of the missionary work in North Carolina. The Alliance choir rendered two selections. At the close tea was served under the direction of Miss Ruth Beedle and Miss Edith Fisher, assisted by other members of the Unity Club.

HUNNEWELL CLUB

Members of the Club were entertained Saturday evening by a fine exhibition of billiards by Mr. George Carter of the B. A. who played a balk line match of 200 points and a match of 75 cushion caroms with Mr. Moses Yatter. Mr. Carter made 43 on his first run and finished the game with a run of 68, making an average of over 25. Following the games, Mr. Carter gave an exhibition of fancy shots in which the balls seemed to do everything except talk. In one spectacular shot the cue ball after striking the white, jumped onto the rail of the table, ran about two feet and then returned to the table and completed the billiard on the red ball in the far corner. In another three cushion shot with all three balls lying close to the end cushion, the cue ball after hitting the white, took the cushion between it and the red ball, curved around the red to the side cushion, curved back to the end cushion again and with another curve struck the red ball. Another masse shot which brought forth considerable applause was also at the end cushion near which all three balls were lying. The cue ball after striking the white made a wide curve to the far corner of the end cushion and then by a series of half circles returned to and completed the billiard on the red ball.

The first ladies and gentlemen whist of the season was held Monday evening with only thirteen couples in attendance. Souvenirs were awarded to Mrs. H. P. Currier, Mrs. M. S. Sprague and Mrs. J. P. Richardson. Grand prizes will be awarded this season to the two ladies making the highest totals during the series of games to be played this winter. Refreshments were served by a committee of ladies and Mrs. Fred A. Wilcox and Mrs. J. P. Richardson poured.

The first neighborhood night of the season on Tuesday was a great success, the attendance being very large and the entertainment being thoroughly enjoyed. While bowling, billiards, pool and cards, all had their adherents the principal attraction was the dancing, with some very fine exhibitions of the new dances being given by Miss Hall and party. The prizes for bowling were won by Mrs. G. S. Sprague for the ladies and Mr. Ray G. Coppins for the gentlemen.

Refreshments were served by the Entertainment committee and Mrs. Everett T. Ryder, Mrs. Edward M. Hallett and Mrs. Edwin T. Fearing poured.

Bowling prizes Saturday night were won by Mr. A. J. Wellington at bottle pins and Mr. F. E. Beiden at Boston pins.

On Wednesday evening the club team won two games in the Newton Bowling League, defeating Newtowne 2690 to 2608. Paul with strings of 199-218-223, and a total of 640 was high man.

This evening the first entertainment of the year will be given entitled "A Costume Carnival."

would support him. His knowledge of the tariff and currency problems is such that the large and small business interests would repose confidence in an Administration of which he was the head.

With the question of the National defense fast becoming a paramount issue in National politics, it is believed that Senator Weeks would offer exceptional qualifications in this respect. He served in the Navy for two years following his graduation from the Naval Academy. He also served in the Massachusetts Naval Brigade for 10 years and in the Volunteer Navy during the Spanish-American War.

One difficulty that would confront Senator Weeks is his reported lack of large fortune. Many persons here estimate that with half a dozen other Republican candidates in the field—perhaps Senator William E. Borah of Idaho, Senator Albert S. Cummins of Iowa, Charles W. Fairbanks, George B. Cortelyou, Charles S. Whitman and others—a candidate for the Republican nomination will run up a bill of possibly \$200,000, which he or his friends must pay.

This heavy expense will be due to the inauguration of the primary system. While there will probably be no Nation-wide primary in the next Presidential campaign, it is altogether likely that most of the delegates to the National conventions will be elected in State-wide primaries.

Of last year's teachers, the following did not return: Miss Amey Cook, Miss Ruth Mulligan, Miss Evelyn Fernald, Mr. George E. Pearson, Mr. Albert Brack, and Miss Margaret Thompson.

The faculty has four new members: Mr. Albert Farnsworth, History; Mr. Arthur W. Ruff, Mathematics; Mr. Collin Wells, Assistant in English; and Miss Katharine Wilder, Assistant in Science.

The Sophomore class held its first meeting in October to elect officers and appoint a committee to select class pins. Mr. Henry Garrity was chosen president; Miss Barbara Cook, vice-president; Miss E. Clapp, secretary; and Miss Dodd, treasurer.

The Junior class has elected the following: Forest Davidson, president; Miss Mary West, vice-president; Carlisle Frost, secretary; Warren Jackson, treasurer.

The Senior class officers are: Calvin B. Smith, president; Miss Eleanor Shumway, vice-president; Miss Katharine Reynolds, secretary, and Louis F. Ranellet, treasurer.

On the thirteenth, the Sophomore classes from both schools assembled in the hall of the Classical High, to witness the presentation of the Blakemore trophy which is given "to the boy, who in the judgment of the committee, has shown in athletic and gymnastic games the most sportsmanship spirit, and who, at the same time both in school and out, has exerted the strongest influence for clean sport and gentlemanly conduct." A candidate must be a member of at least one athletic team. After an introductory speech by Mr. Adams, and a story from Dr. Martin, Mr. Blakemore, the donor, arose, and with a few suitable words, presented the handsome cup to Mr. Henry Garrity.

PEG O' MY HEART

There's joy in the heart of me,
Peg o' my heart,
'Tis the rare Irish part of me,
Peg o' my heart;
Night, sweet with dreams of thee,
Day's music seems of thee,
The moon tells her beams of thee,
Peg o' my heart.
Love for thee blesses me,
Peg o' my heart,
Smiles of thee, tears of thee,
Peg o' my heart,
Bring me so near to thee,
Blinding thee, dear, to me,
Closer each year to thee,
Peg o' my heart.

—Henry B. Tierney.
Just like Reverend Henry B. Tierney's poem, there's always just the suspicion of a tear lurking in the happy laughter of Florence Martin in her delightful interpretation of "Peg O' My Heart" now nearing its hundredth performance in Boston at the Cort Theatre.

The Freshman class has about two hundred and twenty-five members.
President Stickney read an extremely interesting theme to the Senior class about the work done during the summer by some of its members. His statistics were compiled from statements passed in by the members in their English divisions. Of the one hundred and fifty members, sixty-nine were employed. The aggregate earnings amounted to \$6,028.50, of which the girls received \$1,305, and the boys \$4,723.50. The average wage per week was \$3.74.

The Dynamo staff this year consists of Joe A. Hagar, editor, and Howard Mitchell as business manager; assistant editors: Noyes, Wiswall, Miss O'Connell, Miss Spencer, Miss Kingham, Penaske and Sullivan. Foristal, Cary, Hawkins, Daniels, and Eckwall have been appointed assistant business managers.

Three new teachers have been added to the faculty this year: Mr. King, as teacher of Spanish and German; Miss Preston, librarian and assistant in English, and Miss Bennett in the commercial department.

The weekly Senior Assembly proved such a success last year that it is being continued by the class of 1915. It comes the second period Friday, and some very interesting mornings have been planned. Miss Doonan gave an unusually good account of her experiences abroad this summer. She appeared to be greatly disappointed that she was neither arrested, wounded, or hanged as a spy, but we are glad that she was disappointed and is back with her friends again. Another morning, Mr. John Cutler of the Transcript editorial staff, talked on "The Making of a Newspaper." Everybody was so intensely interested that it was hard to obey the bell, and leave the hall to go to the next recitation.

41 SUMMER ST. BOSTON

HISTORICAL SERMON

Delivered By Rev. Dr. Noyes At First Church
250th Anniversary

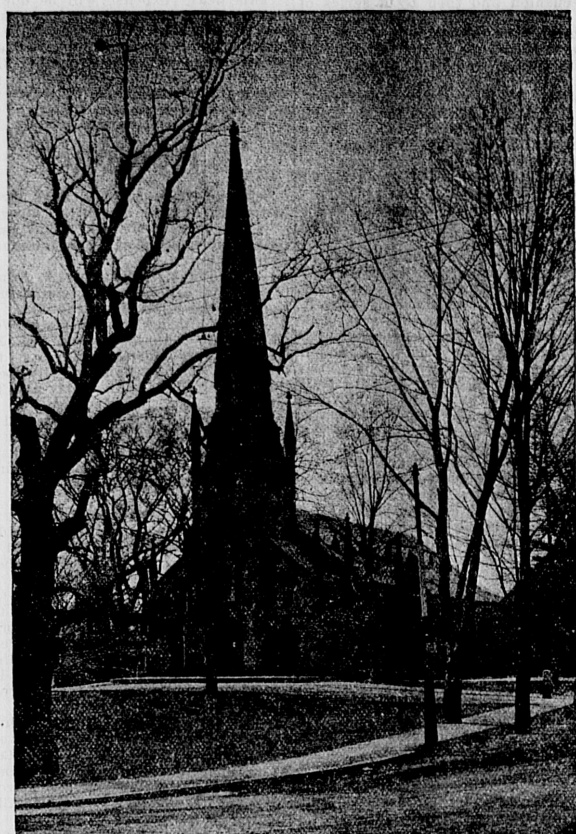

(Continued from last week.)

First: Intensity of Religious Conviction.

In his election sermon, 1677, Dr. Increase Mather said:—"It was love to God and to Jesus Christ which brought our fathers into this wilderness." President Stiles, of Yale College, in 1783, thus stated the historic fact:—"It is certain that civil dominion was but the second motive, religion the primary one, with our ancestors in coming hither and settling this land." People who leave home and country for religion's sake usually have pretty definite and positive convictions. Nothing was more characteristic of the Puritans than their fidelity to the truth as they saw it, and their determination to maintain, defend, and proclaim it, at any cost. The founders of this Church were thorough Puritans. They believed much and believed it strongly. The

him. This vote does not look as if he would."

We live in a new world of thought. What shall we say of this Calvinism of our fathers? The historians are ready enough now to praise its political and social influence. David Hume, certainly no partial critic, says that England owes all the liberty she has to the Calvinistic Puritans. James Anthony Froude, in what is perhaps his most familiar essay, has exhibited the mighty leverage of this faith, lifting the world to new ideals of civil liberty. John Fiske calls the theology of Calvin one of the longest steps mankind ever took towards personal freedom. Lord Macaulay, who hated the Puritans if ever anyone did, says that they were the most remarkable body of men that the world has ever produced. What made them remarkable was their religion, and, in large

Fifth Meeting House, 1847-1903.

forms of statement have varied during these two and a half centuries, but through all the philosophical, theological, and political storms of this long period of time, this Church has been marked by steadfastness and earnestness of conviction. The doctrinal belief in the early days was strongly Calvinistic. The Westminster Confession, issued in 1646, was practically adopted by the Congregational Churches of England as their doctrinal symbol. In the Savoy Declaration of 1658, and this, in turn, with slight modifications, was adopted as a statement of faith by the Reformed Synod, in Boston, in 1680. The first article of the Covenant of this Church, solemnly renewed, 1770, reads as follows:—"Having perused, or heard, the Confession of Faith put forth by the synod of Churches, held in Boston, New England, 1680, we do heartily close in with it, for the substance of it, and promise to stand by, maintain, and (if need be) contend for the faith therein delivered to the people of God, and if any among us should go about to undermine it, we will bear a due testimony against them." By this phrase, "for the substance of it," they reserved for themselves some liberty of interpretation. We should claim for ourselves a larger liberty, no doubt, in the interpretation of its doctrines, but its essentials still command our assent. Again in 1783, the Church, by formal vote, reaffirmed its loyalty to this confession of faith. When the great Unitarian Controversy arose, and out of 361 Congregational Churches in Massachusetts, 96 became Unitarian, and 30 more or so nearly so that those who held to the old faith were compelled to withdraw and form new organizations, this Church and its daughter in West Newton adhered to the doctrines of the fathers. This is the more remarkable when we remember the strength of the local influence. All the Boston churches but one became Unitarian, and the neighboring churches in Roxbury, Dorchester, Waltham, Dedham, Brookline and Brighton. In 1828, a committee of three, William Jackson, Elijah F. Woodward and Asa Cook, presented a report to the Church on a case of discipline, in which those members were severely censured who were in the habit of leaving "their own meeting on the Sabbath, go, some of them, to places where the fundamental truths of the gospel, as embraced by this church, are opposed and denied, where they who preach declare there is no need of a radical change of heart, that Christ did not die for our sins, and that he is not God, and that all will be saved, both righteous and wicked." This report was twice read and discussed and then unanimously adopted. There is justice in Dr. Furber's comment in his historical discourse twenty-five years ago:—"It has been said by some that if Dr. Homer had become a Unitarian, he would have carried the Church with

measure, their Calvinism. However unattractive it may seem to us in many aspects, it was a tremendous power in the creation of the modern world."

But what of it as a system of religious belief, a discipline for the soul? It assuredly made stalwart Christians and bold and profound thinkers. Those who fed on its strong meat were men indeed. No theme was too high or too profound for their discussion. They contended, for example, over different theories of the origin and explanation of sin in a moral universe, a discussion of which Dr. Munger says, in his Life of Bushnell:—"It was a subject which Christ waived; but the New England theologians waived nothing." The constant pondering of weighty themes made not only deep thinkers, but men of strenuous will to carry out what they deemed the divine purpose. But defective vision and partial and exaggerated statements are inevitable in human systems. The reaction from the rigors of Calvinism was sure to come. I suppose there is nobody in this audience who would subscribe to the five points of Calvinism as John Calvin stated them. We do not hold, as an article of faith, absolute and unconditional predestination, independent of faith or works on the part of the elect, with reprobation of the rest of mankind, equally without regard to their merit. We do not believe in a limited atonement, nor accept the compensation theory of its efficacy. We cannot affirm that all men are totally and entirely depraved, with utter inability to all spiritual good, and that infants are as guilty in the eyes of infinite justice as hardened sinners. Nor do we believe that divine grace is irresistible, nor that the saints, unconditionally elected, absolutely purchased by the death of Christ, and irresistibly called by the Holy Spirit, cannot possibly be turned aside from the life of grace and ultimate salvation. Nevertheless, while these extreme statements of doctrine are repugnant to us, the essential truths of that mighty faith are still our heritage. The iron is in our blood; we cannot ignore it, and would not, if we could. We, too, believe in a mighty God, who works out His sovereign purposes in this world of time, and all our modern scientific advance enlarges our conceptions of His mind and will. We, too, believe in human sin as one of the ultimate facts of life, and in the supreme need of some power greater and higher than ourselves to enter into these poor, weak, lives of ours and redeem them. Their statements of the atonement we cannot accept, but in the redemptive love of God, which lifts men out of the mire of sin and selfishness and transforms them into the divine image, we believe as firmly as ever they did. We find the essence of the divine character in love, where they found it in will; we lay greater emphasis on reason in the Godhead than on power; much of their theology seems to us mechanical and some of their speculations absurd

and childish, mingled with much that is weighty and worthy; but we cannot forget that through their toil of thought we have entered into our religious conceptions. They who dwell in fertile valleys, enriched by ever-flowing streams, may well recall with gratitude the rugged, snow-covered heights, where those perennial fountains have their source. However much we may differ with the fathers in our statements of religious truth, I trust that in these days, as in all the history of this Church, we are one with them in holding our views of truth in reasoned and settled conviction, with thorough persuasion and heartfelt avowal. The Puritan spirit does not consist, as we are often reminded, in the correctness of the views of truth which they held, but in the vigor of intellectual grasp and the fidelity of moral commitment with which those conceptions of truth were espoused. In such absolute surrender to the truth as one sees it there is always dignity and power. In their day, the danger was intolerance. In ours, it lies in the tendency to indifference, to hold all truth lightly, and to wear our allegiance to it as an easy yoke. To them, religion was the supreme interest. To know God's purpose and fulfill it was the highest concern. In the careless luxury of our time it is well to remind ourselves of "the unyielding grapple of their tough wills," and gird ourselves anew for steadfast service. We are nurtured in a milder faith than theirs. May we hold it with like firm conviction and constant devotion.

Second: A second characteristic is The Cordial and Enduring Sympathy Between the Church and Its Ministers.

Ten ministers have served for two and a half centuries. Seven were ordained here; six labored here during their entire ministry; and seven are buried here among the people whom they loved. During all this long period, there is no record of friction or misunderstanding between minister and people. The first minister, John Elliot, Jr., lived long enough to win all hearts. But it was six years before the Church settled his successor, and

HISTORICAL SERMON

(Continued from Page 4)

meanwhile their quarrels and divisions brought upon them the rebuke of the General Court. Yet when Nehemiah Hobart began his ministry, all parties cordially united under his leadership, and for forty years they lived together in unbroken harmony. When the third minister was chosen, one of the candidates was Edward Holyoke, afterwards President of Harvard College, but the people preferred the youthful John Cotton. It is evident that he was very earnestly desired, for the record of the Town Meeting, March 22, 1714, reads:—"John Cotton was chosen by clear vote, to be their Minister. Voted, his salary to be eighty pounds, and one hundred pounds for his encouragement." Again, in the records of May 10, 1714,—"Voted, to give fifty pounds more, for Mr. Cotton's encouragement to settle amongst us, as our Pastor, besides the one hundred pounds before voted. Also voted, to add to his salary at any time, and from time to time, such further supplies as he shall stand in need of, for his honorable support." Mr. Cotton was "encouraged" by these marks of confidence to accept the call, and he must have been still more encouraged when the whole town came out in procession to welcome him. The ministry here, so piously begun was greatly blessed for forty-two years. In 1728-9, fifty members were added within four months, and in 1741-2, one hundred and four were received during ten months. Edward Jackson in 1681 bequeathed to Cambridge Village about thirty-one and a half acres of land, which, he says, "shall be the church of the Ministry in this Village forever." In 1740 Deacon John Staples left by will, "to the Church of Christ, in Newton, seventeen acres of land for and towards the support of the ministerial fire." But if the Town and the people thus treated their ministers generously, their spiritual leaders met them in the same spirit. In his acceptance of their call to the pastorate, Jonas Meriam wrote in 1758,—"And as, on the one hand, I desire no more for my support than will enable me to live comfortably, and to discharge the duties of my station without too much worldly encumbrance; so on the other, I doubt not that many depend on your liberality in case of need, for such further assistance as you shall judge necessary for my comfort. But my chief concern is, that I may be made an instrument of turning many to righteousness, so that you and I may have abundant reason to rejoice together in mutual edification here, and everlasting fellowship hereafter." When Jonathan Hildreth was called, in 1781, the Parish voted two hundred pounds to "encourage Mr. Homer to settle in the ministry," but he afterwards "generously relinquished fifty pounds of the same, for which the Parish voted him thanks." In his letter accepting the call to the pastorate, Dr. Homer expressed "the hope that I should be able to enable you and me, uniformly and faithfully, to fulfill our various mutual duties." His peaceful and fruitful ministry of fifty-seven years, the longest in our history, bears witness how richly that hope was fulfilled. Rev. James Bates served as colleague with Dr. Homer for eleven years, and was dismissed at the same time. He was almost morbidly conscientious and self-distrustful, and apparently was unwilling to undertake alone the responsibilities of the parish. William Bushnell, who followed them, stayed but four years, but I cannot find that there was any lack of cordiality between him and the Church. During his ministry Elliot Church was formed, taking thirty-four of our members, among them some of the most active and efficient, and Deacon William Jackson, the leading man not only in the Church, but in the town. This Church was left so weak and discouraged that the question of its continuance was raised, and Mr. Bushnell left, so far as is now known, because he had lost courage and had little hope for the future of the Church. Of the ministry of Dr. Furber for thirty-five years, during which the meeting-house was twice enlarged, and the Chapel built and extended; and of Mr. Holmes for ten years, I need not speak. There are many here who can bear witness to the fact that no relations between these ministers and the Church, and of the loving remembrance in which they are held. This unbroken tradition of affectionate and cordial co-operation between the Church and its ministers, with no trace of mutual suspicion, distrust, or alienation, is a unique and precious heritage.

Third. A third characteristic of this Church is its Charity for those of Other Faiths. Tolerance was not a common virtue with the Puritans. Intensity and narrowness have a mutual relation. While the Pilgrims of Plymouth were tolerant far in advance of their age, the Puritans of Boston and vicinity were as zealous advocates of uniformity as those from whose tyranny they had fled. They treated the Quakers with severity, and drove Roger Williams into exile. But the Quakers of that day were a trying people to live with. One of them went into the Old South Church in Boston one Sunday and broke two bottles, saying to the minister as he did it, "Thus shall the Lord break you." They reviled the established ordinances, called the ministers "the seed of Satan" and felt at liberty to do anything, no matter how profane or indecent, for which they had the authority of "the inner light" in their own souls. They were very different from the Quakers of later generations, and somewhat hard to live with. I have no doubt that we should find them difficult to deal with now. As for Roger Williams, he was banished not because he was a Baptist, for he did not become a Baptist until later, but because he was a cantankerous and rebellious citizen so loyal to his conscience that he would do what he thought was right regardless of consequences. I suppose that the people of Newton would have been no more tolerant than the people of Boston in those early days, but happily there was no occasion to test their temper in this respect. But when the Baptist Church was formed here in 1780, and the other denominations followed in due time, the old Church was ready to give them cordial welcome. One of the pleasantest things in our history is the life-long

friendship between Dr. Homer and Father Grafton of the Baptist Church, and it is fitting that Homer and Grafton Streets, in close proximity, should preserve their names. It is pleasant to think of Father Grafton dismissing his congregation on the Sunday after the death of Dr. Homer's only son, in order that he might come and sit in the pulpit with his afflicted friend and offer a prayer of consolation. A similar friendship existed between Dr. Furber and Dr. Hovey, the President of Newton Theological Institution. Collegemates at Dartmouth they spent their lives together side by side, in delightful fellowship, to which their different denominational loyalty was no barrier. Prof. Stearns and Prof. Hackett were also close friends of Dr. Furber, and the latter was his companion when he went to Europe. The last public address which Dr. Furber made was in the Baptist Church, in memory of the late Dr. S. F. Smith, at the dedication of the chime of bells, and it was a fitting tribute to his memory that the chimes were rung as his funeral procession passed the building. The delightful spirit of Christian co-operation between the churches, which is such a marked feature of the religious life of this community, is due in no small measure to the spirit of tolerance and Christian love, which actuated the ministers of this Church, and which through their teaching, the people have cherished.

Four. A fourth characteristic of the Church has been its Missionary Interest and Activity. Perhaps this was partly due to the impetus given by the first minister, John Elliot, Jr. He had preached among the Indians and was much beloved by them, and had assisted his father, the famous apostle to the Indians, in the preparation of the Indian Bible. After he was settled here he often preached to the neighboring tribes. Dr. Hobart, the second pastor, was related to David Brainerd, Rev. Joseph Park, one of our earliest members, went as a missionary to the Indians at Westerly, Rhode Island. Ignatius Williams, grand-daughter of one of the early deacons, married John Sergeant, a missionary to the Housatonic Indians, and their son gave his life to the same cause. Rev. Increase Sumner Davis went into home mission work in New Hampshire. In later years, we have sent out Harriet N. Childs to Central Turkey, where Mary Isabella Ward now continues her work; Bertha Robertson, Georgia, Alice Estelle Clark, to Tennessee, Lena Lindeman to North Dakota, where she married Joseph Ward, a teacher in the Indian School at Oahe, and Sarah L. Smith, now Mrs. Capt. Garland, to Micronesia. Two daughters of Deacon Samuel Ward and now in the Japan Mission, Mrs. Lombard and Mrs. Dunham, were Rev. Edward S. Cobb, son of Rev. William H. Cobb, D. D., of our membership, is a fellow-worker. For many years Langdon S. Ward, Treasurer of the American Board, was a deacon of this Church. Of his children, Paul taught for a time at Robert College; Mary Isabella Ward and Dr. Elliot St. John Ward are in the China; Emily Ruth and Laura are in China; and Earl Ward has also served for a time in the Turkish mission. Miss Anna Cobb is now teaching in a mission school at Hindman, Kentucky. Dr. George M. Boynton, of The Sunday School Society, Rev. Frank L. Ferguson, of the Education Society, and other devoted workers have been with us, and we now number among our members Dr. James L. Barton, of The American Board, and Dr. William Ewing and Rev. Parris T. Farwell, of The Sunday School Society. Mrs. Capron, once a missionary in India, formerly was in our membership and Mrs. T. Snell Smith, from the Ceylon mission, has been with us. The missionary spirit has thus been fostered by personal relations with many missionaries and missionary leaders. As early as 1826 a child was adopted in Ceylon bearing the name of Jonathan Homer, and another in the Choctaw nation, named for Mrs. Homer. Thus early did the Church begin to have its own representatives on mission soil, a policy which it still maintains. Rev. Otis Cary, D. D., and Mrs. Cary are our official representatives in Japan, and Miss Diantha L. Dewey, in Turkey. We have had as many as five missionaries and Bible readers at work at the same time in foreign fields, supported by this Church and the ladies connected with it. If the gifts for missions during the life of the Church could be tabulated, the total would be a very large sum. They have amounted to nearly \$150,000 in the last twenty years. It is a great blessing for a Church to have the missionary spirit impressed upon it, and to have it to be in vital touch with mission work through living representatives. We shall be false indeed to our history and traditions, if we ever cease to pray and labor for Christian missions at home and abroad.

The close connection of this Church with the founding of two of our Missionary Societies demands a passing notice. The third deacon of this Church was Isaac Williams. His grandson, Elisha, was Rector of Yale College. Another grandson, Col. Ephraim, founded Williams College, where the American Board was prayed into existence at the haystack meeting. It is hardly too much to say that the beginnings of our greatest missionary society were in the farmhouse of Deacon Isaac Williams and his good wife Judith Cooper, in their godly life and earnest prayers. But our connection with The American Missionary Association is more direct. Deacon William Jackson was one of the most active in its formation and was its first President.

Fifth. The mention of these two deacons reminds us of another feature of our church life, The Number of Able and Energetic Laymen who have served in it. Especially has it had a remarkable succession of deacons, and one might well covet a place in that famous list. Perhaps the most remarkable was William Jackson. Interested in every good cause, he organized the first temperance society in town, in 1826, and advocated the unpopular reform to such good effect that the majority of the voters became total abstainers and sent Deacon Jackson to the General Court as representative. Becoming convinced that freemasonry was unduly influencing both the courts and the legislature, he became a strong Anti-Mason, and

WILBUR THEATRE

William Hodge has scored a triumph seldom achieved by actors who have made one immense hit. He has followed his signal success of "The Man from Home" with another hit equally as brilliant and delightful. "The Road to Happiness" in which he has scored his latest footlight achievement as young Jim Whitman, is now in its eleventh week at the Wilbur Theatre, Boston, and capacity audiences are enjoying both him and his "comedy of cheerfulness" with uproarious laughter and enthusiastic applause. One critic has declared of him that "he is as American as the circus or baseball," and another has said that "upon Hodge has descended the mantle of Denham Thompson. Sol Smith Russell and James A. Herne." "The Road to Happiness," like Charles Dickens' "Oliver Twist," has for its central dramatic motive the mystery of a baby foundling. Its four acts are all laid in a typical village and afford the best pictures of American home life on the stage today. Many enjoyable village characters are also depicted to the life.

CASTLE SQUARE THEATRE

Next week will see "Paid in Full," Eugene Walter's intensely interesting and emotional play, also for the first time in stock. "Paid in Full" introduces us to a rough old sea captain who has risen by sheer force of character to be the head of a big shipping line. Captain Williams is a strange mass of inconsistencies, and just such a character as Jack London would love. Merciless to whatever he considers weakness in man or woman, he is yet capable of the noblest actions when his esteem is once gained. And he knows only two sorts of women "all good—or all bad." The cast that is to play "Paid in Full" includes several Castle Square favorites. Mr. William Carleton, Mr. Dudley Hawley and Mr. Alfred Lunt will all play leading parts and the feminine roles will be in the hands of Miss Marion Tanner and Miss Colcord. The role of the pure and brave young wife will be played by Miss Mary Young.

BELL'S SEASONING
Don't Experiment, Don't Guess. Use BELL'S to Delicately Flavor Dressings for Meat, Game, Fish and Poultry. Flavors Dressings fit for the Gods.

MISS FARMER'S TURKEY DRESSING. 1 cup stale bread crumbs, 1 cup cracker crumbs, 1 tablespoon Bell's seasoning, 1 teaspoon salt, 1/2 tablespoon finely chopped onion, 1/2 cup melted butter, 1/2 cup finely chopped cold boiled ham. Mix well, and moisten with 1/2 cup scalded milk. If stuffing is to be served cold, add 1 egg, slightly beaten.

DELICIOUS HOME MADE SAUSAGE. To each pound of fresh lean pork, add 1 level tablespoon of Bell's Poultry Seasoning and 1/4 even teaspoon salt. Sprinkle over the meat, cut fine, thoroughly mix to a stiff dough, then make into cakes and fry.

In 1870, Mrs. Underwood, the famous cook, served General Butler with dressing-dorel with Bell's seasoning, and the general said, "A little more stuffing, please. This is fine, Mrs. Underwood."

REMEMBER. 10c. can Bell's Poultry Seasoning is sufficient to flavor the dressing of 100 pounds meat or poultry, or the 25c. can, 300 pounds.

YOUNG MUSICIAN'S CLUB

The Young Musician's Club held its first meeting of the season last Saturday at 84 Bowers street, Newtonville.

The presiding officer was Miss Helen Douglas. The following officers were elected for the coming year: president, Miss Rose Heilein; vice-president, Mrs. Gould; treasurer, Miss Hazel Cunningham; secretary, Miss Gertrude Barry; chairman of program committee, Miss Helen Douglas.

The object of this Club is to help the members to learn to play before people and to study the lives of the different composers.

As there will be a great deal more suffering this winter on account of the war, the Club has decided to mount postal cards, dress dolls, and give toys to the poor children and to those in the hospital.

After the business meeting was over the initiation of new members took place. Then the Club adjourned to meet December fifth.

WOMEN'S CLUBS

MISS GRACE M. BURT, Editor.

The Children's Bureau in Washington has asked the co-operation of club women in promoting its work. The department of Social Industrial Conditions therefore requests the Women's Clubs of Massachusetts to aid the Bureau by means of the following main program:

1. A wide circulation among their members of such studies as are being published free of charge by the Children's Bureau, relating to the fundamental importance of birth registration, prenatal care, to the duty of every mother to nurse her own baby if possible, to a survey of baby-saving agencies throughout the United States.
2. Support of legislation dealing with the careful inspection of milk.
3. Taking an active interest in local baby-saving agencies, such as, milk stations, visiting nurse associations and hospitals.
4. Community study of the practical enforcement of child labor laws, the granting of working certificates, evening school attendance of illiterate minors, standards of education in English and evening schools, and continuation schools.

Literature and Library Extension Conference

By invitation of the Jamaica Plain Tuesday Club there will be a conference of the Literature and Library Extension department of the State Federation in Elliot Hall, Jamaica Plain, on Thursday, Nov. 19, at 2.30 P. M. Subject, "Books and Life."

Local Announcements

The meeting of the Newton Highlands Monday Club on Nov. 16 will be with Mrs. W. M. Mick, when the study of South America will be resumed.

Mrs. Sanford Thompson will entertain the C. L. S. C. of Newton Highlands on Monday afternoon.

At the meeting of the Brighthouse Club on Nov. 16 Mrs. Robert A. Woods of the South End House will speak upon "Settlement Work."

On Nov. 16 Mr. Morris Carter of the Boston Museum of Fine Arts will lecture before the Waban Woman's Club in Waban Hall on "The Treasures of the Art Museum."

Rev. Albert Birks will speak before the Auburndale Review Club at Knights of King Arthur Hall next Tuesday morning on "Old Deerfield and her Arts and Crafts."

The Newton Parliamentary Law Club holds its regular meeting in the hall of the Newton Public Library on Tuesday, Nov. 17, at 10.15.

At the meeting of the Newtonville Woman's Club on Nov. 17 Mrs. Eudora S. Utley will speak on "Mexico." There will be the annual exhibition of the Needlework Guild.

Mrs. Arthur A. Shurtleff will give a paper on "English Bell Ringing" before the Social Science Club next Wednesday morning. Several English bell ringers will be present with their bells to illustrate the chiming. Members may invite guests and it is hoped that there may be a large number present from among those living within hearing distance of the chiming on the Perkins Institution.

Mrs. W. C. Willard will be the hostess for the meeting of the Pierian Club next Wednesday afternoon.

The Travel Class of the West Newton Women's Educational Club meets with Mrs. H. B. Gibbs of Waltham street, West Newton, on Wednesday, Nov. 18th.

Local Happenings

The Newton Equal Suffrage League held a meeting for members and their friends on Monday afternoon at the home of Mrs. Burton Payne Gray, at Newton Centre. Mrs. William Z. Ripley, vice-president of the League, presided, and about seventy-five were present. The speaker of the afternoon was Mrs. Davis R. Dewey, a member of the Massachusetts Board of Labor and Industries, who discussed the inadequacy of the labor laws of the state relating to women and children, and told of factory conditions as she has found them.

The next similar meeting of the League will be held in Newton Highlands in December.

The first meeting of the Home Economics class of the Newtonville Woman's Guild proved of much interest. Miss Lund, teacher of chemistry in the Technical High School, demonstrated the process of analyzing foods to determine their purity. She showed by means of test tubes many ways by which one can detect impurity and adulteration in foods. Some of the methods were simple and may easily be used by housewives without special apparatus, while others require such means as are not at hand in the ordinary household. Miss Lund referred to the pamphlet published by the Westfield Board of Health, which gives a list of manufactured articles which come up to the standard of purity which this board has laid down.

Mr. Fred H. Tucker spoke before the Auburndale Woman's Club on Tuesday afternoon in the Congregational chapel upon "Household Linens." Mr. Tucker gave an account of the early history of the production of linen, telling of the growth of the flax, including the sowing and reaping, and said that the methods today are practically the

same as those of the earliest times. The club appointed an emergency committee for the relief of Belgian sufferers. Mrs. Jessie S. Spicer of 268 Melrose street is chairman of this committee and will be glad to receive contributions of money from club members. A social hour with light refreshments closed an interesting afternoon. A marvellous jack-o-lantern was a conspicuous ornament to the refreshment table.

The club is having a weekly class in current events in Stirling Hall on Thursdays at 2.30 under the leadership of Miss Rand of Lasell Seminary. On Wednesdays under the direction of Miss Caroline Herron there is a class in aesthetic dancing from ten until eleven followed by one in social dancing from eleven until twelve.

At the meeting of the Social Science Club on Wednesday morning Mrs. W. H. Drury presented a paper upon "Jonathan Edwards." Mrs. Drury traced his ancestry back to the 17th century and told of his birth in 1703, the fifth child and only son of his parents. His graduation at Yale, his ordination to the ministry and his long pastorate at Northampton were all touched upon. Later on account of his disapproval of the manner of admitting new members into his church he was forced to resign his pulpit and from that time on earned a precarious living. Later he was elected president of Princeton University, but was stricken with small pox and died five weeks after his election. An interesting point mentioned was the fact that professors from a number of colleges of the present day trace their ancestry back to this illustrious man. The paper was a very comprehensive study of the man and was listened to with close attention.

Newton Federation

The Autumn meeting of the Newton Federation was held in Players' Small Hall in West Newton on Wednesday afternoon. Miss Dorothy Taylor spoke of the work of the Camp Fire Girls and of the formation of two groups among the freshmen and sophomores of the Technical high school. Miss Taylor is herself guardian for one of the groups and she stated that those who were instrumental in starting the movement thought the upper classes would consider themselves too old, but now the juniors are also clamoring for it.

The girls from these groups had vandy for sale to assist them in procuring their costumes. The canning clubs of the vocational school had a sale of canned fruits and jellies, the proceeds from which they are to use in beautifying the school grounds. Miss Briggs of the West Newton Music school told of the work which that school is doing and invited those present to attend a free concert next Sunday afternoon at the Peirce school to be given by the pupils. Two pupils from the school furnished the music for the afternoon, Edith Spiazza, an Italian girl, giving piano selections and Irene Forte rendering violin solos.

The speaker of the afternoon was Mrs. True Worthy White, chairman of the Literature department of the State Federation and her subject was, "The Value of Contemporary Literature." She believed the womanly genius for administration applied to public affairs, would be extremely economical and beneficial.

It is quite possible that if women had had votes, Europe might have been spared this hideously costly war. In more than one way, justice pays.

AUCTION BRIDGE

Mrs. Rogers and Mrs. Cate Entertain at Brae-Burn.

Mrs. Edwin H. Rogers and Mrs. Henry F. Cate of Temple street, West Newton, entertained a large company at bridge on Wednesday afternoon at the Brae-Burn Country Club.

Thirty tables were arranged in the sun-parlor at the Club and the game was auction. There were nine individual prizes, which were selected by the winners, and awarded to Miss Marian Stutson, Mrs. Albert C. Blunt, Jr., Mrs. S. W. Manning, Mrs. Luther B. Woodward, Mrs. Robert W. Newell, Mrs. William Tower, Mrs. Frances J. Burrage, Mrs. Stanley M. Bolster, and Mrs. Roy R. Merchant.

In the dining-room, where refreshments were served, a scheme of yellow and white was most effectively carried out in the decorations, and in the centre of the table was a large basket of yellow chrysanthemums festooned with streamers of yellow satin ribbon, and surrounded by yellow shaded candelabra.

The ladies who poured were Mrs. Walter Burke of Quincy, Miss Emma Wetheron of Roxbury, Mrs. Brewer of Lexington and Mrs. Joseph N. Lovell of West Newton.

One feature of the affair which afforded great pleasure to the guests was a group of songs beautifully rendered by Miss Jessie Kinney of Roxbury.

JUSTICE SAVES MONEY

Much has been said about the greater cost of elections involved in equal suffrage and little about the actual money saving that has often resulted from giving women a voice in public affairs.

Women are the economical sex. "It is harder for a woman to get a dollar than it is for a man—I will not say harder for her to earn a dollar, but harder to get one," said Henry B. Blackwell; and he argued that, through a long course of having to scrimp and plan to make both ends meet, a dollar looks larger to the average woman than to the average man, and she is less ready to spend it without getting full value for the money.

We have had some striking examples of this very lately. Dr. Katherine Bement Davis, as Commissioner of Correction in New York, is not only running the prisons more humanely for the inmates than her predecessors, but is doing it at a great deal less cost to the city. In California the craft has largely been knocked out of the State government since women got the ballot. In Chicago, since the women voters tackled the garbage problem, a new garbage plant has been put in whereby the garbage nets the city \$2,000 a month instead of costing it \$4,000 a month, as under the old system—to say nothing of saving the cost of a large amount of illness and death due to the bad smells and rotting garbage heaps, before the women took hold. A prominent divine of the last century wrote:

"Few old women keep house so wastefully as chancellors of the exchequer keep the State. One of my reasons for supporting woman suffrage is that I believe the womanly genius for administration applied to public affairs, would be extremely economical and beneficial."

It is quite possible that if women had had votes, Europe might have been spared this hideously costly war. In more than one way, justice pays.

COMING OUT PARTY

Mrs. Richard Young, formerly of West Newton, gave a reception followed by dancing on Wednesday at her residence in Boston, to introduce her daughter, Miss Elizabeth Young.

The young residence on Beacon street was converted into a floral tower for the occasion, the rooms being profusely decorated with roses, orchids, ferns and chrysanthemums. Mrs. Young and her daughter received from 5 until 7, standing beneath a floral arch banked with roses and chrysanthemums in the library.

Miss Young was charmingly gowned in white tulle and Mrs. Young wore gray and silver brocade.

In the dining-room the decorative scheme was pink, and on the table was a large centre-piece of pink Kilmarney roses and orchids which were also used in pleasing arrangement on buffet and mantels.

An orchestra was in attendance during the reception, which was followed by dancing in the spacious drawing-room.

HOME CIRCLE

The next meeting of the Newton Ladies' Home Circle will be held on Thursday, November 19 at 2 P. M. in G. A. R. hall, Newtonville. Very important business.

One of the popular whist parties of the Home Circle will be given on Monday, November 30, at 2 P. M. in G. A. R. hall, Newtonville.

Several kinds of whist will be enjoyed.

NEWTON EQUAL SUFFRAGE LEAGUE

HISTORICAL SERMON

(Continued from page 5)

as such was twice elected to Congress. In Washington, he became familiar with the evils of slavery and was ever after an earnest abolitionist. But his energies were not all directed to crusades against evil. He was the moving spirit in securing railroad facilities for the community, and was the man always sought as the leader in any public enterprise. Almost equally influential for good in every direction was Elijah F. Woodward, whose descendants still dwell within the old homestead, the eighth generation to live under the shelter of its roof. Chorister, Superintendent of the Sunday School, Deacon from his twenty-eighth year until his death, town-clerk and treasurer, teacher and surveyor, a man universally trusted and beloved, at his death the whole community turned out to do him honor. With these are associated the names of Luther Paul and Asa Cook, of whom it is enough to say that they were worthy to stand in such company. And these men are but illustrations of that great company of able and devoted men who have served this Church, and who continue to this day.

Sixth. Another marked characteristic of this Church has been its care for children and youth. I have called attention to the large proportion of young men among the charter members. During the ministry of Rev. John Cotton, he was the leader of the young men of the town, who formed a society for debate, mutual improvement, and religious study. In the latter part of his ministry, during a time of special interest, records that more than three hundred young people had called upon him to talk about their personal salvation. Young people from neighboring towns came hither for instruction and inspiration. Forty years later, when Dr. Homer was invited at the same time to the Old South Church, Boston, and to this Church, he chose to come here for two reasons, first, because this Church was ready to abandon the "half-way covenant" and the other was not, and second, because, as he says, "I have noticed the diligent and solemn attention of the people, and especially the youth of this place to the public services of religion, in which I have seldom, if ever, found them extended elsewhere. This is a circumstance of my call which I cannot resist, and would prefer to every other possible consideration." A class for Bible study was formed here twenty years before Robert Raikes started the first Sunday School, and all the early pastors were faithful in catechizing and instructing the children of the parish. Jones Meriam records that he had a list of over eight hundred baptized children for whose welfare he was solicitous. Today, the heart of our Church life is to be found in the Bible School, and the most attractive feature of our public worship is the presence of an unusual number of children and young people.

Seventh. The last characteristic that I shall mention is The Influence of Consecrated Womanhood. The thoughts of some of the older people will immediately turn to that beautiful and gracious woman who presided with so much dignity in the home of Dr. Furber, and whose portrait fittingly adorns the wall of our chapel. Eminent in all good works, extending her influence through her benefactions to the destitute in the southern and western states and in foreign lands, the friend of all who were in trouble, the comforter of those in sorrow, the counsellor of the perplexed, her memory is cherished in many distant homes and grateful hearts. But Mrs. Furber was only one in that succession of noble women who not only in the parsonage, but in so many homes of this parish, have given witness to the beauty of holiness. Dr. Furber's memorial discourse gives in some detail the history of Mrs. Hannah Pope, a notable "mother in Israel," who lived to the age of one hundred and four years, and exerted a wide influence. Such women as the three daughters of Deacon Isaac Williams, the daughters of Rev. Nehemiah Hobart, and Dr. John Cotton, of Deacon Jackson and Deacon Woodward, have been the ornaments of our history and a chief source of the influence of this Church. Nor has the goodly succession failed. The strength of this Church, as of all our churches, is largely in these days a most impressive and depressing exhibition of the influence of ideals upon national life. Half the world is enduring the horrors of war because false conceptions of national greatness have been persistently taught. In the redemption of humanity, individual righteousness was the first goal to be won. That has so far been attained that, at least, the New Testament ethical ideal is now universally accepted as the standard of conduct. Next in order comes Social Righteousness, and we have made great strides in that direction, until now the ideal of society is far more clearly recognized and far more widely accepted than ever before. If you ask whether the Church has had in bringing these things to pass, just imagine for a moment, that these New England hills had been dotted for the last two centuries and a half with Mohammedan Mosques or Buddhist Temples instead of the white churches of our fathers, and try to picture the society that would have grown up about them. Can anyone bring himself to believe that we should have today the ideals of personal conduct, of civic righteousness and of national freedom and justice which are now the very breath of our nostrils?

But, while so much has been won, the nations have only just begun to realize that in international relations the same law of righteousness must be applied as in personal relations. It is the great opportunity and the momentous obligation of the Christian Church now to insist, with trumpet voice, upon the practice in international behavior, of those ideals which shall ultimately bring a lasting and righteous peace to all the earth. How great is the power of transmitted life! Jesus left no book and organized no institution. But He gathered a company of disciples and filled them with the life of God. They went forth and kindled the divine fire in the hearts of thousands. Down through the generations that life has been transmitted, in that holy succession which goes back to the Lord of Life Himself. The beginnings of this Church are not to be sought in that devoted company who here established their free government in Church and state two centuries and a half ago, nor even in that creative and germinal era which preceded their coming to these shores, but in the life-giving soul of Christ, Our Lord. We stand here, then, in a holy succession. As we have received the gift it is ours to hand it on with undiminished power, and in the new and marvellous openings of Providence in this era, to be as ready as our fathers were to serve our day and generation in the fear of God. When England faltered for a moment, in the early days of the last century, the poet Wordsworth recalled his countrymen to worthy endeavor in such words as these:—"In our halls is hung Armour of the invincible knights of old: We must be free or die, who speak the tongue That Shakespeare spoke; the faith and morals hold Which Milton held. In everything we are sprung Of earth's first blood, have titles manifold." So this record summons us to worthy living. Let others forget, if they will, their high calling, and give themselves to selfish ease or sinful indulgence, but not we! Noblesse oblige! Whenever any Ahab seeks to tempt us to unworthy surrender, may our hearts cry out in passionate devotion,—"The Lord forbid it me, that I should give the inheritance of my fathers unto thee!"

ing spirit among those ministers who did so much to prepare the public mind for the revolutionary struggle. One of his daughters married the President of Columbia College, and another was the wife of the Professor of Divinity at Harvard. More than half the male membership of the Church fought in the Revolutionary War, and when the land was rent by civil strife, their sons were not found wanting. The courage and patriotism of Colonel Michael Jackson and his gallant company were matched by the devotion of Sergeant Major Charles Ward, Captain Joseph Cousins, and their comrades in 1861. But the gifts to the state in times of peace have been even greater than such costly sacrifices upon the altar of patriotism in the time of war. Among the descendants of the early families are three judges, two members of Congress, a large number of authors, four college professors, three professors in theological seminaries, five college presidents, twenty-five ministers of the Gospel, and twenty-four ministers' wives. What a contribution to the history of the nation was made by that wonderful family of our third deacon, Isaac Williams. His son, Rev. William Williams, married the daughter of the minister, John Cotton, and went to Hatfield, where he preached for fifty-five years. One of his sons was Rev. Solomon Williams, D. D., who was minister in Lebanon, Conn., for more than fifty years, and whose son, William, was one of the signers of the Declaration of Independence. Another son of the Hatfield minister was Rev. Elisha Williams, Rector of Yale College. A son of the Lebanon minister went to East Hartford and preached there more than fifty years. Here are three generations of ministers, each of whom remained in one parish for more than half a century. The grandson of our Deacon Williams, Colonel Ephraim Williams, provided in his will for the establishment of Williams College. In the next line of descent from the good deacon are also such famous people as Rev. Joseph Buckminster, D. D., and his son Joseph, noted New England ministers; Judge Theodore Sedgewick, and his daughter, Catherine Maria Sedgewick, the authoress; President Mark Hopkins, of Williams, and his brother Albert; Mrs. E. W. Blatchford, of Chicago; Mrs. E. S. Mead, fourth President of Mount Holyoke, and many others. Who can estimate the power of the influences for the higher life of the nation that had their origin in that one godly household? Professor Park, who was himself descended from Nathan Park, the first person received into the Church by Dr. Homer, in his famous sermon on "The Influence of the State on the Clergy," quotes Sir Thomas Fowell Buxton as saying at the close of his great career, "Whatever I have done in my life for Africa, the seeds of it were sown in my heart in Wheeler Street Chapel". None of us, probably, has ever heard of Wheeler Street Chapel. The humble minister who preached there, was unknown to fame. But the work of Sir Thomas Fowell Buxton is known throughout the world. Many another man has wrought mightily for the welfare of the nation and of mankind, whose aspirations were awakened here in this village church, and whose life was nourished and strengthened by waters from this ancient fountain. We have from this church, five to forty boys and girls away at college. Almost all of them have received the seal of Christ and His Church before they leave their homes. A constant stream of young men and women, trained by the home, the school, and the church for the highest service, thus flows steadily out to join the broad river of the world's life. We have our representatives today in all parts of our own land, in Canada in South America, and across the seas. Our hope and constant prayer is that everywhere they may remain true to the ideals they have here adopted, and may bear a good witness for Jesus Christ. To equip and supply such leadership in state and Church is a service to the nation which cannot be estimated.

Third: To the World. Our lines have gone out to all the earth and our sons and daughters to the ends of the world. Today they are bearing gifts for the healing of the nations which they themselves have plucked from the tree of life. As so many of our choicest youth have gone into the sacred ministry at home and abroad in bygone days, may we still continue to furnish leaders in that high and holy calling. But besides the gift of men and women, trained for service, the Church serves the nation chiefly by her insistence upon the highest ideals of personal, social, and national life. We are beholding in these days a most impressive and depressing exhibition of the influence of ideals upon national life. Half the world is enduring the horrors of war because false conceptions of national greatness have been persistently taught. In the redemption of humanity, individual righteousness was the first goal to be won. That has so far been attained that, at least, the New Testament ethical ideal is now universally accepted as the standard of conduct. Next in order comes Social Righteousness, and we have made great strides in that direction, until now the ideal of society is far more clearly recognized and far more widely accepted than ever before. If you ask whether the Church has had in bringing these things to pass, just imagine for a moment, that these New England hills had been dotted for the last two centuries and a half with Mohammedan Mosques or Buddhist Temples instead of the white churches of our fathers, and try to picture the society that would have grown up about them. Can anyone bring himself to believe that we should have today the ideals of personal conduct, of civic righteousness and of national freedom and justice which are now the very breath of our nostrils?

PRESENT ALDERMEN WIN

Republicans Re-Nominate Aldermen Folknall, Cabot and Jarvis At City Primary

The city primary on Tuesday brought out a total of 1520 votes of which 1331 were Republican, 101 Democratic and 88 Progressive, the bulk of the Republican vote being cast in Wards 2 and 7 where there were contests for the nominations for ward aldermen.

The contest for the Republican nomination for aldermen at large from ward 1, between Alderman Reuben Folknall and Mr. Charles E. Rees was a walkover for the present aldermen who polled 1038 votes to 205 for his opponent. Alderman Folknall will also have the Democratic nomination. Mr. Rees, however, receives the Progressive nomination for this office with a total of 60 votes to 2 for Mr. Folknall.

The ward 2 contest for ward alderman was an easy victory for Alderman Harry D. Cabot who had 246 to 5 for Mr. George F. James.

The fight which brought out the largest vote was that for ward alderman in ward 7, where Alderman Henry W. Jarvis was opposed by Mr. Leverett D. G. Bentley, a Boston newspaperman. Mr. Bentley's friends made a hard fight to overturn the existing state of affairs but he received only 182 to 223 for Alderman Jarvis.

A little opposition developed against the renomination of ward alderman William S. Wagner, the name of Mr. Arthur W. Hollis being written in by 3 of his friends. Mr. Hollis received the Democratic nomination in the same manner and it is understood that he will make a fight at the city election.

The only contest in the Democratic ranks was between Alderman Joseph W. Bartlett of Waban, who is a leading Democrat in the city, and Mr. James J. Martin, the latter winning the nomination with the remarkably small vote of 9 to 6. Alderman Bartlett will have the Republican and Progressive nominations.

A large number of names were written on the various ballots but most of them are futile as the law requires the street and number to be also added.

The following table gives the whole vote and that for the Folknall-Rees contest.

	Rep. Whole Number	Folknall	Rees	Dem. Whole Number	Prog. Whole Number

THANKS HIS FRIENDS

To the Editor of the GRAPHIC: Will you permit me through the columns of your paper to express my sincerest thanks to those who so loyally supported me in the recent primaries as a candidate for Ward Alderman from Ward 7. It is my earnest desire that all who took part in my interest lend the same aid to the candidacy of my recent opponent, Mr. Henry W. Jarvis, the regular Republican nominee.

HUNNEWELL CLUB

An excellent concert by the Musical Review Company, consisting of eight young ladies was given last Friday evening to a small audience. The program included songs, duets, readings and orchestral numbers, some of them given in costume.

Mr. Langdon Coffin won the Saturday night prize for the best string of bowling.

The two bowling teams which visited the Neighborhood Club last Saturday evening, won but one string out of the six which were rolled. Mr. E. E. Hayward, Hunnewell, won from Mr. Fred Hill, Neighborhood, at billiards, while Mr. Sterling N. Loveland, Hunnewell, was beaten at pool by Mr. T. O. Marvin, Neighborhood.

There will be a ladies matinee whist this afternoon. Next Wednesday evening, the usual Thanksgiving Eve party will be held and Thanksgiving Day will be "open house" as in former years. Neighborhood Night on Tuesday attracted a large number as Miss Harrington had been engaged to give a dancing lesson to all who wished to learn the new dances. There were so many present that the lesson was given in two relays and caused considerable amusement. Bowling pool and cards were also enjoyed.

Mr. William C. Brewer, in the marine, fire and general insurance business, who lives in Newton Centre, is resident agent of the United States Lloyds, trustee of the Newton Centre Savings Bank, and chairman of the Playground Commission of the City of Newton.

Mr. Herbert Kimball Hallett of Newtonville, is president of the Fourth Atlantic National Bank. As a young man he started in the Littleton National Bank of New Hampshire, but soon came to Boston and to the Atlantic National Bank, where he worked up to a minor position to the presidency. When the Atlantic and the Fourth National combined, Mr. Hallett became president of the consolidated bank.

Mr. Henry I. WALTHAM APPEALS

From Recent Street Railway Decision Of Public Service Commission

The six-cent fare on the Middlesex & Boston Street Railway Company, authorized by the Public Service Commission, to be charged within the limits of Waltham, has resulted in the filing of a petition in the Supreme Judicial Court by George B. Willard, president of the Board of Trade of Waltham, asking that the court review, modify, amend or annul the decree of the Public Service Commission.

The petitioner claims that the order affords more than reasonable compensation to the railway company, and is therefore unlawful; that it puts an unfair burden on the city of Waltham to support unprofitable lines of the company; that during the past year Waltham paid to the company \$59,634.36 in excess of its proportionate share, and furnished 75 percent of the funds of the company available for dividends.

BELGIAN RELIEF FAIR

848 Beacon street, Newton Centre, December 2 and 3. We wish to announce to all those suffering in any manner, or degree from enlargement of the Purse, that we will have in attendance 57 varieties of experts, who guarantee to remove your money without pain, and to keep you happy during the operation without the use of anaesthetics.

If you can't come, you will in any event want to take part in the relief of the women and children in Belgium. Make your cash gifts thru the Newton Trust Co., Newtonville Trust Co., or The First National Bank of West Newton, and they will forward such gifts to the proper authorities. Make checks payable to any one of these Banks, "For Belgian Relief."

HOSPITAL SUNDAY

During the year ending August 31, 1914, the Newton Hospital cared for 2,023 patients. Of these four-fifths paid less than the actual cost of their care.

To continue this charitable work another year requires a gift from the people of Newton on Hospital Sunday of at least \$20,000.

Please make your gift through your church on Hospital Sunday or send it to G. R. Pulsifer, Treasurer, Newtonville.

WINS CHAMPIONSHIP

Newton High Is First In Triangular League

By winning from Cambridge Latin 21 to 0 last Friday afternoon at Russell Field, Cambridge, the Newton High football eleven won the championship of the Triangular League for the present season.

Weather conditions entered into the game. By taking advantage of the wind, Cambridge Latin kept the ball in their opponents territory, resorting to a kicking game. This, with fine defensive work, enabled the Cambridge eleven to hold off their stronger opponents until the last of the game.

In the fourth period, Proctor intercepted a Newton forward pass and carried the ball to the 20-yard line before being downed. Latin failed on its attempts on the line and tried a forward pass, which Harris of Newton intercepted and ran 55 yards for the first touchdown. From this point on the Cambridge team withered, and Newton, in the few minutes remaining, scored twice more. Cambridge gained but one first down during the game.

Capt. Van Tassel played a fine game for Newton as did Bryson and Harris who rank among the leading ends of the season. For Latin, Cohen, at center, stood out. Blakeslee also did good work.

One of the feature runs before Newton started its scoring was by William Wellman in the fourth period, one of 50 yards on an intercepted forward pass.

NAVAL BALL

Fully four hundred guests from Boston, Newton and surrounding cities, attended the grand ball given Friday evening on board the Argentine battleship, Rivadavia, at Charlestown. The dancing was on the decks which were enclosed in triple canvas and beautifully decorated in Argentine and American flags and colors. Dinner was served in the ward rooms and in the Admiral's dining-room. The battleship was brilliantly illuminated and two bands and an orchestra were in attendance, the festivities extending into the "wee small hours." Captain Moneta has entertained extensively during the Rivadavia's stay in Charlestown, and this was a farewell ball as she sails Monday the 23rd for New York and on Thursday, December 10th she "hoists sail," for Buenos Ayres.

ROUTINE BUSINESS

Aldermen Hold A Short and Unimportant Session. Centre Street To be Widened

A very ordinary meeting of the aldermen took place Friday night of last week instead of Monday night, the change being due to the fact that the board is required to meet within ten days after an election in order to declare its result.

President Blakemore was in the chair and Aldermen Cobb and Cox were absent.

Hearings were held on petitions of the Edison Co. for pole on Crafts street, for underground conduits in Charlesbank road and St. James street, of the Telephone company for pole on Groveland street, on the laying out of Beech street, the laying out of Blackstone terrace, and taking land for sewers in Ransom road and off Waverley avenue.

On recommendation of the Mayor \$275 was transferred in the Police Dept., \$150 transferred for Office Expenses in the Street Dept., \$550 appropriated for the widening of Centre street at Beacon street, \$1000 transferred for resurfacing of Boylston street from Walnut street to Dudley road, and \$7300 added to Interest on Temporary Loans. The mayor also in the request of Michael Cannon for revision of his pension as a veteran, which was referred to the next city government, a request for \$150 for Maintenance of Rifle Range, a request of the Forest Commissioner for a new automobile, and an offer of \$50 by W. H. Gilbert for 1070 feet of land on Commonwealth avenue, Auburn-dale.

Petitions were received from A. S. Fuller for garage on Collins road, Waban, John T. Burns as an auctioneer, R. N. Wales for license for 3 taxicabs, Peter Rolfe for one auto truck, the Edison Co. for relocations Elm street, Helen Walsh for a sewer in Langley road, M. H. Smith for abatement of street sprinkling assessment.

on North street, Simon Morrell for a liquor transportation permit, the Telephone Co. for attachments on Beaumont avenue, and to remove 2 poles on Centre street and W. L. Puffer for permit to burn leaves.

On recommendation of Committees, licenses were granted to H. S. Decker for 3 auto busses, P. J. Gleason for 1 auto for hire, Fred J. Busch for 2 pool tables, Walnut street, Newtonville, attachments to the Telephone Co. on Clark street, relocation of a pole on Groveland street to the Edison Co. permission to the Gas Light Co. to open certain streets for gas mains, the Mayor was authorized to lease the old Jackson school house at Nonantum, water mains were ordered laid in Churchill street and off Lexington street, sewers ordered in Ransom road and in Langley road, leave to withdraw granted on petition A. K. Casson for a gasoline license at Chestnut hill, petition for sewer off Lexington street was referred to the next city government, and leave to withdraw granted on petition for laying out of Oak terrace and for concrete sidewalks on Oak terrace and on request for water main in Vine street.

\$250 was appropriated from the Municipal Buildings Insurance Fund for damages caused by a small fire in the Pumping Station property and \$13,888 granted for city expenses to the end of the year.

The report that it was inexpedient to grant the request of the trustees of the Newton Hospital for water at cost, was accepted.

Mr. Vernon B. Swett was reappointed a member of the Planning Board for three years, the appointment being laid over under the rules. The Registrars of Voters sent in a report of the recent recount for Councilor and the returns of the election held November 3 were signed.

WELLINGTON—SPICER

The wedding of Mr. Henry Hill Wellington of Philadelphia, the son of Mr. and Mrs. Arthur J. Wellington of Church street, Newton, and Miss Blanche Spicer of Philadelphia, took place in that city last Saturday evening the ceremony being performed at seven o'clock by Rev. Dr. Bowman, in the presence of the families of the bride couple.

The bride was in white chiffon taffeta, with the conventional veil and orange blossoms and carried a shower bouquet of white roses, lilies of the valley and orchids. She was given in marriage by her brother-in-law, Mr. E. M. Prettyman and her sister, Mrs. Prettyman was the matron of honor. Mr. C. Oliver Wellington of Belmont, Mass., brother of the groom, was best man.

Mr. and Mrs. Wellington will spend their honeymoon on the South Shore and will reside at 722 Ansbury street, Logan, Pa., a suburb of Philadelphia.

EDITORIAL

By publicly announcing that they
should refuse to follow the instruc-
tions given by the voters at the state
election, to vote for the initiative and
referendum, Messrs. Bothford and
Weston have raised an interesting
question as to the rights and duties of
representatives, as well as a point in
political ethics, both of which are
worth discussing.

Article V of the constitution of
Massachusetts distinctly states "All
power residing originally in the peo-
ple, and being derived from them, the
several magistrates and officers of
government, vested with authority,
whether legislative, executive or judi-
cial, are their substitutes and agents
and are at all times accountable to
them." Article XIX also says, "The
people have a right, in an orderly and
peaceable manner, to assemble to con-
sider upon the common good, give in-
structions to their representatives, and
to request of the legislative body, by
way of addresses, petitions or remon-
strances, redress of the wrongs done
them, and of the grievances they suf-
fer."

These two articles make it perfectly
clear, first that our representatives are
"substitutes and agents" and second,
that the people have an undoubted
right to "instruct" them.

At the last election the people of
Newton by a vote of 370 to 156 "in-
structed" our representatives to sup-
port the initiative and referendum.
The vote in favor of these instructions
exceeded that cast for the representa-
tives having the largest vote in the
city (3319) and is larger than the
highest combined Democratic and Pro-
gressive vote for representatives by
1021 indicating that the number of
persons voting for the Republi-
can nominees also voted Yes on this
question.

Before assuming their duties as rep-
resentatives next January, our rep-
resentatives must take an oath to sup-
port the constitution of the Common-
wealth, including the articles quoted
herewith, and under which the people
of Newton have taken action. It seems
fairly clear that as honorable men
they must follow the instructions so
given them or tender their resigna-
tions to the people. If our representa-
tives-elect had publicly stated before
the election that they would not vote
for the initiative and referendum, if
so instructed, there might be some
argument that they were free agents in
this respect. Not having taken that
precaution, however, there appears to
be no other recourse than to either
favor the measure or resign.

The editor of the GRAPHIC took it
upon himself last week to petition the
school committee to prohibit the an-
nounced game of football between the
Newton High and Waltham High
eleven to be held at Waltham on
Thanksgiving Day, on the grounds that
the experience last year were suf-
ficient cause to break off athletic rela-
tions between the two schools until
some of the present intense ri-
valry between the two schools and
their partisans had somewhat
abated. The school committee
however, has seen fit to place its en-
dorsement upon the coming game, and
so long as the committee understands
all the circumstances, and accepts the
responsibility, the editor is content to
allow the matter to rest with the fer-
vent hope that history will not repeat
itself either in the conduct of the game
or in the conduct of the crowd that
shall witness it.

Saturday, Nov. 21, 1914

The rumors and insinuations which
were circulated in the Newton sec-
tion of the city that the so-called
"temperance" issue entered into the
selection of Republican candidates at
the recent city primary, worked a
great injustice to innocent persons
and were entirely uncalled for. None
of the men on the Republican ticket
deserve the title of "rum" candidates
with which one or two were burdened,
and which undoubtedly had consid-
erable to do with the final result.
Mr. Rees has answered that charge
in another part of this issue, and
friends of Mr. Bentley, who know his
high standard of ideals and his high
character and reputation, seriously
resent the way in which he has been
misrepresented and even slandered in
this respect.

There is no "rum" question in this
city. We are all united in the firm
determination to restrict and finally
eradicate this evil. The only ques-
tions at issue are the best ways to
accomplish this result, and those per-
sons who urge the extreme meas-
ures are hurting, rather than help-
ing in this great movement. There
is such a thing as "temperance" even
among the advocates of temperance.

The new ordinances in regard to
the fire risk, just passed by the city
government, while in line with the
best modern thought on this subject,
will have a rather serious effect on
building in this city. It is some ques-
tion, of course, whether or not, the
city should discourage the develop-
ment of building on small lots, and
thereby cause the poor man to seek
a home elsewhere. Sentiment seems
generally divided on this question.
The ideal Newton would have no place
for the three-decker or the Revere
Beach style of building, but there is
a reasonable limit which ought to be
possible, and the new ordinances are
certainly not in line with that desir-
atum.

Once more the Thanksgiving season
has rolled around and with it comes
the appeal to our sympathies and
pocket books from the trustees of the
Newton Hospital. There are few resi-
dents of Newton who are not ac-
quainted with the splendid work that
this institution has done and is still
doing in this city and while there are
urgent calls for relief for the sick and
wounded in our own community also
have some claim on our assistance.

Henceforth the Street Department
will have aldermanic authority regu-
lating the materials to be removed in
the weekly collections of ashes and
rubbish. The rapid increase in the
cost of this work during the past five
years is responsible for the new re-
strictions and are in the interest of
the taxpayer, however irksome they
may be to the householders.

The various referendums received
the usual indifferent vote and the de-
feat of the laborers' vacation act in
this city was a great surprise. The
GRAPHIC does not oppose laborers'
vacations as a general proposition, but
measures of this sort should be drawn
most carefully and state clearly and
concisely just what is intended.

It is interesting to note that the
Somerville board of aldermen has pe-
titioned the Legislature for authority
to have the people of that city vote an-
nually on the questions of granting
sixth class liquor licenses and permit-
ting to transport intoxicating liquors into
that city. Newton should ask for simi-
lar legislation.

The city of Newton showed its ap-
preciation of the character and work
of Representative George H. Ellis by
the splendid vote it gave him for state
senator. Mr. Ellis honors the state
and the district by accepting this hon-
orable office.

President Blakemore has done the
proper thing in introducing an amend-
ment to the sewer assessment ordi-
nance as some increase in the present
rate has been advisable for some time.

It is an everlasting disgrace to this
country that the per capita fire loss
here is \$2.54 while in Europe it is
only \$0.23.

BARNEY—WILSON

The wedding of Miss Gertrude Wil-
son, the daughter of Mr. and Mrs.
George B. Wilson of Newton Centre,
and Mr. Louis Plummer Barney of
Newton Highlands, took place Wed-
nesday evening at the bride's residence
on Clark street.

The ceremony was performed at 8
o'clock by Rev. George Phipps, a re-
tired Congregational clergyman, in the
reception room, which was attractively
decorated with yellow chrysanthem-
ums and ferns. As the wedding
party entered, Wagner's Bridal Chorus
from Lohengrin was played by Mrs.
Ernest Fewkes.

The bride, who was given in mar-
riage by her father, wore a handsome
wedding gown of white Liberty satin
with duchess lace trimmings, tulle
veil fastened with a spray of orange
blossoms and carried a shower bouquet
of orchids and lilies of the valley.
Her only attendant was her sister,
Miss Maude Wilson, as maid of honor,
who was becomingly gowned in pink
crepe de chine trimmed with Chantilly
lace and carried Killarney roses.

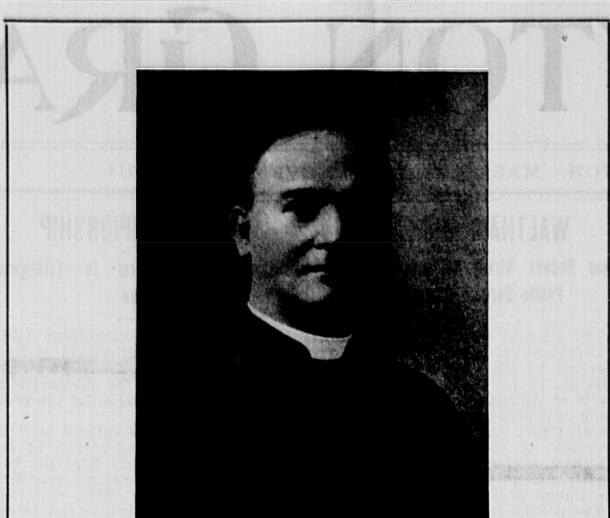

The groomsmen was Mr. Guy Ed-
ward Lewis of Boston, formerly of
Lebanon, N. H., a cousin of the bride
and the ushers were Messrs. Roy
Lewis of Lebanon, N. H., cousin of the
bride, Roger Ellis of Newton Centre,
Alfred Turner and George German of
Newton Highlands.

A reception was held immediately
after the ceremony and Mr. and Mrs.
Barney were assisted in receiving by
Mr. and Mrs. Wilson.

Mrs. Wilson wore a gown of gray
crepe meteor trimmed with Chantilly
lace and carried a bouquet of pink
roses. Mr. and Mrs. Barney were the
recipients of many beautiful and costly
wedding gifts.

Guests numbering about 100 were
present from New York, Boston, Cam-
bridge, Brookline, Waltham and the
Newtons.

On their return from a wedding trip
Mr. and Mrs. Barney will reside on
Erie avenue, Newton Highlands and
will be at home after January first.

NEWTON CLUB

The annual minstrel show given on Wednesday and Thursday evenings of this week in the assembly hall attracted large audiences on both evenings and the program was thoroughly enjoyed by everyone present. The program was written by an artist in the use of language and equalled the Barnum circus announcement in its palmiest days. The orchestra was called "mastedonia" and if noise was any standard it fully equalled that description.

The first part of the evening was the conventional black face circle with such stars as Fred Mann, Warner Marshall, John Eddy, Edward (Mark) Hanna, Benjamin F. Kenney and Fred Toole attired in gorgeous red plush (or velvet) coats and vests and white flannel trousers as the end men. The combined weight of these end men was conservatively estimated at four tons, more or less. Mr. Henry J. Nichols was good as the interlocutor and the rest of the circle was composed of W. Dana Follett, G. Norman Bankart, W. T. Halliday, G. H. B. Macomber, J. Frank Dunleavy, Roy V. Collins, Edward H. Little, James Odell, Jr., W. R. Spiney, Fred W. Rust, Raymond Tucker, Harold O. Hunt, Donald Hunt, Everett H. Judkins, Carl F. Schipper and Harry C. Wear.

The choruses were sung with considerable snap and plenty of volume and the songs by Mr. Marshall, Mr. Toole, Mr. Eddy, Mr. Hanna and Mr. Mann were greeted with great applause, particularly that of Mr. Mann whose dancing was highly appreciated.

The second part of the program consisted of character songs by Mr. James E. Odell, Jr., monologues by Mr. Robert Kelly, some excellent dancing by Miss Mildred Macomber, who was accompanied by Miss McKinney, who sang and played the music for the dancing. Mr. Raymond Tucker gave one or two tenor songs to the accompaniment of the fiddle, which were beautifully rendered and the Newton Club mandolin sextette played some popular airs. The entire company were in the final number singing a medley of the choruses given during the evening.

The ball team of the Newton Police department which won the championship of the Mass. Police Baseball League this past summer was given a banquet Wednesday afternoon at Grand Army hall, Chelsea, about 200 being present from the 12 cities interested in the League.

The exercises were formally opened by President John J. Donovan of Lowell with a brief address of welcome. He presented Edward F. Flanagan of Lowell as toastmaster.

Addresses were made by Mayor Edward F. Willard of Chelsea, Mayor Edwin O. Childs of Newton, Mayor Dennis J. Murphy of Lowell, Chiefs of Police William Hill of Everett, Charles Bradbury of Revere and Redmond Welch of Lowell, Ex-Mayor Carmichael, Commissioner of Fire and Water Service of Lowell, and Joseph F. Conway of Boston, the donor of the pennant.

The championship banner was presented to the Newton team by Mr. Conway. William J. Kiley, manager of the Newton team, made a brief speech of acceptance in behalf of his club. Mr. Kiley was surprised by Mayor Childs, who presented him with a stickpin and cuff links, the gift of the members of the team and friends for his efficient work during the season in behalf of the team.

James E. Donnelly, Commissioner of Public Property in Lowell, sang several selections and his rendition of "Tipperary" evoked several encores. Patrolman John Keating of Chelsea also sang.

The school has opened this year with the largest number in its history. Last year there were eighty-five pupils which at that time was the largest number the school had ever enrolled in.

This year's enrollment shows an increase of about twenty-five per cent over last year. During the summer the school erected a new four-story building which made possible the increased enrollment. This new building has rooms for the Domestic Science department and also rooms for students.

The teaching force has been strengthened this year by the addition of Miss Crystal Waters, who, for the past two years has been a student of Braggiotti in Florence, Italy. Without doubt, there is no greater teacher in voice at the present time either in America or in Europe than Braggiotti. The school considers itself most fortunate in being able to secure Miss Waters as its teacher in Voice.

The teaching force in the Piano department has also been strengthened very greatly by the addition of Miss Susan M. Ferguson who has been a student of Miss Crystal Waters, who, for the past two years has been a student of Braggiotti in Florence, Italy. The teaching force in the Piano department has also been strengthened very greatly by the addition of Miss Susan M. Ferguson who has been a student of Miss Crystal Waters, who, for the past two years has been a student of Braggiotti in Florence, Italy. Without doubt, there is no greater teacher in voice at the present time either in America or in Europe than Braggiotti. The school considers itself most fortunate in being able to secure Miss Waters as its teacher in Voice.

ANNUAL BANQUET

Last Monday evening in the Newton Catholic Club Hall more than 250 members of that well-known organization sat down at its sixth annual banquet, which will go down in the annals of the club as most successful and enjoyable. A brilliant list of orators were guests of the club, and the addresses of the evening were eloquent and each speaker paid a glowing tribute to the work already accomplished. Members of the clergy throughout the city and men well known in public life, including several of Newton's officials were the guests of the association.

At the head table were Rev. Fr. John F. Keleher, pastor of St. Bernard's church, the spiritual director of the club; Hon. Frederick W. Mansfield, State Treasurer; Hon. James M. Curley, Mayor of Boston; Rev. John J. Ryan, P. R., of St. Paul's church, Cambridge; Mayor Edwin O. Childs of Newton; James F. Condren, president of the club; James F. Lynn, a director, and James A. Waters, the toastmaster.

State Treasurer Mansfield, the first speaker, told of the necessity of clubs of this sort in fighting some of the present socialistic organizations which are making an effort to run the country into ruin. He paid particular attention to the growth of Socialism. Mayor Curley's address kept the large audiences deeply interested for 20 minutes. On its completion he was given applause that did not subside for several minutes. Fr. Ryan responded to the toast, "To the Church," and James F. Lynn to toast, "To the Club."

Mayor Edwin O. Childs was also given a hearty welcome, and he, too, spoke on the need of such organizations. Fr. Keleher reviewed the record made by the club during its six years of existence and said he was more than ready to assist in enlarging its possibilities. The president, James R. Condren, gave the welcome address and the toastmaster presided in an able manner.

Previous to the banquet the guests were given a reception and there was music and singing.

THE DANCING AT BRAE-BURN

A social event of more than ordinary note will be a The Dancant, which will be given on Saturday afternoon, December 5th from 4 until 6, at the Brae-Burn Country Club, for the benefit of the West Newton Day Nursery. An attractive program is being prepared which will include exhibitions of fancy dancing by some well known dancers. Small tables will be arranged in the sun parlor at which refreshments, consisting of tea, sandwiches, cake and ices will be served.

Owing to lack of space the number of tickets will be limited, and may be obtained from members of the finance committee of the Day Nursery and at the Club. The Committee of arrangements are Mrs. Harry L. Ayer and Mrs. Harry L. Burrage.

The finance committee includes, Mrs. George H. Frost, chairman; Mrs. Harry L. Ayer, Mrs. Harry L. Burrage, Mrs. John W. Carter, Mrs. James Rich, Mrs. W. B. H. Dowse, Mrs. Swan Hill, Mrs. A. M. Langley, Mrs. Lawrence Mayo, Mrs. H. A. Robbins, Mrs. T. S. Sawyer, Mrs. R. W. Williamson, and Mrs. Daniel G. Wing.

DEFEATS ARLINGTON

Newton High defeated Arlington High, 22 to 0, on Clavin Field Wednesday afternoon. In the third period, after the kickoff, Arlington High, with the ball on its one-yard line, sent Cousens back for a kick. The pass was caught late and the Newton for-warders rushed upon him for a safety. A few minutes later Arlington fumbled on its 25-yard line and Dorney of Newton recovered it and scored a touchdown. The second touchdown came on a forward pass from Wellman to Harris, who ran 55 yards. The final touchdown was made on a forward pass. Wellman to Bryson, who ran to the one-yard line and Hughes went over on the next play.

RED CROSS AUXILIARY

The Red Cross Auxiliary of Newton will hold its first regular weekly meeting on Friday, December 4 in the parlors of Channing church from 10 A. M. to 5 P. M. The ladies of Newton are urged to come in at any time and sew as long as they find convenient. Contributions to purchase materials should be sent to Miss Lathé. The officers of the Auxiliary are Miss Sally Cutler, chairman, Miss Martha Lathé, treasurer, Miss Helen Gustin, secretary, Mrs. V. B. Sweet, Mrs. E. O. Childs, Jr., Mrs. William H. Capen, and Mrs. James Odell, executive committee.

CALLEY, At Newtonville, Nov. 14, Adelia A. Calley, widow of the late Henry S. Calley, aged 77 yrs., 4 mos., 16 days.

DANIELS—At Newtonville, Nov. 12, Pliny A. Daniels, aged 74 yrs., 5 mos., 12 days.

If you work for a man, in Heaven's name, work for him. If he pays wages that supply you your bread and butter, think well of him, stand by him, and stand by the institution he represents. I think if I worked for a man, I would work for him. I would not work for him part of his time, but all of his time. I would give an undivided service or none.

If put to a pinch, an ounce of loyalty is worth a pound of cleverness. If you must vilify, condemn and eternally disparage, why, resign your position; and, when you are outside, damn to your heart's content. But, I pray you, so long as you are a part of an institution, do not condemn it. Not that you will injure the institution—not that; but when you disparage the concern of which you are a part, you disparage yourself.

And don't forget—"I forgot" won't do in business.

—Elbert Hubbard.

WOMEN'S CLUBS

MISS GRACE M. BURT, Editor.

Never within the last half-century have times been more troublous and everywhere human sympathy is going out to suffering humanity. The mind can scarcely comprehend the terrible situation on the other side of the water and it is no wonder that the women everywhere are aroused to do something to mitigate the suffering. But let us also not forget that times are hard here and are likely to be worse before they are better and that we shall have many to take care of right at home. That the clubs as well as the churches are taking up the work for the Red Cross and the Belgians is right and good, so long as our own people are not neglected. And in all our doing let us be very sure that our service is serviceable.

Local Announcements

The next meeting of the Newton Highlands Shakespeare Club will be held on Saturday, Nov. 21, with Mrs. E. J. Smith, 19 Hyde street. The work for the afternoon will be a review of "The Winter's Tale."

On Monday afternoon the Newton Highlands C. L. S. C. will meet with Miss Webster of Chester street.

On Nov. 23 the Newton Highlands Monday Club will meet at the home of Mrs. A. H. Armstrong of Bradford road.

The Current Events class of the Newtonville Woman's Guild will hold its first meeting of the season on Tuesday morning, Nov. 24. Mrs. Lella C. Pennock will conduct the course again this year.

The Auburndale Woman's Club offers an attractive program for its meeting Tuesday in the Methodist Parish House. Mrs. George Lawrence Parker, who has lived in St. Petersburg, will give "Reminiscences of Life in Russia."

There will be no meeting of the Social Science Club on Wednesday morning on account of Thanksgiving.

On Friday, Nov. 27, the Current Events class of the Brighthelmstone Club will meet with Mrs. Mabel S. Crawford as leader.

At the meeting of the West Newton Women's Educational Club next Friday afternoon Mr. Havrah Hubbard will lecture upon "The Jewels of the Madonna." The club is planning for a sale to be held in the Players' Small Hall on Friday, December 4. In addition to the usual fancy articles there will be a chafing-dish supper and a general social time, which the club counts as much value as the financial return.

Local Happenings

The regular meeting of the West Newton Women's Educational Club was held on Friday, Nov. 13, with Mrs. George W. St. Amant, the president, presiding. Reports were given of the State Federation meeting at Norwood and of the Newton Federation meeting.

The program was in charge of the Home Economics committee, Mrs. Harry Wells, chairman. Mrs. Harriet L. B. Darling of Brookline, a graduate of Simmons College and a member of the Home Economics department of the State Federation, gave a demonstration lecture, "Serving of an Imaginary Luncheon and Dinner." At any time during the serving the members were requested to ask for information and many helpful points were brought out in this way.

On Monday afternoon the C. L. S. C. of Newton Highlands held a Current Events day at the home of Mrs. Sanford Thompson. Mrs. W. S. Richards was in charge of the program and among the matters treated may be mentioned her resume of the European war, taking up the events which led to it and touching upon the events so far. She told of the political awakening which has been taking place in China, and gave some account of the Federal Reserve Banks.

The Newton Highlands Monday Club held its meeting this week at the home of Mrs. W. M. Mick, when the study of South America was continued. Mrs. Frank Frost told of Patagonia, Mrs. A. H. Armstrong of Paraguay and Mrs. J. G. Holt of Uruguay. A social hour with light refreshments closed an interesting afternoon.

The Auburndale Review Club met on Tuesday morning at Stirling Hall and was fortunate in having as a lecturer, Rev. A. W. Birks of Natick, who spoke on "Old Deerfield and her Arts and Crafts." Having lived in the town off and on for twelve years he was well fitted to speak upon the subject. The population of Deerfield, he said, is quite changed within recent years, being now mostly inhabited by Poles, though there are a few descendants of the old families left, some of whom ply the arts and crafts for which Deerfield has become famous. Mr. Birks displayed examples of hat-making, basketry, rug-making, netted and tufted work, woven fabrics, natural dyes and photographs. He also showed two pictures by George Fuller, the

artist, which had been purchased at a church fair in the town. What seemed most remarkable was a set of table doilies of the blue and white needlework, which had been used in his family for ten years, yet looked as if they were fresh from the hands of the embroiderer. It is a fact that no two designs in the patterns of the embroidery done in Deerfield are ever exactly alike.

Mrs. Ordway's piano solo, "The Pilgrim's Chorus," from Tannhauser added much to the pleasure of the morning.

At the meeting of the Newtonville Woman's Guild held on Tuesday afternoon Mrs. W. S. Higgins gave the report from the State Federation meeting at Norwood. Delightful music was given by Miss Gladys Avery accompanied by Mrs. H. D. Cabot. The speaker for the afternoon was Mrs. Eudora S. Utley, who gave an exceedingly interesting account of Mexico. She was full of enthusiasm over her five years' residence there and was able to give insight into the causes for the recent disturbances, having been in that country at the beginning of the war. She gives little hope for a peaceful settlement of the difficulties, for the Mexicans love to fight, and she attributes the difficulties in great part to the uneven taxation and agrarian troubles. She spoke of the detestation, which the Mexicans have for the Americans, due to the landgrabbing which has gone on there. Mrs. Utley's lecture was illustrated by many colored slides made from her own photographs and she exhibited many interesting curios.

A group of songs, delightfully sung by Miss Gladys Avery, with piano accompaniments by Mrs. Harry D. Cabot, completed a most enjoyable program.

At the close of the lecture tea was served by the charitable committee, Mrs. E. P. Hatch, chairman; Mrs. W. E. Strong, Miss Lizzie C. Allen, Mrs. Franklin Bancher and Mrs. C. R. Lynde presided over the tea table. At this meeting there was the annual exhibition of the Needlework Guild, whose members were guests for the afternoon, and nearly 900 garments were shown, which will later be distributed among the various Newton charities.

Work for the Red Cross and Belgian relief is pressing forward under the direction of the Industrial committee and much knitting and sewing is being done at the weekly all-day sewing meetings. Further contributions of money for the purchase of materials are desired.

The Flower committee asks for generous contributions for the Thanksgiving work. Flowers, fruit or money may be sent to Mrs. T. A. Hildreth on or before Nov. 23.

On Wednesday morning the Hunnewell Club hall was well filled with the members and guests of the Social Science Club to hear the English Bell Ringers. Mrs. Arthur A. Shurtleff gave some account of the development of bell-ringing in England and explained many points concerning it, after which illustration of bell-ringing was given by herself assisted by four Englishmen. Mrs. Shurtleff said that the art goes back to the early part of the 17th century. Today there are in England some 30,000 ringers and 3,000 sets of bells at their disposal. Men take it up as a recreation and the fascination of it grows as they progress in proficiency. At present bell-ringing is suspended on account of the war. In explaining the difference between English and American ringing she said that it differs in four points, in the casting, the tuning, the method of bell-hanging and the compositions executed. The casting of the bell is a very delicate matter and upon it depends its carrying power. The American bell is tuned to the piano scale, while the English is tuned to the natural scale, like the stringed instruments. In the American chime the bell is hung rigid mouth down.

In the casting, the tuning, the method of bell-hanging and the compositions executed. The casting of the bell is a very delicate matter and upon it depends its carrying power. The American bell is tuned to the piano scale, while the English is tuned to the natural scale, like the stringed instruments. In the American chime the bell is hung rigid mouth down. The hammer, when moving, which the English bell makes a complete revolution and is rung by means of a rope. This is a very difficult matter as many of the bells are very heavy. The tenor bell at St. Paul's Cathedral in London weighs 6300 pounds. The playing of tunes is out of the question on these bells, since every bell is rung by a separate man. The compositions are based upon the mathematical problem of the different possible orders of ringing the bells. Thus with three bells there are six possible combinations and at the end of each, it is common to sound a fourth, the tenor bell. With seven bells the possible combinations are 5040 and the going through with these constitutes a peal. The difficulty of bell-ringing is understood when it is known that the ringers must keep in mind all these possible combinations and know when to come in at the proper time, added to this the great weight must be taken into account.

There are several sets of these bells in this country, in the Old North Church at Gran School, in the Memorial Tower at Hingham, but the best set is in the tower of the Perkins Institution at Watertown. The speaker deprecated the objection which has come to the Institution when the bells have been rung and hopes that in time it will be overcome and that they may have the opportunity of hearing them properly rung.

At the close of her paper many illustrations were given by the ringers upon hand bells which were much enjoyed by all who heard them.

The last meeting of the Newton Highlands Shakespeare Club was held at the home of Mrs. W. M. Mick. The study of "The Winter's Tale" was continued on page 7)

SUFFRAGE RALLY

Mr. Ignatius McNulty Speaks At Dennison Hall, Newtonville

Considering the unusual number of other activities which were held throughout this city on Wednesday night, there was an extremely enthusiastic gathering of both men and women at the Suffrage Rally in Dennison Hall, Newtonville. The local suffrage enthusiasts were indeed fortunate in securing Ignatius McNulty, president of the Boston Building Trades Council as the speaker of the evening, and his address which lasted nearly an hour was highly interesting, dealing principally with the progress made by women in the industrial world.

Mayor Edwin O. Childs presided over the meeting and in his introductory remarks stated that he was in favor of extending suffrage to women which, he thought, was surely coming. Continuing, he said, "As you all know the women at the present time are allowed the ballot in electing members of the School Committee, which is very important, but the right should, and will be extended to cover all municipal and state officers."

"The suffrage question is winning favor everyday and it will be only the matter of a short space of time when the right will be extended," continued the Mayor. The principal speaker of the evening, Mr. McNulty, spoke on the fitness of women in industrial circles, their achievements, well known in history and how present conditions could be improved upon their receiving the ballot.

"The attitude of the organizers of labor," the speaker continued, "was in favor of the vote being extended to the women, and that already a State branch bill has been presented to the legislature and every trade member in that body instructed to lend his support in carrying the measure."

He further stated that in every industry, woman is competing with man with equal success, further bearing out his arguments by the fact that of the 303 trades in the State at the present time, women hold positions in all but 8. Conditions, such as exist at the present time, namely the child labor and the White Slave evil, the speaker thought, would be abated if the right to vote was awarded to the women, but it cannot be brought about as the women of today are politically powerless.

"Take the conditions in skilled labor today for example. It would have been an impossibility for the working scale to be dropped from 50 hours and up, as it was in the past, to 40 hours per week for the laborer, if the men did not have the vote in electing its legislature and the working hours of women and children will not be changed until the vote is awarded to the women. Political organizations among the women only will bring about their demands, such as gained by the men.

One argument which the speaker dwelt upon for some time was the positions of trust held by women of today. "Our children," he stated, "are placed in the hands of women to educate at the most important part of their lives, yet they are not allowed to have any say whatever in the laws that shall govern those future citizens."

Mr. McNulty also told of the success of the women of Colorado, where suffrage has been accepted, during the recent strike among the miners, during which many lives were lost. This strike would never have been settled unless 800 women voters camped on the grounds of the State House and refused to allow the Governor to leave until he had wired to Washington for federal troops to preserve order.

The country was formed on equality, the speaker continued, but at the present time women are not equal with the men in the question of voting. He spoke of the strides taken by the women of New Zealand, who have the ballot and on the excellent conditions which are now found in that land, where the pay of women in industrial lines is on an equal with the wages paid to the men.

The speaker did not believe that the political machine of Massachusetts wants to lose its control through suffrage and that also the "rum" element controls the State, and they too, do not want the ballot extended to women, knowing too well that their interest would suffer.

Although the speaker did not approve of the militancy of the English suffragists, he stated that much credit was due them in breaking up the prison system, which was, he stated, the most severe, in the world. During the years past, he continued, the system was unable to be broken by the men.

Mrs. Glendower Evans of Boston, who was scheduled to speak was unable to be present as she was detained in Georgia.

NEWTON EQUAL SUFFRAGE LEAGUE

The Newton Equal Suffrage League with the Wellesley Equal Suffrage League will hold a public meeting on Friday evening, November 27th, at eight o'clock in Early Hall, Newton Lower Falls. The speakers will be Mr. and Mrs. Stuart Chase and Miss Minnie Ryan. The public is cordially invited.

At the opening meeting of the season the president, Mrs. Alice Henry Clifford extended a word of welcome to the members and guests, then introduced the speakers of the afternoon. Rev. and Mrs. William Brewster Humphry, president and secretary of The American Indian League of New York City. They gave a most interesting talk on "Indian Life and Customs." Rev. Humphry sang many of the native Indian songs, and Mrs. Humphry in a very instructive manner told the wonderful story of how the Indian women weave into their baskets their inmost thoughts and life. This meeting was a rare treat to all present. The League is doing a grand work for the uplift of the Indians, educationally, physically, and morally.

Grump Defined.
 Somebody wants to know what a grump is. A grump is a male who does not read the sporting news.

WOMEN'S CLUBS

(Continued from Page 6)

—The third meeting of the Travel Class of the West Newton Women's Educational Club was held on Wednesday at the home of Mrs. H. B. Gibbs, on Waltham street. In the absence of Mrs. St. Amant, her carefully prepared paper on "Prehistoric Egypt and Dynasties I and II," was read by Mrs. Robinson. Mrs. Early continued the subject taking up the next three dynasties and Mrs. Jordan told most interestingly of the "Decline of the North Kingdom and the Rise of Thebes." Mention was made of the three society ladies of Abydos, Egypt, who have just arrived at the University of Pennsylvania. Prof. Pietrie sent those beautifully carved ivory figures, which came from the tombs whose date is sufficiently definite to rank them among the oldest relics of antiquity. It was interesting to note that in the matter of skirts, clinging about the ankles with tunics flaring from the hips, the pendulum of fashion has swung back as far as 550 B. C.

The Waban Woman's Club held its second meeting on Monday in Waban Hall with the President, Mrs. George M. Ansley, in the chair. A business meeting was followed by an illustrated lecture on "The Treasures of the Art Museum" by Mr. Morris Carter. The slides were most ably shown by Mrs. Pietro Isola. Mr. Carter awakened interest at once by stating that the greatest treasure of the Art Museum is the esteem and affection of the public. It is supported by popular subscription and private funds. The state legislature has not taken steps as yet to tax the city for the benefit of the museum.

The most famous collection is the Japanese collection which is unequalled outside Japan. The Classical and Egyptian collections are very important ones. That Egyptian art is direct, simple, and truthful was shown in examples of original sculpture from the Old and Middle Empires. The earliest forms of art being always most interesting. Mr. Carter next took up the art of Greece, showing the most important piece of Greek sculpture in the museum, the original bas relief "Fros weighing the souls." The most important of the ancient Greek original of "Hercules." The only signed cameo, "The Wedding of Cupid and Psyche" is from the Duke of Marlborough's collection. The most important portraits shown were Crevelin's "La Piepa," Velasquez's "Philip the Fourth," "The Copely Family" by Copely, the well-known Washington by Stuart, Copley's portrait of John Quincy Adams and the new Fra Angelico purchased last year—Turner's "Harvester's Rest" was shown, also Sully's "The Torn Hat," Whistler's "Little Girl," and the masterful Sargent Watercolors. A most appropriate slide closed the lecture. "The Appeal to the Great Spirit," by Dallin.

—The annual meeting of the Newton Centre Woman's Club listened to a talk on "Folk Dancing" by Mrs. James J. Storrow after which refreshments were served.

The Brighelmstone Club held its second November meeting on Monday afternoon in the club house, at Allston. The business session was conducted by the president, Mrs. William Henry Mitchell. Mrs. Eastman read an interesting report of the Autumn meeting of the State Federation held in Norwood.

At the close of the usual business session, Mrs. Carrie M. Tisdale, chairman of the Civics committee, introduced Mrs. Robert A. Woods of the South End House, who spoke on "Settlement Work."

Mrs. Woods chose a text for the theme of her discourse, the application of which would be "The Golden Rule." This she believes should predominate our own self-interests, particularly in our own community. Settlement work is not new. It is twenty-five years old and each one is doing his share of the work when he renders service to his fellowman.

Miss Crystal Waters rendered a group of songs accompanied on the piano by Miss Wilhelmina Keniston.

Among the specially invited guests were Mrs. George W. Perkins, president of the "Massachusetts State Federation of Women's Clubs"; Mrs. Frank L. Young, president of the "City Federation of Women's Clubs"; Mrs. James J. Storrow, president of the "Women's City Club"; and Mrs. Henry C. Mulligan, ex-president of the "Massachusetts State Federation of Women's Clubs."

THE BREACH OF PROMISE CASE

The Mock Court Trial to be given under the auspices of Tennyson Rebekah Lodge 119, I. O. O. F., in Odd Fellows Hall, on Monday evening, November 23rd, promises to be an event of unusual interest. Judging from newspaper reports of similar entertainments conducted by the press, it would seem to be one of the most amusing things now offered for public patronage.

It will be, in the first place, an exact reproduction of a court scene in methods and procedure and on this account will be extremely interesting to ladies and others who have never attended a real trial.

Best of all will be the refined fun of the whole affair. With Hon. E. O. Childs presiding over the court, Mrs. Ella E. Mason appearing as the broken-hearted plaintiff, Harvey C. Wood as the defendant, Col. A. V. Newton of Worcester, prosecuting the case, and Reuben Forknall, Esq. defending the accused to say nothing of the brilliant array of court officers, witnesses and jurors, it is pretty certain we shall have all the comedy and reality of a court scene and enough wholesome fun to last a whole year.

Indeed it is predicted by those in position to know, that from the opening of the court until the close of the case, the audience will be kept keyed up to the point of convulsions by the unique proceedings.

Wit, pathos, eloquence, laughable local hits and vagaries will be drawn upon without stint to keep up the current of merriment.

As an entertainment of innocent fun, conducted with mock dignity and without the shade of offense to the brilliant tastes, the Mock Court Trial will be as mentioned above, an event of unusual interest.

The following are the rest of the participants:

Clerk, F. W. Sprague, Esq.; Court Officer, M. C. Laffey; Witnesses, Dr. F. M. Lowe, Charles M. Potter, Mrs. Mary E. Manter, Mrs. Margaret Carley, Eugene A. Wilson, R. A. Farmer, A. W. Reed, W. Wood, Jurors, M. E. Bacon, J. H. Manter, H. K. Buck, J. C. Skelton, A. T. Harrington, F. W. Woolway, W. C. Newell, M. C. Rich, L. B. Berry.

BROKEN GLASS
Many of the streets of Newton are strewn with broken glass; many of the sidewalks are covered with patches of chipped glass. All of the glass is from broken milk bottles abandoned by the delivery boys of milkmen serving customers in our city. It is the custom of some of the milkmen to choose certain points in their routes where their crates of empty bottles may be collected. These points are generally near street corners. The delivery boys, having collected the empties from the houses, stack them in the crates piled beside trees or against fences, throwing out such bottles as are not marked with their own farm's name. These cast off bottles are promptly smashed in a heap which, in a few hours, are scuffed about on the sidewalks and into the roads. The broken glass is a menace to horses' hoofs and to automobile tires in the streets, and to the feet of passersby on the sidewalks, shoes and slippers being cut beyond repair.

The broken glass is not only strewn about on streets and sidewalks, but also in gardens and vacant lots, being thrown there by the milkmen or the boys. Such thoughtlessness and carelessness should come under city ordinance and a heavy fine should be imposed upon every offender.

AMERICA

Original Manuscript Presented To Harvard University

The original manuscript of "America" ("My Country, 'Tis of Thee") has been presented to the Harvard College Library by the surviving children of its author, Rev. Dr. Samuel Francis Smith, who graduated from Harvard in 1829.

All negotiations for the presentation to Harvard of the document were carried on by Dr. Smith's son, Rev. Dr. Daniel A. W. Smith, president of the Karen Theological Seminary at Insein, Burma, who is now in this country on furlough. Dr. Smith's note to Pres. A. Lawrence Lowell, tendering the gift of the manuscript, follows:

"It is the wish of the children of the late Samuel Francis Smith, of the class of '29, to deposit in the archives of the university the original manuscript of the hymn, 'My Country, 'Tis of Thee.' They do this in recognition of the affectionate loyalty of their father to his alma mater, which is also the alma mater of one of his sons (D. A. W. Smith of the class of '59), and of one of his grandsons, James Ferdinand Morton, Jr., '92."

In accepting the gift Pres. Lowell wrote Dr. Smith as follows:

"Samuel Francis Smith was one of the many men who made the class of '29 the most famous in the history of the college."

Among Dr. Smith's classmates were Oliver Wendell Holmes, James Freeman Clarke, William Henry Channing, Samuel May and Benjamin Peirce.

W. C. Lane, the Harvard librarian, in writing to Dr. Smith concerning the gift of the manuscript of "America," said in part: "The first draft of 'America' is certainly one of the most precious bits of original manuscript which any American library could desire to own, for its words are on everybody's tongue throughout the country, and it thus occupies an altogether unique place in American literature and American life. It will be carefully preserved in the Harvard Library and when we get into our new building it will be made accessible for visitors to see."

"America" was written on scrap paper on the back of what appears to have been an ode to spring. The original manuscript differs in several instances from the present accepted version of the hymn.

Inscribed in the flowing hand of Dr. Smith, the poem is an eloquent demonstration of the workings of poetical genius. For the first two verses the poem ran along with uninterrupted speed. Then the writer seemed to stop and study out his course. From the start of the third verse to the end are contained the various differences from the present version.

In the third verse Dr. Smith's original writing gives a very different sequence of lines. This correction was made by the author in his original manuscript, the intended sequence being indicated by numerals written in the margin.

The final line of the third verse first read "The sacred song" and was changed to "The sound partake" by Dr. Smith. It has since been changed to read "Their sound prolong."

Another instance wherein the present version is quite different from that originally produced by Dr. Smith is in the closing line of the hymn. While Dr. Smith wrote it "Our God, our King," today the hymn throughout the land is sung "Great God our King."

"America" was written in 1832, when its author was a student at the Andover Theological Seminary in Andover, Mass. In 1842 Dr. Smith became pastor of the First Baptist Church in Newton Centre and editor of the Christian Review. For the remainder of his life he resided in the "Old Homestead" on Centre street, Newton Centre.

In addition to Dr. Daniel A. W. Smith, the surviving children of the author of "America" are Ewing U. Smith of California; Mrs. Caroline E. Morton of Andover, N. H., and Mrs. John D. Candee of Bridgeport, Conn.

McKINNEY-GILMORE

The wedding of Miss Rachel Gilmore, the daughter of Mr. and Mrs. William Gilmore of Crofton road, Waban and Mr. Guy Boutwell McKinney of Boston, took place last Saturday afternoon at the Union church in Waban, which was attractively decorated in Southern smilax, white roses and palms in honor of the event.

The ceremony, which took place at four o'clock, was performed by the pastor, Rev. Charles H. Cutler, D. D. The bride was gown in ivory satin, real lace and orange blossoms and wore the conventional veil. She was accompanied by Miss Margaret Sage of Hartford, Conn., as maid of honor wearing pale pink with silk net overskirt, silver girdle and large black hat from which a white veil fell to the bottom of the dress. The bridesmaids, the Misses Rosalie Gowing of New York and Dorothy Robbins of Hartford, were gown in similar style, their dresses being flesh color instead of pink.

Mr. William Kimball of Boston was the best man and the ushers were Messrs. Clarence C. Miller of Winchester, Clifford R. Eddy of West Newton, Robert S. Burgen and Ross H. Rollins of Boston, Howard Gilmore of Westboro and Harry W. Walker of Woburn.

A largely attended reception followed at the Gilmore home on Crofton road, Mr. and Mrs. McKinney being assisted in receiving their friends by Mr. and Mrs. Gilmore and Mrs. Albert E. McKinney.

Mr. and Mrs. McKinney will reside at 6 Clafin road, Brookline, where they will be at home after February first.

Next week sees Castle Square the home of rollicking farce, with "Too Much Johnson" as the bill. "Too Much Johnson" has been variously described as "A Hurricane of Hilarity" and a "Landslide of Laughter." Or, what amounts to about the same thing, and describes it best, "The World's Funniest Play." A husband, one Billings, who likes to shake a loose leg now and again, tells his home staying wife that he has a plantation in Cuba which requires periodical visits. The wife comes across him in New York and decides that she would like to see the plantation for herself. On their arrival at the tropics Billings finds to his dismay that it is no longer owned by his friend Johnson in whom he trusted to pull him out of the mess, but by quite another Johnson, a terrible character, with a long whip and a short temper. Billings' efforts to lie himself out of a tight place give rise to bewildering complications and roars of laughter reign throughout.

SOME BONA FIDE ARGUMENTS AGAINST EQUAL SUFFRAGE

(Gems of thought gleaned in one week of organization work.)

A business woman: "I happen to know no business woman interested in equal suffrage. They seem to be all home women with husbands to support them."

The home woman: "I think suffrage would disrupt the home. Only women outside the home seem interested in it."

Business man from Chicago: "Woman suffrage is all right, if only women wouldn't close up all the saloons."

Fair anti-suffragist at Food Fair: "Suffrage does not bring about prohibition. Kansas is the only state that has both suffrage and prohibition, and it had prohibition before suffrage."

Elderly churchman: "I greatly fear women with their intense natures would become too deeply interested in politics."

Civil Engineer: "I'm simply not interested in the subject. I'd just as soon give my vote up. Women won't take any interest in politics."

Suburban Maiden school-teacher: "Oh, I suppose suffrage is coming, but why not put on pants and be done with it?"

D. A. R. (ter): "The ballot would be all right in your hands and mine, but think of the ignorant woman."

Mill Girl: "Yes'm, I'd be in favor of suffrage if it wasn't for those snobbish women, who have nothin' to do but spend their husbands' money. What do they know about real conditions?"

Elderly gentlemen: "None of my folks are interested in it."

College Youth: "Women never have voted."

Legislator (representative): "My wife isn't interested in suffrage. I shall always vote against it." (And he does.)

Casual passer-by: "I don't know anything about it, but I'm opposed to it."

Male prohibitionist: "No, I don't favor suffrage. Why, some women voted for Bath House John. They didn't all vote for the Jane Addams crowd."

Sweet young thing: "No siree, I'm not a suffragette. Why, our maid marched in the suffrage parade!"

Ardent Anti to Ardent Pro: "Yes, I suppose suffrage is coming. I hope you'll be satisfied when you get the right to shovel coal."

Puzzle: Pick out one good one. C. E. B.

WALTHAM FOOTBALL MATCH

A special meeting of the School Committee was held on Monday, November 9, 1914, at 4 P. M., at which all members except Mr. Nutter were present. The meeting was called for the purpose of considering a petition from Mr. J. C. Brimblecom, that the Committee take action prohibiting the playing of the football game on Thanksgiving Day between the Newton and Waltham high schools; and that the school authorities be instructed to discontinue all athletic relations with the Waltham school for one or two years. At this meeting Mayor Childs, Principal Adams, Athletic Adviser Messers, Coach Dickinson, Physical Director Martin, and Mr. Brimblecom were present and spoke in regard to the matter.

Upon consideration, it seemed to the Committee that a large part of the trouble which occurred last year, and which was the occasion of the petition from Mr. Brimblecom, was the result of improper supervision of the game and insufficient police protection in connection with the unfortunate blockading of the cars carrying the people from the game. Upon assurance from those having the matter in charge that special care has been taken in securing officials for the coming game, and that proper police protection will be given, coupled with the fact that the game is to be played in the forenoon and inasmuch as the schedule has already been made up and the game advertised, it seemed in the opinion of the Committee that no action should be taken toward prohibiting the playing of the game, and the Committee so voted. It seemed, however, wise to request those having the athletic matters of the high schools in charge to give all proper directions and urge upon the players and students in general, through the faculty of the different schools, the need of gentlemanly and proper deportment not only in playing the game but in going to and coming from the game.

So far as the request of the petitioner that athletic relations with the Waltham school be discontinued is concerned, it seemed to the Committee that they would not be justified for the present in taking any action with this end in view, but that all athletic contests should be closely supervised in the immediate future by the proper authorities with a view to determine whether any action along these lines will be desirable or necessary.

EXPERIENCES IN BELGIUM

Letters From A Newton Young Man Engaged In Relief Work Abroad

Mr. Edward S. Curtis of Chestnut Hill, who is taking a post graduate at Cambridge University in England, spent his recent long vacation in London working with the American Relief Committee in assisting American tourists to get home. On returning to college he found less than half the usual classes and went back to London where he offered to assist the American Committee for the Relief of the Belgians and the following letter relates some of his experiences in that work.

Maas Hotel, Rotterdam.
Thursday, Nov. 5, 1914.

We left London just a week ago this morning and embarked at Folkestone about 10. The trip to Flushing was uneventful. We were held up once by a British scout patrol and we saw several war-craft but no mines. At 6 we reached Flushing, grabbed some cats and entered the train for Rotterdam. Of course as it was dark we could see nothing of the country. I stuck my head out of the window and had a good smell; 'twas raining and the smell was very similar to what it would be in America under similar conditions. At 11:00 we reached this place and slid to bed "de bonne heure."

Next morning we reported to our "boss". We had an interview with several excited burgo-masters from Belgium, all trying to get food for their communities. In the P. M. I called on the German Consul and received the necessary papers to allow me to get to Brussels. My first mission was to carry dispatches to the American Minister at that place. There are no train or telegraph communications between Rotterdam and Brussels.

Saturday at 10:00 three Belgians and I started by motor for Brussels via Dordrecht, Rosendahl, Antwerp, Malines, etc. At the border

we met our first German soldiers and had to produce our passports, etc. As a rule the soldiers are very civil and show special courtesy to U. S. passports. From the border on we had to show our papers continually. We passed through Antwerp at dusk. On the north side there are very little indications of any fighting, but on the south side in the outskirts of the city there are many indications of the fierce fighting that took place there. Houses burned and torn down for firing of guns and by firing of guns, barbed wire entanglements, spiked ground, trenches, uprooted and shattered trees, etc., etc. At Malines, of course, we saw the Cathedral that was the mark of the German guns. That town is all "shot to hell".

About 7:00 we arrived at Brussels. I called at the Minister's at once and delivered by dispatches and then went to my hotel and to bed. Next day, Sunday, I had a couple of hours at my disposal so I wandered around the city. By far the greater portion of the private dwellings are closed (shutters up, etc.) there were comparatively few people in the streets. Of motor cars there are none (except German army cars). The Germans have grabbed all the gasoline so that private cars cannot run. In my wandering I looked specially for food stuffs and signs thereof. There seemed to be plenty of meat, sausages, cheese and fruit, but breadstuffs are badly wanted. Even in hotels the best you can get is very coarse, brown and of inferior quality. The conditions in Charleroi, Louvain, Dinant, etc., are extremely serious and bread riots were feared. I say "were feared" because we hope that our first shipment of grain, which got off Sunday will prevent such riots. In Brussels all ordinary communications with the outside world are cut off. There are no newspapers. The German author-

CABARET SHOW

Mens Club of St. Johns Church Entertain Their Friends

The Mens Club of St. John's Church gave a most enjoyable Pop Concert and Cabaret Show in Temple hall, Newtonville, on Monday evening with a fairly large attendance. Light refreshments were served at the many tables grouped around the hall by a bevy of young ladies wearing carnival hats representing birds of various kinds. The children assisted in the work of raising funds for the new parish house by selling candy and fancy paper hats, some of which were most becoming to the gentlemen who wore them and some of which were not.

The concert consisted of singing by a chorus of the Mens Club under the direction of Mr. H. M. Walton, some fine singing by Miss Gladys Avery in Irish costume and by Miss Helen I. Cram in gypsy costume, which received well deserved encores, a clever monologue by Mr. Henry C. Shaw whose wit was keen and delicate, an exhibition of fancy dancing by Miss Alice Fessenden assisted by Mr. Hubert Ripley, which was most gracefully executed, and a black faced sketch by Messrs. Summer and Chapman which was both original and good. Dancing followed until midnight. The affair was in charge of Messrs. John H. Ed. James P. Richardson and Cheney L. Hatch.

RED CROSS AUXILIARY

The Red Cross Auxiliary of Newton will hold its first regular weekly meeting on Friday, December 4 in the parlors of Channing church from 10 A.M. to 5 P.M. The ladies of Newton are urged to come in at any time and sew as long as they find convenient. Contributions to purchase materials should be sent to Miss Lathe, Vernon Court. The officers of the Auxiliary are Miss Sally Cutler, chairman, Miss Martha Lathe, treasurer, Miss Helen Gustin, secretary, Mrs. V. B. Swett, Mrs. E. O. Childs, Jr., Mrs. William H. Capen, and Mrs. James Odell, executive committee.

FORESTRY ASSOCIATION

Efforts Being Made To Organize A Local Branch

The Massachusetts Forestry Association is making plans for the organization of a local branch of the association here in Newton, and Alfred MacDonald, the field secretary, will be in the city for the next two weeks in an endeavor to arouse interest in this work.

The first meeting will be held at the Newton Clubhouse, Newtonville, on Tuesday, December 1st, and all interested are invited to attend.

The Massachusetts Forestry Association was started in this state in 1898 for the purpose of protecting the trees and forests of the state and promoting the planting of more. It has been largely responsible for the Tree Warden Law, the establishment of the State Forestry Department, the erection of forest fire lookouts, the Fire Warden Law, and for state appropriations for moth work.

This year the organization was instrumental in having a bill passed by the legislature providing for the appropriation by the state of \$80,000 for the reforestation of waste and wild lands for a system of state forests; a more equitable method of taring forest land was secured through its efforts; and as the result of its tree planting contest last Spring thousands of shade trees were planted in towns and cities.

To encourage cities and towns in the reforestation of watersheds and the establishment of town forests, the association will report 50 acres of land belonging to the city or town which starts the best town forest before next June.

The association has approximately 4000 members, and in order to arouse interest in the reforestation of waste and wild lands, and to secure the more extensive planting and better care of shade trees, 26 local branches consisting of members of the main association have been formed in cities and towns. The local organizations are

OLD SHOES WANTED

The poor children of Newton need your cast-off shoes. Wouldn't it increase your happiness at this year's Thanksgiving time, to bundle up your worn shoes and send them to the Charity Department at City Hall? If you cannot conveniently do this, notify the office by telephone or mail and they will be called for.

The above cut represents the exact condition of three pairs of shoes taken from the feet of three children, all from one family, when they came into the Charity Dept. offices one cold wet day last winter.

MR. REES WITHDRAWS

To the Citizens of Newton:
Having received the Progressive Nomination for Alderman-at-Large from Ward 1, it would be inconsistent for me to continue my candidacy without independent papers, as the Progressive party of Newton made a ruling at the time they organized not to encourage out-and-out candidates for city office, wishing to use their endorsement simply as a balance of power for good government. Believing an independent ticket would be out of place at this time, I withdraw in favor of my opponent, Mr. Forknall and take this opportunity to thank those who have so kindly championed my cause.

CHARLES E. REES.

EDITORIAL

The latest interpretation of its recent decision by the Public Service Commission in increasing fares on the Middlesex and Boston Street Railway Company, to the effect that the strip tickets cannot be used for transfers onto lines which were originally paying six cent fares, affects but one of two routes in the city, those across town to Newton Highlands, Upper Falls and the Centre. If the Public Service Commission issues many more decisions and interpretations of its decisions, the travelling public will need a guide book to know what to do and what to pay.

Numerous protests have reached this office on account of the delays and troubles incident to reaching Cambridge under the present method of transfer at the Watertown car barn. Travellers not only have to endure the bother of making a transfer from one car to another but are usually compelled to wait in most inconvenient and oftentimes disagreeable quarters. The Elevated Railway should take immediate steps to remedy this condition, even going so far as to start their Cambridge line of cars from the Oak Square station.

It is interesting to note that in the list of candidates for admission to Harvard college whose names have been placed in the honor list, the Country Day school, with 6 on that list out of 15 entered and the Newton High school with 3 on the list out of 9 entered, stand at the head of all the preparatory schools, this city therefore having 9 out of 37 entries.

The semi-somnolent Newton Improvement Society ought to get busy and attempt to secure sufficient funds to purchase the present vacant land on Charlesbank road and the Charles river for public purposes before the present building development in that neighborhood reaches this particular district.

Mr. Rees has acted wisely in declining to run as an independent candidate for alderman at large against Alderman Forknall.

SERIOUS ACCIDENT

An automobile owned and operated by Napoleon Aylwin of Chandler place, Newton Upper Falls, ran into a tree at Needham Heights yesterday afternoon about one o'clock and as a result, Louis Aylwin of Peabody died this morning at the Newton Hospital, his eight year old son, Arthur died at that place last night, Napoleon Aylwin has a broken leg and numerous bruises and his brother Archibald Aylwin is slightly cut and hurt.

The accident occurred a short distance south of Needham Heights square. The Aylwins were going in the direction of Needham. Highland avenue at this point is a broad, macadam road with electric car tracks at one side. The wheels of the automobile caught in the tracks and, endeavoring to pull it out, the driver lost control of his machine.

Swerving violently across the road, the automobile struck a small tree on the easterly side, grazing the bark somewhat, then crashed head-on into a big elm a few feet farther on. The impact was so great that the car fairly wound itself about the tree trunk and was reduced to a mass of junk.

According to several witnesses, the automobile was traveling at a very high rate of speed when the driver lost control of it. A number of persons declare it was travelling at 40 to 45 miles an hour when it passed through Needham Heights square a few moments before the accident.

MOCK TRIAL

Never in the history of Newton have so many distinguished personages appeared in a court scene, as on Monday evening when members of Tennyson Rebekah Lodge, No. 119, I. O. O. F., entertained at a Mock Trial of a breach of promise case in Odd Fellows hall, West Newton.

The two well-known and popular persons who figured conspicuously in the case were Mrs. Ella E. Mason, matron of the Newton Police Department, who was the fair plaintiff, and Mr. Harvey C. Wood of West Newton. Mrs. Mason, who was excellent in the role of "Jerusha R. Perkins," instituted proceedings against the harmless defendant, and asked for redress said defendant having trifled with her affections most ignominiously.

The "broken-hearted plaintiff," acted her part so well that she influenced the tender hearts of the jurors, and enlisted the sympathies of such celebrities as Woodrow Wilson (M. C. Rich), William H. Taft (Leonard Berry), Theodore Roosevelt (John H. Manter), Governor Walsh (William Skelton), Admiral Dewey (Mr. Bacon), Dr. Fred Cook (Fred Woolway), Robert E. Peary (W. C. Newell), Champ Clark (Henry Buck), John L. Sullivan (Richard Farmer), and Chauncey Depew (John Skelton). His Honor, Mayor Childs, presided over the court with great dignity, and Col. A. V. Newton, of Worcester, the prosecuting attorney, presented the case most forcibly.

As the council for the defense, Mr. Reuben Forknall, was unable to be present, his place was filled most satisfactorily by Mr. Charles P. Berry, past grand master of the I. O. O. F., but his defense was so weak that it was soon broken down by the following testimony of the following witnesses: Dr. Fred M. Lowe, star witness for the plaintiff, who demonstrated that he is as much of an expert at mending broken hearts as broken bones.

Mrs. Mary E. Manter, as "Priscilla Weeks," was another clever witness whose evidence went far toward winning the case; also Mrs. Margaret Carley in the role of "Jerusha Rae Perkins," Mr. Charles Potter and Mr. F. W. Wood.

Before the trial was half over, merriment reigned supreme in the court room, but there were no fines for contempt of court. Amusing local jokes and vagaries were "sandwiched" in between the evidence which were immensely entertaining to the audience. Francis W. Sprague, Jr., clerk of the Newton Police Court and prominent lawyer, acted the part of Clerk of the Court and M. C. Laffie, Newton's probation officer, was the court officer, and they of course were the "real thing" and acted their parts to perfection.

The jury brought in a verdict of "guilty" for the defendant, and sued for the sum of \$3.48. The \$3.00 was divided among the jurors, many of whom had come long distances to serve, and the balance of 48 cents was presented to the judge in consideration of his valuable services.

As an entertainment of innocent fun conducted with mock dignity and without a shade of offence to refined tastes, the Trial was one of the most hilariously funny events ever given in West Newton and the large audience of nearly three hundred persons was most enthusiastic in showing its appreciation of the entertainment.

Members of Tennyson Lodge feel that when it comes to presenting a court scene, the Supreme Court "has nothing on them." The proceeds are for the benefit of the Lodge.

The second in the series of entertainments under the auspices of the Auburndale Village Improvement Society will be given Monday evening in Norumbega hall. The program will include cartoons, impersonations and music by the "Bellevue Entertaining Company," appropriately named in as much as it easily eclipses any other company of two artists in the unparalleled variety and excellence of their program. The company includes Miss Anne Varner Baker of Boston and Miss Charlotte Peabody.

MANNING-CALLANAN

Saturday morning, November 21, Miss Josephine G. Callanan, daughter of Mr. James F. Callanan of Colburn road, Newton Upper Falls, and Mr. George Joseph Manning of Newton Lower Falls were united in marriage at the St. Mary's church, Newton Upper Falls, at 8 A. M. by Rev. D. H. Donovan. The church was beautifully decorated with evergreen. The best man was Mr. Matthew Manning, brother of the groom and the bridesmaids were the Misses Mary and Celia Callanan, sisters of the bride. Miss Martha Callanan was the flower girl. The ushers were Messrs. John and William Callanan of Needham, Mr. John Burns, Mr. George Armistead and Mr. Lewis Gleason of Wellesley. The bride was gown in ivy white crepe de chine trimmed with chiffon and wore a veil caught up with orange blossoms. Miss Mary Callanan was dressed in pink chiffon trimmed with lace and Miss Celia Callanan in blue chiffon and wore a black lace hat. A reception was held at the home of the bride at 9 A. M. They were assisted by Miss Lillian Callanan, Miss Mildred Gleason and Miss Annie Stanton. The rooms were tastefully decorated with palms and chrysanthemums.

Mr. and Mrs. Manning left for Washington, D. C., where they will spend their honeymoon and on their return will be home January 1 at Damun road, Wellesley, Mass.

At the Ralph Waldo Emerson school Wednesday morning a very interesting program was given by the pupils to a large audience of their parents and friends. The program consisted of several small plays given by the different classes representing the spirit of Thanksgiving Day. An interesting address was given by the superintendent of Schools Mr. U. G. Wheeler. The decorations were the donations of fruit and vegetables which were contributed by the children and were distributed among the needy of the village after the exercises.

Colburn W. Freeman, formerly of this village died at Pasadena, California, November 14, of hardening of arteries. A slight paralytic stroke two weeks before hastened his death. He was 83 years of age and is survived by a widow, a widowed daughter, Mrs. Etta M. Richards, and two married grand children, Waldo G. Richards and Mrs. Vivian Whitehead. Mr. Freeman was born in this village November 10, 1831. The residence of his father, Whipple Freeman, on Summit street is still in the family. In 1875 he went to Boston to live and in 1885 to Pasadena where he resided until his death. He was married August 24, 1858 to Miss Elizabeth Needham of this village, who survives him. His remains were cremated.

HUSKING BEE

Channing Alliance held a very successful Thanksgiving food sale on Friday, Nov. 20 in the church parlors. During the afternoon and evening all sorts of good things were on hand. The rooms were most tastefully decorated with corn and pumpkins suggestive of the season, while the stage was converted into a veritable New England barn with its store of fruits and vegetables. Tea was served during the afternoon and other appropriate refreshments at the close of the evening's work.

The chorus of country lads and lasses rendered several selections of old fashioned music and were so well received that more than one encore was necessary. An Irish Jig was danced by Ruth Furlong, Caroline Fisher, Frances Stebbins and Anne Wood. The Minuet was given by Dorothy Emery, Floyd Wendell, Howard Hayward and Paul Nash. Mrs. Ralph C. Emery contributed a group of songs and Miss Ethel M. Hutchinson rendered a piano solo. Miss Hutchinson also furnished music during the afternoon. Mrs. Harry B. Stebbins assisted by Miss Katharine L. Stone played for the dances.

Following the program came the husking bee which was entered into with vim by both young and old, but previous experience counted for much and the young people found their elders carrying off the palms. Mrs. J. P. Russell took the ladies prize, Mr. H. C. Hardon, the gentlemen's and Russell Simpson, the boys'.

Those who made up the chorus were: Mrs. Ralph C. Emery, Miss Alice Emery, Miss Hattie Henry, Mrs. M. W. Haddock, Mrs. H. C. Harrington, Miss Margaret S. Ball, Mrs. J. N. Palmer, Miss Nellie Cole, Miss Kate Howard and Mrs. Belcher; Messrs. F. A. Wetherbee, Kenneth Howard, G. M. Nash, H. C. Harrington and H. P. Curtis.

Mrs. P. A. Wetherbee was in charge of the chorus and Miss Alice Emery of the dances. Mrs. H. L. Simpson was in charge of the whole arrangements, Miss Martha Lathe of the cake and pie table, Mrs. A. W. B. Huff of the pickles, preserves and jellies, Miss Georgia H. Emery and the Unity Club of the candy. Mrs. E. V. Hodson of the ice cream and soda fountain, Miss Dorothy Emmons of the Christmas cards, Miss Edith Byfield of the afternoon tea and Mrs. J. N. Palmer of the evening refreshments. A substantial sum was netted for the work of the Alliance as well as its proving a most enjoyable social occasion.

RECEPTION

Mrs. Frederick S. Blodgett of West Newton was the hostess at a large reception on Monday afternoon, in honor of her guest, Mrs. Hugh Reid Griffin of London and Paris.

About 200 guests assembled at her residence on Hillside avenue, and Mrs. Blodgett received from 4 until 6 in the reception room, which was decorated in shades of gold, with yellow chrysanthemums, palms and greenery, and lighted with open brass candelabra.

She was gowned in turquoise blue brocade in gold, with pearl collar, and was assisted in receiving by Mrs. Griffin, who wore a gown of black velvet with jet trimmings, necklace of diamonds, and corsage bouquet of orchids.

The floral decorations were most elaborate; the hall was done in crimson, with high basket vases of red chrysanthemums, and oak leaves in combination with the chrysanthemums were effectively arranged about the mantles.

A scheme of pink was carried out with most artistic effect in the dining-room, and the table decorations were very beautiful, a large gold basket filled with pink Killarney roses formed a centre-piece around which were arranged pink shaded candelabra.

Music was furnished by a string orchestra concealed in a small room adjoining the dining-room.

The ladies who poured were Mrs. Frank A. Young, president of the City Federation of Clubs; Dr. Eliza B. Cahill, president of the Professional Woman's Club; Mrs. Richard Hamlin Jones of Chestnut Hill, president of the Boston Chromatic Club; and Mrs. Charles H. Bond of Commonwealth avenue, vice-president of the D. A. R.; Mrs. William H. Safford and Mrs. Swan Hartwell of West Newton.

Among the guests from out of town were Mrs. Frederick S. Blackall, sister-in-law of Mrs. Griffin, who came over from New York especially to attend the reception; Mr. Eugene Hough of Providence; Miss Dorothy Whitman of California; Mr. and Mrs. Drown of Boston, and friends of Mrs. Griffin, who have spent most of their time in London and Paris, but are now located in Boston on account of the war conditions.

Mrs. Griffin leaves Monday for New York and will sail next week for Europe.

DEATH OF MR. COOK

Mr. James Brewster Cook, one of the best known retail piano dealers in Boston, died Friday night at his home on Chestnut street at Waban, after a week's illness, of pneumonia, following an attack of ptomaine poisoning.

Mr. Cook was born in New Haven, Conn., in 1853, and was the son of George and Phoebe S. Cook. Upon leaving school, he associated himself with his father in the organ business in his native city, and continued this connection for a number of years.

He then came to Boston and accepted a position with the Hallett & Davis Piano Company of which his father had become president. He remained with this house until 1900, when he identified himself with the retail trade, his wareroms for several years having been on the third floor of the Colonial Building.

Of a winning and genial personality, and an eminently social disposition, Mr. Cook made a host of friends. He was beloved by his neighbors, who will greatly miss his cheery greetings and friendly smile.

Mr. Cook was a member of many fraternal organizations and was especially prominent in Elk circles, being a charter member of the Brookline Lodge.

He is survived by a widow, one son, Mr. James B. Cook, Jr., of Newton, the two daughters, Miss Dorothy Frances Cook, a singer, of Newton, and Mrs. Nicholas T. McNeil of Boston.

Funeral services were held at the Church of the Sacred Heart, Newton Centre, on Monday and burial was in Holyhood Cemetery, Brookline.

CASTLE SQUARE THEATRE—There is no time during which our thoughts turn so naturally to old New England country days and ways as in the late fall, and a typically New England drama is to be the offering for next week. "A Midnight Bell" has for its plot a robbery in a small country town of which the "squire" is wrongly suspected. To save him, a young nephew takes the blame on his own shoulders, but is saved largely through the loyalty of a village school mistress whom he loves, and also by a sensational incident in which the village beffy figures. Mr. Hoyt's play is full of country atmosphere. We see the busybodies of the sewing circle, the rivals in the village choir, the merry boys and girls tobogganing and sliding. And the plot of "A Midnight Bell" is as clean and wholesome and true as the atmosphere. Miss Mary Young will play the part of Norah Fairfield, the pretty school mistress, with all the favorites of the Craig Players in support.

EXPERIENCES IN BELGIUM

(Continued from Page 1.)

ities post daily notices published in French, German and Dutch but they are mostly untrue. German officers, soldiers and motor cars are very much in evidence. On Sunday I saw a train load of wounded pass through Brussels en route for Germany.

At noon I called again at the legation and discussed matters pertaining to the Committee with Mr. Whitlock, the Minister. I also had the honor of luncheon with him and his family.

In the afternoon I walked about the town again and saw the sights. Next day I was up bright and early trying to make arrangements for a car to take me back to Rotterdam. Eventually I procured a car but no gasoline. After more "arranging" I got some of that valuable stuff. Then I learned that passes issued before October 31 were N. G.

Next I found out that whereas 'twas a very easy matter to get into Brussels, 'twas darn hard to get out. However, Mr. Whitlock took me to my chauffeur to the "War office" and presented us to some bewhiskered official who agreed to supply us with necessary papers to get out. He told us that 'twas not possible to go via Antwerp (as we had come) . . . We "chinned" a bit, then the clerk started to write our passes, when he discovered 'twas 12.00 o'clock, evidently lunch time. We were told to return at 2.00 which we did and then received our passes. I went back to the legation to receive my final orders. When at last everything was ready Mr. Whitlock said I had better wait till morning because 'twas dangerous motoring after dark. Evidently the Germans shoot first and examine passes afterwards, at night. So I "chinned" with the Minister a bit, met the Spanish Ambassador and rode in his car to his legation for some letters. Then I returned to my hotel and to bed.

I and my driver, who speaks no English, left at 6.30 and proceeded by way of Louvain, Aerschot, Herethals, Turnhout, Breda and Moerdijk (you can look those places up on the map). Louvain was a mess and Aerschot still more so. Not only are these towns "shot up" but even the outlying farmhouses, etc. are burned or blown to bits.

We reached Rotterdam at 2.30. I left some letters and then went on to The Hague with letters for Dr. Van Dyke, the American Minister. He is an intimate friend of Uncle . . . I then came back to Rotterdam, arriving at 6.00. As I had been in the car for 11-12 hours almost without break I was content to call it almost a day's work.

As to the future I know nothing. I may stay here, I may act as courier between the various offices, I may go along with some of the food and I may return to London. Any of these are possible. . . . In any case I am as safe here as I would be in London and probably safer. The Dutch are "uneasy" and are mobilized but I don't think there will be any trouble. I am refraining from expressing my views on the present situation . . . because of the censor who may read this.

I am darn sleepy and am going to bed. My side partner is out in the marshes looking up lost lighters so I am alone.

The coal dealer should be careful to take the right weight.

PASS THE PLATE FOR STARVING BELGIANS

Christmas approaches and countless unhappy Belgians, despite governmental relief, the Rockefeller Foundation and other valuable agencies, are confronted with starvation. I therefore beg the favor of your columns to say that the Dollar Christmas Fund for Homeless Belgians, of which I am Treasurer, is working for the special purpose of preventing starvation amongst hundreds of thousands of Belgians this winter. For this purpose we are cooperating with the London "Shelling Fund" a much older fund which has collected nearly \$400,000 and which is expressly organized to see that no Belgian man, woman or child spends Christmastide devoid of food and shelter.

There will be no duplicating, no overlapping and every penny subscribed will go direct to the victims in whose behalf I appeal. I believe this great work of mercy commands the sympathy of us all and more especially in this month when Americans doubly blessed with peace and plenty are preparing to celebrate the Day of Thanksgiving. Inspired by this thought I suggest various ways in which you can help to avert the agony of suffering which must otherwise confront the refugees during the coming winter. You can send a donation to our Fund addressed to myself as Treasurer, Messrs. Henry Clews & Co. Bankers, Broad street, New York, or you can apply to our Secretary, Percy Bullen, 66 Broadway, New York for a collecting card. He will be glad to issue same to any person enclosing references. Churches, Chapels, Clubs, Societies and Sunday Schools can assist by a collection. Entertainment committees may render great help in sending us the proceeds of benefit performances. In all these ways friends everywhere are assisting nobly. All the money received will be cabled to Europe before Dec. 20th. Many heads of families and boarding houses have promised to "pass the plate" for the homeless Belgians before the turkey on Thanksgiving Day. The needs are immeasurable. Let us remember that no little nation in the world's long history has been more grievously stricken yet no people can raise their heads more proudly from the dust. THE CROWN OF THORNS IS STILL A CROWN! Help us as best you can. Your gift will surely be remembered long after the war has ended and to make Thanksgiving or Christmas Day will be the less happy because in some cases the gift may entail some measure of personal sacrifice.

Yours very truly,
 HENRY CLEWS.
 Treasurer, Dollar Christmas Fund for Homeless Belgians, 15 Broad street, New York.

WILBUR THEATRE—There is one dramatic company playing in Boston that has an unusually notable galaxy of veteran stage artists. This is "The Road to Happiness," William Hodge's big play success which is now in its fourth month at the Wilbur Theatre there. As the play comprises so many quaint character bits, Mr. Hodge found it essential to secure a number of old-time actors and actresses thoroughly expert in character impersonations. Ida Vernon, who plays Jim's mother, made her footlight debut fifty-seven years ago in the historic old Boston Theatre. Azack Evans, who is the kindly old Farmer Phil in Hodge's drama, supported Mary Anderson when she made her first appearance on any stage as Shakespeare's Juliet in Macavely's Theatre, Louisville. Edwin Melville, the droll, tobacco-chewing "Jedge," was a member of the same San Francisco company, in which were at the same time James O'Neill, Joseph Grismer, William A. Brady and David Belasco. Marie Haynes is a graduate of the celebrated Woods' Theatre Stock of Cincinnati and was for years a noted emotional actress starring on the American stage. Howard Morgan, Taylor Carroll and Scott Cooper have also all enjoyed illustrious careers. These veterans furnish much enjoyable character comedy, while the girl's grace and charm of Gertrude Hitz and Hazel Sexton irradiate sunshine all over the love scenes of the play.

WHY WE OPPOSE POCKETS FOR WOMEN

- 1.—Because pockets are not a natural right.
- 2.—Because the great majority of women do not want pockets. If they did, they would have them.
- 3.—Because whenever women have had pockets they have not used them.
- 4.—Because women are expected to carry enough things as it is, without the additional burden of pockets.
- 5.—Because it would make dissension between husband and wife as to whose pockets were to be filled.
- 6.—Because it would destroy man's chivalry toward woman if he did not have to carry all her things in his pockets.
- 7.—Because men are men and women are women. We must not fly in the face of nature.
- 8.—Because pockets have been used by men to carry tobacco, pipes, whiskey flasks, chewing gum and compromising letters. We see no reason to suppose that women would use them more wisely.—Alice Duer Miller in New York Tribune.

A CHANCE TO GET ACQUAINTED

Beginning with the first of December there will be an exhibition of books suitable for Christmas Gifts at the Children's Room of the Library, and it is hoped parents, or those thinking of giving such gifts to children, will inspect this collection. Other book lists and suggestions will be gladly given by the Librarian any morning, between 10 o'clock and 12 o'clock.

VOTES AND ROLLER SKATES

In order to save time, a telegraph company in New York has equipped its 62 girl messengers with roller skates. This army of girls deliver messages in the company's great operating room, and the roller skates enable them to get to their destinations in half the time.

It is for a like reason that women want to be equipped with the ballot. They can bring their messages effectively to the ear of legislators in much quicker time. It took the women of New York and Massachusetts over half a century to get an equal guardianship law for mothers, and most of the States have not got it yet. In California and Colorado the first Legislature that met after women were enfranchised passed the bill. In the State of Washington the women had worked eight years for an eight-hour law without success. Then they got the ballot, and the very next Legislature passed the law. In Chicago, Jane Addams says women had tried in vain for years to get a decent system of garbage disposal, to get policewomen for young girls, a boys' court for boys just a little too old for the juvenile court, and various other improvements. As soon as the women became voters, the improvements were granted. To save time in these matters often means to save lives, and sometimes to save souls. Why insist that all women must use the slowest way?

IN MEMORIAM

"My word, Jacob," said Steinberg, "that is a beautiful diamond you have in your pin. How much did it cost?" "I paid \$1,000," replied Jacob. "One thousand dollars! Good gracious," exclaimed Steinberg. "Vy, I did not know you ver vorth so much money." "Vell, you see," explained Jacob, "ven der old man died he left \$1,000 for a stone to be erected to his memory, and dis is der stone."—Kansas City Star.

Announcing The New Typewriter OLIVER No. 7

WE ANNOUNCE AN AMAZING MODEL—The OLIVER No. 7—a typewriter of superexcellence, with automatic devices and refinements that mark the zenith of typewriter progress. A marvel of beauty, speed and easy action. Typewriting efficiency raised to the Nth power.

The Oliver No. 7 embodies all previous Oliver innovations and new self-acting devices never before seen on any typewriter. A leap in advance which places The Oliver ten years ahead of its time. So smooth in action, so light to the touch, so easy to run, that experts are amazed. A model that means to the typist delightful ease of operation.

A model that means a higher standard of typewriting, longer and better service.

The No. 7 is now on exhibit and sale at all Oliver Branches and Agencies throughout the United States.

The new model has more improvements, refinements and new uses than we can even enumerate here.

The "cushioned keyboard" with "anchor keys" and the new automatic features mean less work for the hands, less strain on the eyes, less manual and mental effort.

With all of these masterly mechanical improvements we have made the machine more beautiful and symmetrical. From every standpoint the OLIVER No. 7 attains superlative excellence.

Nothing you could wish for has been omitted. The new device, refinements, improvements and conveniences found on the No. 7 represent an enormous outlay and vastly increase its value—the price has not been advanced one penny. We shall

even continue in force our popular 17-Cents-a-Day purchase plan, the same as on previous Oliver models.

The OLIVER No. 7, equipped with the famous Printype, if desired, without extra charge.

You owe it to yourself to see the new machine before you buy any typewriter at any price. Note its beauty, speed and easy action, its wonderful automatic devices. Try it on any work that is ever done on typewriters. Try it on many kinds of work that no other typewriter will do.

It is a significant fact that the typewriter that introduced such epoch-making innovations as visible writing, visible reading, Printype, etc., should be the first to introduce automatic methods of operation.

ENECESS—NOLAN

The wedding of Miss Kathleen Nolan, the daughter of Mrs. Maria A. Nolan of West Newton and Mr. John Enecess of Newton, a member of the Newton police force, took place Thanksgiving morning at St. Bernard's Church, West Newton, where the nuptial mass was celebrated at nine o'clock by the pastor, Rev. John F. Keleher. The bride was gowned in white duchesse satin with tunic of duchesse lace and trimmings of opalescent pearl and carried a shower bouquet of lilies of the valley. Her sister, Miss Marie A. Nolan as maid of honor wore gold satin with tunic of gold chiffon and gold lace, a Castle cap, and carried a bouquet of yellow marguerites. The bridesmaids, Miss Margaret Nolan, sister of the bride and Miss Margaret Enecess, sister of the groom, were dressed in rose satin, with drapings of Point de Venis lace, large black velvet picture hats with rose ostrich tips and carried bouquets of Killarney roses. Mr. William Enecess, brother of the groom, was best man, and the ushers were Messrs. Charles E. Nally of Newton and Joseph A. Henley of Belmont.

A wedding breakfast for the immediate families followed at the home of the bride's mother, 936 Watertown street, which was attractively decorated with palms and yellow chrysanthemums for the occasion.

On their return from a wedding trip Mr. and Mrs. Enecess will occupy their new residence at 942 Watertown street, where they will be at home after January first.

NEWTON WOMAN HURT

Mrs. Arthur Ricker, of Waverley avenue, Newton, received two broken ribs and severe cuts and bruises on the body in a street car accident which took place in Waltham last Friday night. Mrs. Ricker was a passenger in a street car of the Bemis line which left the rails on River street, Waltham, and went wild across the street and crashed into a telephone pole. Mrs. Sarah McManus of Bemis was also cut and bruised and the motorist narrowly escaped being crushed to death.

The car was crowded at the time of the accident and a number of passengers were standing in the aisle. When the car struck the pole the impact threw those in the aisle to the front of the car and they fell upon Mrs. Ricker. Flying glass from broken windows cut several of the occupants of the car.

Passengers say that the car was making good speed when the wheels jumped the tracks. Quick application of the brakes by the motorman checked the momentum of the car to some extent as it ran diagonally across the street and brought up against the telephone pole with great force. Had it not struck the pole it would have plunged over the ten foot wall at the side of the street and casualties would have followed without doubt.

Those who were injured were assisted from the car by the passengers, who were not badly hurt and a call was sent for physicians.

Mrs. Ricker was removed to the office of Dr. Hoyt in a carriage and her injuries attended to. She remained at the home of the physician until Saturday afternoon when she was taken to her home.

N. H. S.

The Freshman class has about two hundred and eleven members. This is not as large as the class of 1913 in the school across the way. There are one hundred and twenty-one girls and ninety boys.

Both schools closed Wednesday at twelve, and will not open till Monday, the 30th.

The English Club met in the Hall, to hold its first meeting, and the subject was "Epigrams." Miss Speare gave a humorous sketch illustrating the "Epigram as We Find It on the Street." Bartlett spoke on the "Epigram in History," Noble on "Famous Quotations," and Ranlett on "The Epigram in General and Wm. Watson's Particular." At the close of the program, the members illustrated proverbs by grotesque sketches which were hung up in the library and afforded much amusement, while refreshments were being served.

Monday morning the Girls' Debating Club called the Portia Club, met in the library. The subject debated was "Resolved, that Mathematics should not be a required subject in girls' colleges." The affirmative side won.

The Boys' Debating Club spent most of this time on business last meeting. Next Monday they will debate on "Resolved—that the United States will have to intervene in Mexico before peace can be declared."

There are about one hundred and ten pupils eligible for membership in the English Club; about sixty of these are Juniors and the rest are Seniors. An interclass basketball schedule has been arranged, and will be played off during December.

A campaign has been started for six hundred subscribers to the Review. A thermometer has been posted showing the number of subscriptions so far; it is 450.

The next number of the Review is to be devoted to the Freshmen. All the stories will be the work of members of the class of 1918.

CLAFIN GUARD NOTES

On next Monday, November 30, Company C of Newton and Company F of Waltham will participate in a battalion drill in this Armory under command of Major Merideth of the 2nd Battalion. The public is invited to be present, as the drill will undoubtedly prove of great interest to many.

The men of the Company were unanimous in giving praise for the dinner set before them last Monday evening. After dinner Major Merideth addressed a few words to the men; referring to the necessity of every member of the militia giving best efforts and support to their officers. He also briefly outlined the growth of the militia and its use as a national protection. After dinner the Company was drilled by the Non-Commissioned Officers under supervision of Sergt. Champlin of the U. S. Army.

White stripe medals have been issued to the men entitled to wear them. The blue stripes have been declared obsolete and are not used.

BROKEN GLASS

To the Editor:—
At the bottom of the third column on the eighth page of the issue of the Graphic for November 20th there is a timely article on broken glass. The concluding sentence, however, is unnecessary as you will find that the Legislature of 1913 in Chapter 214 took care of this matter. The act was amended this year. See Acts of 1914, Chapter 76, and as amended reads.

"Whoever throws or drops glass in a public street or highway, or on a bathing beach, or near the same, or on a street or highway, sidewalk or reservation in the immediate neighborhood of a bathing beach, may be punished by a fine of not more than \$50 or by imprisonment for not more than thirty days."

This Act took effect upon February 24th, 1914. If any of our good citizens see anyone smashing glass on the highways, it would have a most salutary effect if they would obtain the name of the offender and make complaint to the police. One or two prosecutions would go a long way towards stopping the trouble.

Very truly yours,
E. B. BISHOP.

A GOOD THANKSGIVING

Said old gentleman Gay on a Thanksgiving day
If you want a good time, then give something away.
So he sent a fat turkey to shoemaker Price.

And the shoemaker said, "What a big bird! How nice!
And such a good dinner is before me I ought
To give Widow Lee the small chicken I bought."

"This fine chicken, oh, see!" said the pleasant Widow Lee,
And the kindness that sent it how precious to me!
I would like to make someone as happy as I—

I'll give washwoman Biddy my big pumpkin pie."
"And, oh, sure," Biddy said, "'tis the queen of all pies!
Just to look at its yellow face gladdens my eyes

Now it's my turn, I think, and a sweet ginger cake
For the motherless Finnigan children I'll bake."
Said the Finnigan children, Rose, Den-ny and Hugh,

"It smells sweet of spice, and we'll carry a slice
To poor little lame Jake, who has nothing that's nice."
"Oh, I thank you, and thank you!" said little lame Jake;

"Oh, what a bootiful, bootiful, bootiful cake!
And oh, such a big slice! I will save all the crumbs
And will give them to each little sparrow that comes."

And the sparrows, they twittered, as if they would say,
Like old gentleman Gay, "On a Thanksgiving day,
If you want a good time, then give something away."

—Maritime Farmer.

White House Coffee

The Encyclopedia Britannica speaks of coffee as an "Important and valuable ARTICLE OF FOOD used since 875 A.D." Also, "Coffee is exhilarating, lightens the sense of fatigue, and sustains strength under prolonged and severe exertion." What better tribute could be paid to coffee than the above from this world-famous authority?

It describes White House Coffee to the letter. We would only add that "White House" has a flavor never approached by any other Coffee; its dependable quality and excellence is secured by expert blending of selections from the Mountain Districts of the Coffee World whence come the sweetest Coffees, and the White House Brand is prepared for market and delivered to you just as we pack it in a thoroughly up-to-date coffee establishment, where all the weighing and handling is done by automatic machinery, in rooms continuously supplied with fresh air and flooded with sunlight. 1, 2 and 3-lb. sea ed cans only. Never in bulk. All leading grocers. If you have not tried "White House" you have missed one of the joys of living.

WOMEN'S CLUBS

Miss Grace M. Burt, Editor.

Art Conference

The annual conference of the Art Department of the Massachusetts State Federation of Women's Clubs will be held in the New Lecture Hall of the Boston Museum of Fine Arts on Thursday, Dec. 3. The morning session opens at 10.30 with a word of greeting from the Director of the Museum, Dr. Arthur Fairbanks and will be followed by an address by Mr. Rosier Howard of Paris on "Pleasure in Pictures," illustrated with lantern slides. In the afternoon Mr. Huger Elliott, supervisor of the educational work of the Museum will address the delegates on "A Plea for the Miner Arts." Admission will be by card with name and club represented. Lunches can be secured in the Museum.

Local Announcements

The Newton Highlands Shakespeare Club will observe Guest Day at the home of Mrs. W. E. Moore, 55 Hillside road on Saturday, December 12, when the subject for the afternoon will be "English History during the Reign of Henry VIII."

On Nov. 30 Rev. Abraham Ribbany will address the Waban Woman's Club on "Wise Men from the East and Wise Men from the West," in the Union Church vestry.

The Auburndale Review Club will meet at the home of Mrs. Robert J. Sisk of Islington road on Tuesday morning, Dec. 1st.

Prof. Bliss Perry will address the Newtonville Woman's Guild on Tuesday, Dec. 1st, on "The Youth of Napoleon." There will be an exhibition and sale by the State Commission for the Blind of work done by the blind before and after the lecture, the proceeds to go to the blind people.

The Social Science Club will hold its monthly business meeting on Wednesday morning. The report of the Chicago Biennial will be given at this time.

On Wednesday afternoon the Pierian Club will meet at the home of Mrs. C. F. Rogers, Jr., when Mrs. W. S. Everett will be the hostess.

The next meeting of the Newton Centre Woman's Club on Dec. 3, will be the second of the Current Events lectures by Rev. Howard A. Bridgman.

A sale and chafing dish supper is being arranged by the West Newton Women's Educational Club for Friday afternoon and evening, Dec. 4th.

Local Happenings

On Tuesday afternoon the Auburndale Woman's Club enjoyed an informal talk upon "Life in Russia" by Mrs. George Lawrence Parker. She gave many interesting personal touches of her own experiences of her three years' residence in St. Petersburg, where she came in contact with the poor people as well as having every advantage of the social life of the nobility. She brought out the fact that everywhere great contrasts are manifest, while the people have made great strides in certain directions they are far behind in others. In crossing the borders one is at once impressed with the fact that it is an absolutely oriental country. She has, however, great faith in the future of Russia. Exquisite examples of the Russian needlework were exhibited. Miss Randall sang accompanied by Miss Van Wageningen. Russian tea was served at the close.

The Relief committee for the Club has been hard at work. They have just sent off fourteen dozen union suits for Belgian children with the last consignment. The sum of \$36 has been contributed by club members to aid in this work.

On Dec. 4 the club will hold an all-day sewing meeting in the Congregational chapel for the Red Cross.

On Monday afternoon the C. L. S. C. of Newton Highlands continued its study of Ireland with a paper by Mrs. W. T. Logan, in which she considered the history of the country from the establishment of the Union in 1800

THE composition, lighting and posing of each picture is given the individual attention necessary to make it a study of your most attractive personality.

down to the present day. She paid special attention to the lives of Robert Emmet, Daniel O'Connell, Charles Stewart Parnell and contrasted the present situation with that of the earliest times.

At the meeting next week the study of Ireland will be set aside for one of the clubs' popular special days. Mrs. E. G. Swift will be the hostess.

"Brazil the Boundless" was the subject of a paper given by Mrs. G. W. Barker at the meeting of the Newton Highlands Monday Club on November 23. Mrs. Ogden had for her subject, "The World's Coffee Cup," and Mrs. Fairchild, "The Coast Cities."

Next week the club observes Gentlemen's Night at the home of Mrs. J. W. Moore, 39 Chester street, at eight o'clock. Prof. E. Charlton Black will lecture upon "The Characteristics of the Short Story of Today."

OUR MUTUAL FRIEND

Members of the Elliot Guild scored a great triumph in their annual play, "Our Mutual Friend," which was presented on Monday afternoon and Tuesday evening at the Hunnewell Club, Newton.

The hall was taxed to its capacity at both performances, and the greatest enthusiasm prevailed.

The play was in 5 acts and was well staged and the scenes included the "Family Apartment at the Wilfer's," and "Mrs. Boffin's Drawing Room."

The cast showed careful training as well as natural ability, being coached under the direction of Miss Clark and Miss Bacon.

The leading role, John Roker with (our mutual friend) was cleverly portrayed by Miss Mildred Clark, who acted the masculine role to perfection, and displayed great dramatic talent.

Miss Louise Bacon as R. W. Wilfer was extremely good, the part being nicely interpreted and the lines well spoken, and Miss Marguerite Collins made a tremendous "hit" in her impersonation of Mr. Boffin, and demonstrated to the audience that she has dramatic as well as vocal talent.

Miss Muriel McCready, as "George Sampson," was another of the clever ones in masculine array, and Miss Louise Pinkham made a very charming and attractive "Bella Wilfer," and played the part in a most charming manner.

Miss Beth Fuller, as "Mrs. Wilfer," was one of the best in the cast, and acted her part with perfect ease, and Miss Irene Kimball, as "Lavinia Wilfer" played the part assigned her in an exceedingly pleasing manner.

Miss Mary Ganse, in the role of "Mrs. Boffin," had a difficult part but was equal to the occasion and deserved all the bouquets she received.

Each member of the cast spoke the lines distinctly and there were no weak voices and apparently no stage fright, and the audience gave evidence that every act was appreciated to the fullest extent.

The musical program was an attractive feature of the entertainment worthy of mention as it included vocal selections by Mr. C. Azel Collins, tenor of the Newtonville Universalist Church Quartet, who is an exceptionally pleasing soloist, and has had remarkable success before critical audiences; piano solos finely rendered by Miss Mildred Taylor and Miss Martha Gifford; and a vocal solo by Miss Eleanor Eddy, who possesses a soprano voice of wide range, beauty and volume.

The ushers were: Miss Eleanor Eddy, Miss Henrietta Fredericks, Miss Helen Jewett, Miss Harriet Perkins, Miss Martha Gifford, Mrs. Duncan Reid, Mrs. Harold B. Stanton.

DINNER DANCE

Members of the Dancing Supper Club opened their social season on Tuesday evening with a delightful dinner dance at the Brae-Burn Country Club. About thirty-two guests participated in the well arranged order of dances, which included the popular Fox Trot, and many other of the latest dances.

Tables, attractively decorated with red carnations, were arranged in the sun-parlor at which dinner was served.

The world is full of the sort of friends who take to the woods when trouble shows up.

COLONIAL THEATRE—The last week of Julian Eltinge, past master of character acting, agreeable comedian and distinctive stage personality, in his newest and greatest success "The Crinoline Girl," is announced. The songs in the new offering are all sung by Mr. Eltinge who wears for each number dazzling ultra-Parisian gowns with all the grace and charm of manner that certainly ought to make the feminine contingent present envious to the extreme. He sings "The Tempting Tango," "In My Dream of You," "When Martha Was A Girl." Mr. Eltinge is surrounded by a cast that has already received the mark of approval from capacity audiences of the last three weeks.

A Breath of Thanksgiving

Let there be peace over all lands,
And take time for a breath of Thanksgiving.
Oh, ye Kings and Kaisers and Czars,
Stop all your fighting and destructive wars.
Let there be peace over all lands,
And stop for a breath of Thanksgiving.
Let there be peace over all lands,
And take time for a breath of Thanksgiving.
Oh Kings, why cause more homelessness?
Why make more unhappiness?
Let there be peace over all lands,
And time for a breath of Thanksgiving.
Robert Barrett.

A Thanksgiving Fright

Bobby said to Turley, "Thanksgiving Day is high,
And tomorrow you'll be roasting, yes, roasting in a pie,
And don't you worry Turkey, I'll be there, you bet,
Then your roast, pumpkin pie, and squashes I will get.
Oh! then what a flutter of wings was heard, Bobby homeward ran,
And later Bob heard Turkey cry, "Run faster if you can!"
I wonder if he ate Turkey on the following day.
And if he got the goodies, he spoke of, "Oh! Aye!
That's what I wonder, and that no one knows,
For this is the end of my story, and that is the way it goes."
Carl Schipper.

My Diary

Nov. 24, 10 A. M. Oh dear, I might have known something would happen! Here I am in bed with the chicken pox, and the day before Thanksgiving. Dear me, what shall I do? Mother just came in with this horrid old book in which she told me to write all the things which happen during the day. But I don't feel a bit like it and besides my head aches and my face itches. I wish I had something to do. 10.30 I feel a little better now, perhaps I might as well write something in that book of mine, so here goes. "Mother what time is it?" "Just eleven o'clock." "H. I'm a kid." 11.00. Papa went down to the market quite early and brought home a wonderful turkey with a lot of other queer bundles. 11.45. I smell good things in the kitchen and how I wish I was down there right now! 12.30. Mother says the turkey is full to the brim with stuffing and although I cannot see it I can smell it. 1.00. The doctor would only let me have broth for dinner but that was good. 1.15. I am so sorry because my cousins are here and I cannot see them. 3.00. I have heard them playing all the games I can think of and now they are under the kitchen window talking while they listen to the sounds inside. 5.00. I shall have to put you away for I am very tired. (end of 1st day.) Nov. 25, 7.00 A. M. The Eventful Day. My eyes hurt me so mother will write for me today. 10.00. I can hear many merry sounds downstairs and how I wish I were there. I can picture the long rows of chairs seated around the lengthened table, and hear their merry chatter. 12.00. What do you think! I am to have turkey and pudding like the rest of the folks! It will be as if I were with them—almost— 2.30. All the rest of the people have gone to church and I am all alone except that I have my dolls, so you see I am not lonesome. 5.00. We are going to have some supper now but I don't think I can eat a bit. Helen Sheldon.

ALBEMARLE GOLF

A. T. Safford was awarded the trophy in the competition for the Vice President's Cup at the Albemarle G. C. on Tuesday, but to quote many of his clubmates, he "had to play to get it." All of his matches went to the last green, with the exception of the final, in which he defeated C. E. Stearns by 5 and 3. The summary: First Round—H. H. Cook beat A. H. Wing, 2 and 1; C. E. Stearns beat S. Dutton, 5 and 3; P. Schofield beat W. S. Woodman, 3 and 1; E. J. Cox beat G. H. Adams by default; P. Byfield beat J. S. Dunbar by default; A. T. Safford beat L. E. Demelman, 1 up; E. M. Gould beat R. Lyons by default; W. W. Leete beat F. M. Copeland, 2 and 1. Second Round—Stearns beat Cook, 8 and 6; Safford beat Schofield by default; Cox beat Byfield, 1 up; Gould beat Leete by default. Semifinal—Stearns beat Cox, 1 up; Safford beat Gould, 2 up. Final—Safford beat Stearns, 5 and 3.

Smith & McCance, the well known booksellers, formerly of 38 Bromfield street, are now well settled in their attractively located new store at 2 Park street. This firm, whose name stands very high among lovers of books near and far, has been in business since 1892, and now, in its third location, it is better situated and better prepared than ever to meet the wants of its many friends and patrons. The front of the new store faces on the Common, and from its rear windows one may look out onto the historic Granary Burying Ground. Mr. McCance, who is always accessible, says he will continue to specialize in early Christian Science literature and standard sets of all kinds. Those who eat corn on the cob run a risk of having corn in the ear.

A Sad Thanksgiving

This autumn I was beginning to feel that I was very beautiful being so nice and fat. The keeper had put me in a house all by myself and he fed me five times a day. The only trouble was that the only people that I had to talk to were the pigs and they were always so busy rooting that they didn't have much time to talk to me. One day two of them were rooting near my house when suddenly they pushed something white underneath the fence. I picked it up and this is what it said, "We would like you to come to the house for Thanksgiving dinner."
"That certainly was kind of my master," I thought, "I will surely go." The next morning everybody was up early and I was getting ready for dinner when the keeper came and took me away. As we walked down the path Mr. Pauling (the owner of the farm said to the keeper, "I'll bet he weighs twenty-five, at least."
"Yes, sir, you're right I wouldn't be surprised if he weighs thirty pounds."
I was very happy when I thought that I was going to the big house. But oh, what a sad surprise when the keeper led the way to the woodshed and put me on the chopping block! Here I will have to end my story because that was the end of my life.
Clarence McDevitt.

The Moon

The silvery moon advanced over lofty hills and trees, gently glided across the stilly night, gently closing the sleepy eyes of the flowers and birds. The weary earth reposed beneath its soothing power. It reigned high above the world, guarding it from all harm.
Carl Smith.

An Interesting Game

Monday there was sure to be an exciting football game. Boston Latin vs. Newton High. After school was out everybody ran to the field to watch the game. It began at three-thirty promptly. Latin kicked off to Newton. They ran it back ten yards. Newton made a successful forward pass which netted fifteen yards and first down. Then they tried another forward pass, but a Latin man jumped into the air and caught it. Latin's ball. Everybody played as hard as they could. Newton got the ball on downs. The whistle was blown for a quarter. Score: Newton 0, Latin 0. The second period began with the ball on Latin's forty-eight yard line. The next play was fumbled, but a Newton man fell upon it. An end rush made first down again. Then they gained seven yards at centre and another rush gave them first down on Latin's twenty-three yard line, where Harris dropped back seven yards and dropped a goal. Again the whistle blew for a quarter. Score: Newton 3, Latin 0. The Newton part of the grandstand was yelling and thundering. Newton tried many of the shifts and tricks the coach had taught them. Even so Latin men met them every time. In spite of the long gains the score was not changed. Enright tried two drop-kick goals but failed both times. So the score of the most interesting game I ever watched stood: Newton 3, Latin 0 at the end of the game. Shattuck Osborne.

The Turkey and the Hen

"Gobble! Gobble! Gobble!"
Said the turkey to the hen,
"They think they'll catch me
Tomorrow at ten."
"Cluck! Cluck! Cluck!" said the hen.
"I'd be glad if they could
As I've always said.
You are not much good."
Margaret Hennessey.

FORESTRY ASSOCIATION

(Continued from Page 1.)

essentially local improvement societies working along forestry lines, and have been most successful in having towns reforest watersheds and waste land, plant shade trees, erect fire look-outs, and suppress insect pests. A branch at New Bedford this year secured \$5400 by public subscription for shade tree planting; the Fall River branch was instrumental in securing efficient action by the city against the brown-tail moth; the Pittsfield branch was responsible for an appropriation for the reforesting of a watershed; and branches in Worcester, Dedham, Springfield, and other cities have been active in promoting similar work. It is felt by the officials of the association, and by many of its members in Newton that such a local organization will be of value here. Newton has been noted for its civic pride in the esthetic improvement of the city which is evidenced by the beautiful trees prominent on every street; and a branch of the Massachusetts Forestry Association supported morally and financially by the strong state organization, should be a great factor in keeping this interest alive, and helping future action in this work. Newton is admirably situated to take up the town forest idea, and it is hoped that after the local branch is established, steps will be taken to enroll the city in the Town Forest contest."

WELLINGTON—DAVIS

The wedding of Mr. Henry Hill Wellington of Philadelphia, the son of Mr. and Mrs. Arthur J. Wellington of Church street, Newton, and Miss Blanche Spicer Davis of Philadelphia, took place in that city Saturday evening, Nov. 14th, the ceremony being performed at seven o'clock by Rev. Dr. Lin Bowman, in the presence of the families of the bridal couple. The bride was in white chiffon tulle, with the conventional veil and orange blossoms and carried a shower bouquet of white roses, lilies of the valley and orchids. She was given in marriage by her brother-in-law, Mr. E. M. Prettyman and her sister, Mrs. Prettyman, was the matron of honor. Mr. C. Oliver Wellington of Belmont, Mass., brother of the groom, was best man. Mr. and Mrs. Wellington will spend their honeymoon on the South Shore and will reside at 722 Ansbury street, Logan, Pa., a suburb of Philadelphia.
